The Uniden Bearcat BC-9000XLT is a scanner offering great frequency coverage. This models covers virtually every frequency from 25 MHz to

1300 MHz (less cellular, although clear images are between 360~385MHz!). It receives military frequencies not found on most other scanners. You get 500 channels organized in 20 banks of 25 channels each. A VFO control (manual tuning knob) enables fast selection of memories or frequencies. TurboScan allows you to scan up to 100 channels per second and TurboSearch lets you select either 100 or 300 steps per second when searching VHF frequencies. The automatic store feature searches out active frequencies and automatically stores them for you in an available memory location.

Selectable mode allows you to change the default receiving mode (AM, FM-wide or FM-narrow) to hear all the action. You can also change the default step sizes!

Advanced features include: Two Line Alpha LCD, allows you to label your frequencies, i.e.; "Detroit Police", Delay Key (2 seconds), Channel Lockout, Data Skip (the scanner skips over non-voice channels), Backlight Dimmer, High Cut Audio Filter and tape recorder activation.

External jacks include: BNC antenna, external speaker, line out, aux jack and DC power. The BC9000XLT comes with: AC adapter, telescopic antenna and Owner's Manual. Size: 10.5x3.5x7.375 inches. Frequencies: 25-550 MHz,
760-824 MHz, 849-869 MHz, 894-1300 MHz!

Includes Uniden's optional CTCSS tone decoder board, installed!!! Like new condition, complete with A.C. Power Pack, Antenna, Original Box, User Manual, etc.

Note: This scanner has been discontinued by Uniden, and to the best of my knowledge, distributors stocks have been depleted. $250.00, including shipping within U.S., lower 48 states. John English

& an OSRAM N32 marked 380V
plus a couple other screw-in types on which I can't read the numbers

These are a mix of new and used, mostly made by GE, though I saw a few Westinghouse and RCA while I was making the list -- they probably average 40 years old and most of the bases are somewhat tarnished from age. I lit up a couple of the larger ones and they seem to work ok -- a transistor curve tracer works great to test these.

If anyone would like the whole bunch, I'll take $75 for them all.

Plus shipping, if necessary, naturally.

Late QRP++. Latest factory version. Has extended transmit mod
professionally done. Mint condition. Original manual and shipping box. I
can email pictures of inside and outside. Indestinguuishable from brand
new. Sat on shelf as backup rig. Rig works great. No problems of any
type. No scratches anywhere. $350 plus shipping. MO/cashier's check
preferred, personal check ok after clear. Jim W7LS

While buying a pile of other manuals, I ended up with a

"TRANSLATION"

"CODE PRACTICE TAPE MC-650"

14 Lessons, 15 Reels

By McElroy Manufacturing Corporation
Littleton, Massachusetts, USA

which is a booklet showing the text equivalent of the practice tapes.

I have no use for it. Does anyone want it? Weighs about 6 oz and is 6"x9".

The best deal going these days is the RFP branded tube from RF Parts.
They're made in China, but tested and guaranteed. At this stage of the
game a new Eimac is overpriced, the French tubes require more drive, and
the odd labelled Chinese tubes, from the same factory as RFP, often are
below standard.

Hallicrafters S-38D Receiver in good working condition.
This is a silver-gray version of the S-38D (not blond color). Has all
original knobs and a very nice back panel.

It works well, and has a nice-looking original power cord.
Will sell for $55.00 plus shipping

>game a new Eimac is overpriced,

Eimac hasn't made 3-500's or other glass tubes for years. Triton
bought the old tooling from Eimac.

>the French tubes require more drive,

The Amperex 3-500s (French tubes) require the same drive as the Eimac
tubes did. They are more reliable than the Chinese tubes.

>the odd labelled Chinese tubes, from the same factory as RFP, often are
>below standard.

I haven't seen a relable Chinese 3-500Z yet, and I see hundreds of
them a year.

The Amperex tubes are somewhat troublesome with filament-grid shorts,
but are still much more relaible than the best Chinese tubes.

Ameritron sells new tubes at good prices.

I am at my wits end with this problem....please help.

I have a 1988 Toyota Camry that causes interference to my 2 meter radio and scanners. I'm not sure what is causing it because the scanner gets a whining noise even when it operates on its own power and using the rubber duckie. This tells me that it's RFI. The 2 meter radio gets it even worse since its hooked to the cars electrical system. It gets alternator whine and some other kind of RFI interference. I thought it was my older Kenwood mobile but I just upgraded to a newer mobile and still get the interference....maybe even worse. Its so bad that unless I have a S-7 or better signal on you, I can't hear you. It actually cuts the signal out as if someone were keying over them. I hate talking on repeaters so I don't have the luxury of full scale signals. We try to stay on simplex unless its a must to go to the repeater.

I have read several web pages and first things to try is this:
New (better) Plug wires.
Plugs!
Check the Distributor for cracks or abnormal wear.
****

I have already ran power wires straight to the battery.
Tried Ferrite coils on the Power leads and antenna coax.
I read that Toyotas are bad about having a noisy fuel pump?!?! Any experiences?
I know there has to be others with the answer to this problem......please help if you know the answer.

Dan I also have a 88 Toy, I had the same thing here, I went to Radio shack and bought the largest noise filter that they had amp wise. (Choke type) and put it in the power lead at the radio. Fixed 90% + ! I have now put in a new radio, the kenwood 700 and it works fine with that too. (There is still some kind of noise that I don't hear or see on the meter that blocks out some if not most of aprs when the car is running. If I am where there is STRONG aprs it works OK.)

FUEL PUMP !
Need to work it with ferrite, but that only gets about half of it.  Try
complaining to Toyota, see how they got it out of the radio..

better yet look for a new car,

He Guy's, I'm posting this on in a few different places, not sure where the expertise may be.

I'm putting together a HF mobile (706-tuner-whip) going to put it in a Jeep Sahara.

DOES ANYONE KNOW IF THESE VEHICLES ARE KNOWN TO HAVE INTERFERENCE PROBLEMS, Noisy electrical systems, fuel pumps and the like ?

Jim

Not specifically. Just make sure you use a good braided ground strap
from the chassis directly to ground and wire the power directly to the
battery and you should be ok.

If you are going to use it on the higher HF bands, a simple whip is ok. On the lower bands, it will load, if you use a SGC-230 type tuner. If you try a cheaper tuner, such as a LDG, it probably won't. Too much inductance needed. Even if you do manage to match the whip, the radiation efficiency will be unacepptably low. Trust me: get a loaded whip of some sort. SGC uses one that has a self resonance point around 14 MHz. That loads from

80-10 meters. Jim

jhilins,

I have no idea if the Jeep is more susceptible to RF than
other vehicles, but I'll offer this. Route all cables as far
from the 'computer' as possible. Do NOT use braid as a ground
strap, it will deteriorate in weather. Instead, use a copper
strap such as the flashing used around roofs. And make the
best mechanincal connection you can. Most problems with mobile
antennas usually come back to grounding.
The standard steel whip, or SGC's whip are useless on the
lower HF bands. They ~will~ load, but no one will hear you.
If your going to use 80 and 40 meters, invest in some kind of
loaded antenna, otherwise you will be a very frustrated camper.
'Doc
PS - Also, invest in a 5 gallon bucket of torroids...

Doc, I've been using braid for grounding straps for 35 years... no
problems.

I occasionally set my TS850 in the seat next to me and use
a Hustler antenna on 20 meters...no special wiring...just ran
the power from the 850 directly to the battery...use RG58
to the antenna mounted on the rear bumber...has worked
fine, little or no ignition noise from a 97 TJ.

Doc,

It amazes me that the tuner/whip combinations garner any sales at all. Of course, it is just MHO, BUT that opinion is based on many years of HF mobile study, installation, and mistakes. In some cases, a hamstick will outperform those things--and a hamstick is just about the worst thing on the lower bands. I wouldn't waste my time, nor my hard earned cash, on those things.

It is an unfortunate thing that some people *really* believe that a "tuner" actually "tunes" an antenna. I had such a conversation with a supposedly knowledgable Extra class last week! When I pointed out that tuners don't "tune" the antenna, he confidently assured me that a certain brand of "tuner" both (quote) "physically and electrically" tune the whip! PHOOEY! I hear sub-standard mobiles on the air all the time. They are often down in the mud, unreadable, or just not even *there*. Yet their owners swear by the "great" performance their tuner/whip combo is giving, how "good" their hamstick (dummy load on a stick) is, and my question is always: Compared to WHAT? Put 'em in field trials, run field strength tests against bugcatchers and screwdrivers. See the superior field strength of competitive, high Q, RESONANT antennas--it'll make ya sick! I guarantee your tuner/whip or hamstick will get MASHED in a field trial.

Now, having thrown off on the tuners, etc, let me say this: Certainly, there are times when it is not feasible to use higher efficiency antennas. The spouse threatens bodily harm if you drill holes in the new car, or there is no way to attach a big antenna. You do what you have to with what you can. And that is understandable. But if you are out for the best signal you can obtain, it takes a BIG, UGLY antenna to do the job.

Jeez Jerry, you're confusing the heck out of me.

Didn't you say a couple of weeks ago when someone asked about wiring a CB to: wire the hot side to the battery and the neg side to a nearby bare metal groud?

I had thought of wiring my CB direct to the battery (pos & neg, both fused) and then had second thoughts after reading that post of yours.

Now I've interpretted your post below to say pos and neg to battery.

No, the braided (or whatever) ground strap I was referring to goes between the radio's chassis and the Jeep body or chassis. It's just that a braided ground strap provides not only a good DC ground, but a good RF ground too. The positive side still goes to directly to the battery through an inline fuse. The rule-of-thumb is that the ground wire should go to the closest possible electrical ground. The ground wire can either be the black wire, or simply a ground-wire (or braided ground wire) connected between the radio's chassis (like a cabinet screw) and the Jeep's body or chassis. HTH!

Jerry

Hello, go with a screwdriver antenna, it does not need a tuner...its big, its ugly, but it beats everything else, that I've tried. Hamsticks work soso above 40m, but for 75 go with the screwdriver. Ground the rig to nearest chassis ground, just grounding thru the coax shield is not good enough. It will work some without it but will work better with chassis ground.   I've used a 706 for a couple of years and have learned the importance of good grounds and good antennas. On the bugcatcher, they work fine, but everytime you want to change frequency you have to stop and move the jumper. Hope this helps...AL

********** Homebrew Radio things *******************

Many hams build things with a large investment in time & parts that are worth far less... later.   Here are some items from the estate stuff I've been selling that fit that description -- priced accordingly.

Unless noted, most of the items below are built on PCB material and most of the enclosures are made by soldering pieces of PCB material into a box -- not all sides may be present! Batteries not included!   A few of these devices come with schematics, mostly not.   The wiring is all open enough that you can generally see what is going on.

Battery drainer -- LM317K (TO-3) plus a pot wired as a current sink to drain batteries -- 4" x 3" x 1.5" -- $2

PL Tone generator -- Wein Bridge Oscillator powered by two 9 volt batteries. - $3

Fully populated 2.5" x 5.5" homebrew PCB w/ two 1496 balanced mixers, a couple slug tuned coils, plus a CA3001-- I only see power connections; Don't know what this does! $4

Touch Tone Encoder -- Western Electric Touch Tone Dial mounted in a 4"x4"x2" metal enclosure with power switch. Has a 4 pin DIN connector plus matching cable terminated in a 1/8" mini plug. $5

Two Tone generator -- Two Wein Bridge Oscillators powered by two 9 volt batteries on perf board. - $5

Some kind of test oscillator with a 556, two pots with anodized gold (colored) knobs, pwr. sw.. LED,. & Banana jack outputs -- $5

435 MHz power splitter with (3) N connectors. This made out of brass sheet stock and is about 15" long by 1" square. $10

Varactor multiplier (unfinished) -- looks like it's designed for 144 to 440. Built in a 3.5" x 2" x 7/8" extruded aluminum case -- top plate missing. Silver plated coils, Johnson 189-6-4 caps. It think it is complete execpt for the input and output leads. $10

VLF Up converter -- Converts 30KHz - 530KHz up to the 3MHz Range -- 6" x 4.5" x 1.25", requires external +12V -- $10

Some kind of VHF thing just started. Pomona 4"x2.5"x1.5" cast box with a couple 160-104 capacitors, BNC connectors, a miniature 50K bourns pot., 6 capacitors mounted to gold plated terminals with a very pretty gold flashed internal shield structure. Nothing is soldered -- this was just started. $10

Antenna Noise bridge? -- Pot & Cap plus 4 transistor circuit mounted in a 5" x 4" x 2" enclosure. BNC connectors marked ANT & RX. Pwr SW. & Led Powered by a single 9 volt battery. - $10

Two Meter to 24-28 MHz receiving converter (I think!) -- 5" x 4" x 1.75" -- $12

A VHF thing -- Two trombone lines adjustable between 4-6" with a transistor connected between them plus a Phasotron 50 ua 2" round meter on a BNC cable with a small loop w/a diode. -- $12

Active Field Strength Meter -- Schematic per 1985 ARRL Handbook p 39-10. Built in a 5" x 4" x 3" black crackle finish metal case with a Simpson Model 29, 4" meter, covering the entire front of the box. -- $15

144-148 MHz to 24-28 MHz Transverter -- 5" x4" x 4" overall -- 2N3866 Output transistor, probably runs about a watt on transmit. Barrier strip for power (12V?) and an 8 pin Japanese style Mike connector for ?. Transmit & receive sections are each 5" x4" x 2" and only interconnected with a few wires -- $30

All of the above plus shipping, if necessary, naturally.

Three 5CM diameter knobs that look like they are from a Kenwood TS-830 (main tuning knob) or similar
One is "stock", one has been filled in back with shot to give it some heft, and the third is the spinner version.   These are used with just a few minor blemishes visible in the aluminum disks; the plastic part looks fine.
Asking $30 for all three.

Plus shipping, if necessary, naturally.

RCA HB-3 Tube Handbook
Loose leaf 6 ring binder style data sheets starting in the late '40's with additions and
updates through October 1966. Sepatate sections cover Transmitting Tubes, Receiving Tubes (Part 1 & 2),
Industrial receiving tubes, Photosensitive devices, Thyratons & such, CRT's & Picture tubes,

Miscellaneous types, & semiconductors. The updates appear to have been made in all these sections except Picture Tubes which is somewhat disorganized. It also appears that the obsolete data sheets were kept for reference. The whole collection is about 30" wide on a shelf. Shipping weight will be 20 lbs. Excellent condition; mostly never read! One gotcha - No binders. $250

Heathkit Catalogs
1954, 55, 56, 57, 58, 59 &
Fall-Winter '62-63,
Xmas '89 + Winter & Spring '90 $100 all

Handbook of PREFERED CIRCUITS
Navy Aeronautical Electronic Equipment
vols. 1&2 (1955 tubes & 1962 transistors)
very good condtion $40

Most Often Needed 1926-1938 Radio Diagrams, originally published by Supreme Publications 1941. This is a REPRINT, by Vintage Radio.
240 pages, solid schematics! Like new, $50

RCA TT-3 Air-Cooled Transmitting Tubes 1938 copyright
overall good condition w/slight damage at top & bottom of spine & first 20 pages of lower right corner. 192 pages -- $30

Radio Supply Company catalog 1934 (they used to be in downtown Los Angeles) -- a little smudging on the back cover and two middle pages torn on the edge but, otherwise in fine condition. There is a sticker from the (original?) owner on the first inside page. 85 pages, the last 10 or so of which are receiving and transmitter tube data from the era. $20

5 Meter Radiotelephony by Frank Jones -- This is a REPRINT of a 1934 booklet
Excellent condition 20 pages or so $10

Elin company overview book 1932
very good condition except cover is almost loose
Text is in GERMAN. Lots of photographs of electrical equipment, tools, machinery, and construction projects.
128 pages $10

Radio Doings Call Book Spring 1931 edition
cover taped at spine, otherwise very good
50 pages $15

Radio Doings Vol 15, #1 June 1929 edition
cover, first two & last two sheets missing otherwise o.k.
pages 5-62 remain $10

Official Radio Service Manual 1930, originally published by Gernsback Publications. This is a REPRINT by Vestal Press, 1984. Schematics &

some service info. 352 pages, like new $60.

Plus shipping, if necessary, naturally.

I have a Ten Tec Scout 555 with all band modules & 937 power supply forsale.
Asking $450.00 Shipped CONUS. others pay actual shipping . Great little rig
, Works great , apperance would say was an 8 some wear on lettering &
minor marks. One modification so that power output can be adjusted from 2.5
to 50 watts. This is easily removed and returned to original if you desire.
Has noise Blanker installed.
Would consider partial trade of MFJ 9030 / OHR 100A (30m) rig or similar.

Please contact me off List at elbc@pivot.net
Pictures can be emailed if desired.

73 Dave KC1DI

Jerry,

Your lucky. In this part of the country, if braid
is exposed to the weather, it lasts maybe 6 months.
Then you start getting some really weird changes.

'Doc

Jerry,
    Always remember the first rule of HF mobiling.  "The worth
of an antenna is directly proportional to it's ugliness."

Have a need for a Motorola TRN4963A for a 82 vintage Micom S HF radio.

Schaumburg is out, no more to be had.

Building one is an option, but finding one out yonder is much easier :)

Reply e-mail, but not to the return on this message.

georgec"AT"dyb.com

Replace "AT" with you know what.

Ladies and Gentlemen, I am considering putting up for sale or trade; a Motorola Radius P110 UHF radio. Right now the radio is in the 450 area but has capabilities from the 430-470 Mhz range. It has, technically 8 channels, but the 8th,right now, is set up to scan whichever channels you program it to scan. It has a brand new battery and 90 minute charger. Im probably wasting my time by adding this, but it also comes with the UHF antenna and the lapel speaker/mike. For me to say that I know how much this radio is worth would be for me to lie to all of you kind people, but as it has been explained to me it is worth several hundred dollars. Exactly how much baffles me but if you bring me the right trade- I will be more than happy to trade or sale. Its in like new condition, I cleaned almost all of the blood and bodily fluids out of it. Just kidding, but it used to be an EMS/ Law Enforcement radio, but was taken out of service when the officer had to take a leave of absence due to a medical condition.

http://www.motorola.com/LMPS/RPG/EMEA/cee/portables/p110/index.html
Thanks in advance for your inquiries
skee51@home.com

Ladies and Gentlemen, I am considering putting up for sale or trade; a Motorola Radius P110 UHF radio. Right now the radio is in the 450 area but has capabilities from the 430-470 Mhz range. It has, technically 8 channels, but the 8th,right now, is set up to scan whichever channels you program it to scan. It has a brand new battery and 90 minute charger. Im probably wasting my time by adding this, but it also comes with the UHF antenna and the lapel speaker/mike. For me to say that I know how much this radio is worth would be for me to lie to all of you kind people, but as it has been explained to me it is worth several hundred dollars. Exactly how much baffles me but if you bring me the right trade- I will be more than happy to trade or sale. Its in like new condition, I cleaned almost all of the blood and bodily fluids out of it. Just kidding, but it used to be an EMS/ Law Enforcement radio, but was taken out of service when the officer had to take a leave of absence due to a medical condition.

http://www.motorola.com/LMPS/RPG/EMEA/cee/portables/p110/index.html
Thanks in advance for your inquiries

Looking to trade a Icom IC-746, SM-20 desk mic & CT-17 computer
interface (Never used) for a Icom IC-706 MK II G with the seperation
kit. The 746 and mic are about 9.5 on a scale of 10. Pictures provided
by email if you would like. The 706 should be mint to very good
condition. On air evaluation of 746 available.
The only stipulation on the trade is that I would be able to test 706 for
1 to 2 days before shipping 746. Been had on trades before and won't
trade "DOWN" to a bad rig again. If this isn't agreeable, please don't
bother emailing back.
BTW I also have original box for 746 and it has never been mobile.

TNX & 73's. Jack Lovell. WD9IFW

```

I have for sale in excellent condition a Yaesu FT-736R......It comes standard with 2 meters and 440......

Options that are included is as follows:

FEX-736-220 Mhz Module
FEX-736-50 Mhz Module
FTS-8 37-tone CTCSS Subaudible Tone Squelch Unit
Keyer Unit B Internal Electronic Iambic Keyer
XF-455MC 600 Hz CW Narrow Filter

I do not have a microphone to go along with it.......I am a non-smoker and
works excellent........
I have the original box and manual and will take $1250 plus shipping....Or
will pull out the 6 meter and 220 module and will sell it for $900 plus
shipping......... ....I can be reached at (508) 821-2993 or email......
WZ1U Steve / Lakeville, Ma.

20 ea. - NTN5612A - MVA mobile decks for either HT-600 or MT-1000
Motorola radios. Provides audio, PTT, mike audio out,
discriminator audio output thru a 25 pin "D" connector on the back.

This unit *powers and recharges* your radio from your vehicle. Radio pops
out for handheld use There is also a "telephone-type" modular connector on the
left side for a mike if you don't won't to go through the 25-pin "D" connector.

The release button is a standard keyed lock, so keys should
be available at the locksmith. No mounting hardware is included, but a U
shaped aluminum hanger should be easy to fabricate from stock at your
local hardware store I also provide pinout assignments sheet to help you
avoid the info hunt. $35.00 ea. +shipping

Heavy-duty Motorola HMN1035A Microphone with the modular "telephone"
modular connector is $15.00 +shipping

See the pics at:

http://members.home.net/lbraden/main.htm

These used "portacomm" units are being sold AS-IS and priced for quick
sale. New ones cost slightly over $400.00 apiece, so this is an
excellent deal for MT1000 and HT600 owners. Send me an email to reserve
one for you and to email you appropriate USPS shipping cost to add to
order.

Thanks,

Larry Braden KC5CWG lbraden@home.com

I'm looking for a keyer. Something small, light and battery powered. I have
paddles. A simple Curtis chip thing would do. Any old junk really. I can't
really haul my old Kenpro keyer on holiday, it's bigger than the rig! WHY?

The "PEANUT WHISTLE TWO" 40 meter QRP CW transmitter! Plenty in stock!
Great to take along to Dayton! Just team it up with your little portable
general coverage receiver. (i.e. Sangean 909, RS DX-398, Grundig YB-400,
Sony 7600G, etc.) A steal at only $19.95!

For a photo and further details, please visit: http://qth.com/dwm

Hi Gang,

I am looking for an AT-250 to go with my TS-430. Does anyone have one for
sale?

73,

Willie N8WP

Hello guys,

I've got an RCA WR-50B RF Generator w/ IF Sweep
that says it can use a crystal plugged into its front panel
socket to generate a marker during sweep

The oscillator circuit is described in the manual as a
parallel-resonant Pierce design with 32pF loading

I'm trying to locate 1 each of these crystals
(I've included the old RCA part numbers incase they are of any use)

100 KHz ... RCA PN: 11C100
455 KHz ... RCA PN: 11C101
1.0 MHz ... RCA PN: 11C102
4.5 MHz ... RCA PN: 214796
10 MHz ... RCA PN: 11C103
10.7 MHz ... RCA PN: 11C104

Base: HC-6U or HC-13 maybe
pin diameter: 0.05"
pin spacing: 0.486"
--- tell me what case style you have - I'll adapt for it ---

If anyone has any of these or equivalents for sale
or can help me locate them, please contact me

Thanks

Rex Hebert WD5FVZ
Lafayette, Louisiana

I have seen this add before. I asked for some information from this poster a
while back, like a ham call sign, and address, and phone #. Got nothing in
return.

Be careful. W9FPJ

I have the following technical and math books for sale:

1. Albert, Arthur Lemuel
Electronics and Electron Devices
3rd ed., Macmillan, 1956, cloth, VG-/-, $15.00
This text was the last in a long series of books authored by A.L. Albert, and contains a couple of chapters on semiconductors and transistors, but is still predominantly oriented towards vacuum tubes. There is a very slight amount of pencil underlining in the first 100 pages, but otherwise the interior is clean. Owner's address label removed fom FFEP, cover has foxing and slight wear overall, worn through slightly at lower corners.

2. Angelo, E.J.
Electronic Circuits: A Unified Treatment of Vacuum Tubes and Transistors
McGraw-Hill, 1958, cloth, VG-/-, $15.00
Some minor pencil underlining and notes in the first few chapters, owner's names inside FC and on FFEP. Minor bumping to cover corners and spine ends, but virtually no wearing to cover surface or edges. This undergraduate textbook bridges the gap between vacuum tube and transistor circuit design, with a primary emphasis on rectifiers and amplifiers.

3. Angelakos, D.J. and T.E. Everhart
Microwave Communications
McGraw-Hill, 1968, cloth, VG-/-, $12.50
Underlining, hilighting, and notes in Chapter 2, clean elsewhere. Binding is spotless, with very slight bumping to cover corners and spine ends. An essential textbook at the time, this volume covers klystrons, traveling-wave tubes, tunnel diodes, parametric amplifiers, masers, antennas, and a variety of other subjects.

4. Bevitt, William D.
Transistors Handbook
Prentice-Hall, 1956, hbk, VG/G-, $12.50
No markings inside, moderate wear and some chipping to dj. This was the first handbook for transistors, as it says on the DJ.

5. Bucher, Elmer E.
The Wireless Experimenters Manual
Wireless Press, 1920, cloth, G-/-, $25.00
Minor mildew spotting to FC, moderate mildew spotting to RC, mildew staining inside both covers, minor staining to title page. Pages slightly yellowed from age, surprisingly clean in spite of mildew staining elsewhere. A very basic text for amateurs in the early days of radio, this well-known book covers the essentials of transmitters, receivers, antennas, oscillators, amplifiers, and vacuum tube theory as it was understood at the time. Quite good condition considering the mildew.

6. Chaffee, E. Leon
Theory of Thermionic Vacuum Tubes

McGraw-Hill, 1933, cloth, VG/-, $20.00
Owner's stamp inside FC, inside RC, and on title page. Binding is very clean, having slight bumping to cover corners and spine ends. Pages are slightly yellowed from age. This was one of the earliest textbooks on vacuum tube theory, and one of the most substantial. Chaffee was a renowned expert on the subject of regeneration theory, with to entire chapters being devoted to the subject. A very clean copy of an essential and classic textbook on vacuum tubes.

7. Freeman, J.J.
Principles of Noise
Wiley, 1958, cloth, VG-/-, $15.00
Rare to occasional underlining and notes throughout, owner's name and address on FFEP. Binding is spotless with very minor bumping to spine ends. This book provides a very basic understanding of the principles and characteristics of noise in vacuum tubes, discussing the physical sources of noise as well as two-terminal and four-terminal representations, and the all-important concept of noise figure.

8. Marcus, Abraham and William Marcus
Elements of Radio
3rd ed., Prentice-Hall, 1953, cloth, VG+/-, $13.50
No markings found internally, and scarcely an wear to to cover and spine. This is an exceptionally clean copy copy of a well known and respected textbook on vacuum tube radio receivers and electronics.

9. Martin, Thomas L.
Electronic Circuits
Prentice-Hall, 1955, cloth, VG/-, $13.50
Owner's name on FFEP, otherwise no markings internally. Slight wear to cover and spine, very slight bumping to cover corners and spine ends. This is an extensive book covering of linear amplifiers, primarily with vacuum tubes but with a chapter on transistor circuits as well. Additional chapters on negative resistances, noise, modulators, rectifiers, mixers, magnetic amplifiers, and more. An exceptionally clean copy of a worthwhile reference for vacuum tube circuit designers.

10. Morecroft, J.H.
Principles of Radio Communication
Wiley, 1921, cloth, XLIB, G+/-, $25.00.
Library stamp inside FC, no internal markings otherwise. Covers are in good shape, with the bottom edge or the rear worn through about one inch. Spine is faded as with exposure to light, slight wear to ends. Library call number on spine. According to the library stamp, this book was originally in the ship's library of the USS Omaha. A substantial volume on early methods of radio communication, and a real collector's item even without the tour of navy duty.

11. Motorola
The Semiconductor Data Book
4th ed., Motorola, 1969, VG-/-, $17.50
Clean throughout, upper cover corners slightly frayed, spine and cover

lettering faded from handiling and age. A very large reference manual from an era when Motorola was considered a world leader in discrete semiconductor manufacturing, unlike today. This is a large book and will require additional postage for shipping.

12. Moxon, L.A.
Recent Advances in Radio Receivers
Cambridge, 1949, cloth, XLIB, VG-/-, $25.00
Library pastedown inside FC, library mrkings on pages after title page, otherwise no markings internally. Call number on spine, some light rubbing to cover corners and spine ends. Most of this book is entailed in the discussion of noise factor (noise figure), including theory and measurement. Chapters included on the design of amplifiers and mixers with regard to noise factor, as well as two chapters on the design of IF amplifiers.

12. Papoulis, Athanasios
Circuits and Systems: A Modern Approach
Holt, Rinehart, and Winston, 1980, hbk, G+/-, 0-03-056097-7, $15.00
Spine ends and cover corners worn, occasional marginalia and hilighting. Basic undergraduate text covering Laplace transforms, z-transforms, convolution, fourier series, and other concepts essential to communications theory.

13. Quarrington, C.A.
Radio Circuits and Data
Caxton Publishing, 1948 (printed 1951), hbk, 90 pages, VG--/-, $17.50
No markings inside. Cover is slightly worn along edges and spine is moderately worn along hinges, top, and bottom. This book contains complete schematics of a few commercial British receivers, as well as functional schematics of mixers detectors, amplifiers, etc. Extensive tables for hardware and vacuum tube characteristics. A real collector's item.

14. Radio Corporation of America
Solid-State Power Circuits
RCA, 1971, hbk, VG/-, $15.00
Owner's name inside front and back covers. A very good reference for design of power circuits using bipolar transistors, silicon rectifiers, thyristors, and more. Covers areas from power supplies to microwave power amplifiers.

15. Reintjes, J.F. and G.T. Coate
Principles of Radar
3rd ed., McGraw-Hill, 1952, cloth, G/-, $12.50
Owner's name inside FC and on FFEP. No markings on pages. Cover and spine have moderate rubbing, especially along cover edges, spine ends, and hinges. Slight fraying to front cover lower corner. Despite the wear to the cover and spine, this is a very clean copy of a later edition of what was essentially the bible for radar designers during the second world war, and this edition reflects the improvements that were attained in the after-war years.

16. Richter, Walter
Fundamentals of Industrial Electronic Circuits
McGraw-Hill, 1947, hbk, VG-/-, $13.50
Owner's name on FFEP, very light foxing overall, no markings on pages. Very good text on vacuum tube theory and applications.

17. Schure, Alexander
Basic Transistors
Rider, 1961, paperback, VG-/-, $7.50
No markings inside ot our, slight rubbing to covers and spine, slight wear to cover corners and spine ends. As the title suggests, this is a bery basic book on transistors, written at the time where transistors were rapidly replacing vacuum tubes in commercial and consumer electronics.

18. Sears, Francis W.
Addison-Wesley, 1954, VG-/-, $12.50
Some markings and underlining in first 19 pages, clean elsewhere. Owner's name inside FC. Some slight bumping and wear on spine ends and cover sorners. Lettering on spine faded with handling. Nice undergraduate textbook.

19. Sevin, Leonce J.
Field-Effect Transistors
McGraw-Hill, 1965, hbk, VG+/-, $15.00
A very clean, unblemished copy of an essential reference for junction FETs.

20. Shea, Richard F.
Transistor Applications
Wiley, 1964, cloth, VG+/G+, $20.00
This early reference on transistor applications and circuit design is exceptionally clean throughout, having no markings to be found anywhere. Minor bumping to cover corners and spine ends. Dustjacket has some wear along edges, mostly spine ends, as well as some dirt from handling.

21. Slurzberg, M. and W. Osterheld
Essentials of Electricity - Electronics
3rd ed., McGraw-Hill, 1965, 0-07-058260-2, cloth, VG/-, $15.00
Slight bumping to spine ends, some light soiling from handling. This is a wonderfully clean copy of a very basic text on the principles of electricity, and includes chapters on vacuum tubes and transistors.

22. Sterling, George E.
The Radio Manual
3rd ed., Van Nostrand, 1940, hbk, G+/-, $15.00
Moderate wear and bumping to cover and spine extremeties, owner's name on FFEP, but no markings on pages. This book is a wealth of information on the state of the art in radio broadcasting and telecommunications prior to WWII.

23. Sturley, K.R.
Radio Receiver Design, Part 1

1st ed., Wiley, 1943, G+/-, $15.00
No markings internally. Cover slightly worn, hardly noticeable. Original gold leaf letter rubbed off spine and replaced poorly with white paint. This is one of the most significant books ever written on the subject of radio receivers.

24. Terman, Frederick E.
Radio Engineering
3rd ed., McGraw-Hill, 1947, cloth, VG-/-, $20.00
Owner's name on FFEP, no other internal marking found. Pages slightly yellowed from age. Cover corners and spine ends are slightly bumped. Top ends of hinges and cover corners are slightly worn through, some diagonal creasing on spine. Despite it's age, this copy of one of the most readily recognized and respected textbooks on radio theory and circuitry shows just a slight amount of wear.

25. Thomson, J.
The Services' Textbook of Radio, Volume 3: Electronics
Her Majesty's Stationary Office (HMSO), 1955, cloth, XLIB, G/-, $15.00
Pocket with publisher's note inside FC, library markings inside FC. No markings on pages. Moderate wear to cover and spine, with cover corners frayed and top of spine moderately bumped. Call number on spine, lettering on spine rubbed by handling. Primarily a reference on vacuum tubes, there is a surprising chapter on semiconductors, one of the earliest to be found. Other chapters deal with subjects of magnetrons, velocity-modulated tubes (valves), noise, etc.

26. Van Valkenburg, M.E.
Network Analysis
3rd ed., Prentice-Hall, 1974, 0-13-611095-9, cloth, VG-/-, $15.00
Slight to moderate wear to cover, spine ends, and hinges. Binding slightly split between FFEP and title page. No markings on pages, making this a clean, if not otherwise slightly worn, copy of a substantial textbook on network analysis.

27. Walston, J.A. and J.R. Miller (ed)
Transistor Circuit Design
McGraw-Hill, 1963, cloth, VG+/G, $17.50
Owner's name on FFEP, otherwise no markings throughout. Very little wear to cover and spine. Dustjacket has slight wear to edge, consisting of chip-outs and rubbing.This is an exceptionally nice copy of a substantial reference on disctrete small-signal and power amplifier design, as well as switching circuitry design, including voltage regulators.

28. Wedlock, Bruce D. and James K. Roberge
Electronic Components and Measurements
Prentice-Hall, 1969, decorative boards, VG/-, $12.50
Owner's name inside FC, otherwise no other markings internally. Cover has little wear except for slight fraying at corners. Spine worn slightly at ends, darkened slightly from exposure to light. This is a very clean copy of a worthwhile text covering the basics of measuring and characterizing electronic components.

29. Zimmermann, Henry J. and Samuel J. Mason
Electronic Circuit Theory: Devices, Models, and Circuits
Wiley, 1959, cloth, VG-/-, $13.50
Very occasional pencil underlining and marginalia. Owner's name crossed out inside FC. Cover and spine are slightly rubbed, mostly to bottom edges. Relatively clean copy of a very thorough textbook covering both vacuum tube and transistor circuitry.

Prices are exclusive of shipping costs. Unless stated otherwise, for USPS bookrate shipping add $3.50 for first book and $1.50 for each additional. For USPS Priority shipping add $5.00 for first book and $2.50 for each additional. Canadian and foreign shipping dependent on actual cost. Payment in US$ in advance by cheque or money order. Money orders preferred, cheques accepted from established customers. Books will be held for 14 days after confirmation. All dustjackets are protected with Brodart covers, paperbacks are protected with archival sleeves. Books may be returned within 30 days, with prior approval, if not as described.

I have for sale in excellent condition a Yaesu FT-736R......It comes standard with 2 meters and 440......

Options that are included is as follows:

FEX-736-220 Mhz Module
FEX-736-50 Mhz Module
FTS-8 37-tone CTCSS Subaudible Tone Squelch Unit
Keyer Unit B Internal Electronic Iambic Keyer
XF-455MC 600 Hz CW Narrow Filter

I do not have a microphone to go along with it.......I am a non-smoker and works excellent........
I have the original box and manual and will take $1250 plus shipping......I can be reached at (508) 821-2993 or e-mail......WZ1U Steve / Lakeville, Ma.

Hello group,
I was robbeb by another ham, a 2 meter rig, i traded with this guy, he got my package I have proof of this, but he never sent his part of the deal,he keeps making promises, but i never get anything.
Is there a way i can warn all hams in america about this HAM, i did many deals with other hams, first time i get ripped off. and it hurts.
If anyone can give me some advice, i'll appreciate. By the way, it was a Canadian ham,
Andre VE2EAC

Make copies of your "proof" and send them to the police department and prosecutor of the city where this person lives. They should send you the proper way to "capture" the wayward ham. ....maybe if you post your proof we hams can send him a post card with "SHAME ON YOU FOR STEALING" from a fellow ham. Good luck.

At the risk of bringing on another flame war...

I think you mean "they're" as in the contraction of the words "they"
and "are".  "Their" is the possessive form of "them", as in "their
words are good".

Sorry, don't mean to be a pain, but it speaks better of a person when
they use our language properly.  Also, you'll probably attract more
visitors to your site if you promote it without obvious typo, grammar
and spelling problems.

Just my 2cents.

Neil

I have two Bird 43 inline Watt meters for sale. Both come with the
shorting plug, but no case or elements.

The first one is in near perfect condition, with no scratches, scrapes
or dents, and only two tiny spots where the paint is missing. Also, it
has the PL-259 connectors. I would like to get $170.00 plus shipping for
this one but will consider offers.

The second one is in good condition, but does have some wear spots: no
dents, but some paint is chipped and shows signs of use but not abuse.
It has 'N' connectors. I would like to get $160.00 plus shipping for
this one but will consider offers.

I have several elements avalible: 100C for $60, 10D for $40, includes
priority mail shipping and insurance. I may decide to sell some of the
other element I have so, inquire if interested. Also, I have pictures of
all availble.

Has the little rubber "doughnut" behind the tuning knob/skirt on your TR-7 (or R7/RV-7/RV-75) gotten all dried up and stiff? If your radio is like most of them, unless this doughnut has been replaced recently it now looks like it's been "baked" and doesn't function very well (it needs to be supple and rubbery for the zero-adjustment to work/feel right).

I have the perfect replacement part, brand new. It's made of the same material as the factory unit, same dimensions, and works great. I even wrote up clear, step-by-step illustrated instructions showing how to do the job, with pointers on what to avoid.

To get your doughnut and instructions, send $2 to:

Neil Rosenberg, K1VY
60 Plain Road
Hollis, NH 03049

If you want 2 or more they're $1.50 each, shipped.

Satisfaction guaranteed, of course. By the way, they also work great on 4-line gear!

Email to K1VY@arrl.net or call (603) 465-2788

Thanks!

Help!

I have a Wilson WR-1000 Rotor and control that have never been used.
Unfortunately,
I need a 10 pin connector to fit the old Wilson WR-1000 rotor and the
documentation/manual for the rotor and control box.

"I think" I have a connector, or at least I had one, but can not find it.
I never did have a manual.

I'd greatly appreciate any help.

If any one responds, please copy me via e-mail as I don't always get to see
replies on the newsgroups.

Thanks,

Roger Halstead (K8RI)

I have a number of extra pieces of Amateur Radio equipment I am selling.

Icom IC-2AT (the one with the keypad!) Includes antenna, DC adapter pack, and a BP-3 battery pack. The radio is in very good condition and would make an excellent unit for an APRS setup, mobile/portable packet, Fox transmitter, or a backup 2M rig.

Picture of unit: http://www.eskimo.com/~ghopper/IC2AT.jpg

I would like $75 for the unit but would consider reasonable offers.

email me at ghopper@eskimo.com

I am also selling: an IC-02AT, condition questionable, IC-03AT, 2M 35watt amp, Bird Watt meters and elements, Clamp on AC ammmeter, B&K high voltage probe, and a number of other items.

I have a number of extra pieces of Amateur Radio equipment I am selling.

Icom IC-02AT. The radio is in questionable condition and would make an excellent parts unit, though it might be repairable. The unit does power on and the reciever makes noise. The display shows 0.00

Picture of unit: http://www.eskimo.com/~ghopper/IC02AT.jpg

I would like $45 for the unit but would consider reasonable offers.

email me at ghopper@eskimo.com

I am also selling: an IC-2AT, condition very good, IC-03AT, 2M 35watt amp, Bird Watt meters and elements, Clamp on AC ammmeter, B&K high voltage probe, 2M amp, a blasting machine, B&W CCD video camera and a number of other items.

Jim,

Meter #1 is a Bird 43 with UHF connectors. The unit is in very good to excellent condition. Comes with the shorting plug. No case, no elements.
Pictures:
http:/www.eskimo.com/~ghopper/birdf1.jpg Front
http:/www.eskimo.com/~ghopper/birdtop.jpg Top
http:/www.eskimo.com/~ghopper/birdstrap.jpg Strap
http:/www.eskimo.com/~ghopper/birdback.jpg   Back
http:/www.eskimo.com/~ghopper/birdlt.jpg Left
http:/www.eskimo.com/~ghopper/birdrt.jpg Right
http:/www.eskimo.com/~ghopper/birdbot.jpg bottom

The jpgs are large and show a lot of detail because I had someone who was very interested in the condition (apparently a collector) and had offered $180 but within the hour had emailed back that he had decided on another unit. Go figure. I would like $170 for this unit but will consider reasonable offers once the unit has been posted for sale for a while.

Meter #2 is a Bird 43 with N connectors (male/female). The unit is in fair to good condition. Comes with the shorting plug. No case, no elements.
Pictures:
http:/www.eskimo.com/~ghopper/nbirdf.jpg Front
http:/www.eskimo.com/~ghopper/nbirdt.jpg Top
http:/www.eskimo.com/~ghopper/nbirdb.jpg Back
http:/www.eskimo.com/~ghopper/nbirdl.jpg Left
http:/www.eskimo.com/~ghopper/nbirdr.jpg Right

This unit has a 'Motorolla' label however, it is identical to 'Bird' bird meters with the exception of two extra screws holding the back on. The unit has some wear but looks good and works fine. I would like $160 for this unit but will consider reasonable offers once the unit has been posted for sale for a while.

I have two elements that I am immediately putting up for sale. Several others have already been sold, pending the receipt of funds. I may elect to sell others depending on how fast this stuff sells and/or the size of offers I get for the other elements.

The two are a 10D (200-500 Mhz, 10 watts) for $40, and a 100C (100-125 Mhz, 100 watt) for $60.
Picture:

http:/www.eskimo.com/~ghopper/elements.jpg

I also have a 250B, 500D, 25E, 100E, and 250E that are surplus to my needs and I may sell if I get a sufficient offer.

All items are plus shipping. All items are guaranteed against DOA, and are otherwise sold as-is. Payment by cashier's check or money order

Thanks for considering these items.

Grant Hopper
KB7WSD
ghopper@eskimo.com

I am also selling: an IC-2AT, condition very good, IC-02AT condition questionable, IC-03AT condition very good, 2M 35watt amp, B&K high voltage probe, 2M amp, a blasting machine, B&W CCD video camera, Kenwood SP-230 speaker, an Icom BC-35 battery charger, old video camera power supplies ($5 ea) which I have used as power supplies for other projects (built-in), and a number of other items.

have two pieces of what I would call "vintage" commercial radio
equipment.

One is a GE Transmitter/Receiver combination; all vacuum tube, power
amp
uses a 5894. Currently set-up for 168.99 Mhz. This is the original
cabinet which is about 3 feet tall, 2 feet wide and about 10" deep
(kinda
of like a big cereal box). The receiver and transmitter are on separate

chassis and can be removed from the cabinet. each has its own integral
power supply. Weighs 60 - 75 lbs (estimate)

The second is a Motorola repeater set-up for 412.0125 Mhz
transmit/417.0125
Mhz receive. This appears to be vintage solid state. Weight is around
80
lbs+ (estimate). Cabinet is similar size and shape to the GE unit
above.
Model number is XC34MSY-3IQ1CT.

These were both working when taken out of service last year. I bought
'em
but I really doubt I'll get around to using them (too many other
projects
on the go).

Any interested parties out there, please make reasonable offers. I'm
not a
VHF/UHF guy, so if these are just plain junk, feel free to tell me so.
There's a good pile of parts in these that I can use for something else.

Please reply direct to : phil@vaxxine.com

Thanks

Phil

Darn, looks like it's going to be "Lightening Rods" at 100 meters at high noon
if this thread continues.

Go for it, this is getting better than Marshall Dillon at high noon.

Hi all. Just a notice about two auctions on Ebay that I'm running:

Drake R4-C.
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1221376865

Drake AC-4
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1221393733

As always with my auctions, they are both satisfaction guaranteed.

Thanks for your interest;
Neil, K1VY

Hello Dana:
My friend's IC751 might soon turn into scrap, if he is not able to determine
the correct value of the resistors associated with the internal fan motor.
One resistor has burned out and he has placed a short across the terminal
points.....
Can u provide me  the resistance and wattage rating for the two resistors
used in the fan motor speed circuit?
Pse post or reply to wa.tworsx@verizon.net.
73s,     de ~ Vince ~

Kenwood Dual Bander TH-79A, unit on a scale of 1 to 10 is a 9, this unit has had Mod done, I used it for testing business band repeater systems, so actual hours are low, comes with battery and dual pocket drop in rapid charger, and manual, the manual is in poor shape as it was carried around in my truck, but all info is there. Offers accepted for one week starting today 3/15/01. then it goes to Ebay, Email Me to make an offer, if you use the reply button remove the x's in the email address, or use this link radman@together.net .

Thanks Mike

*** Vintage Electronic Manuals (original unless noted) ***

Army / Airforce / Navy

AN/APS-13 Airborne Radar (1944)	$20
AN/URM25D Signal Gen (partial copy)	$10
BC-314G Receiver (schematic copy only)	$3
BC-344D Receiver (schematic copy only)	$3
SCR-211 A-T plus AA-AL Frequency Meter	$25
SCR-522 A/T2 SCR 542 A/T2 (cover badly worn -- insides ok)	$30
TM11-825 TWT PB-50A Transmitter (1944)	$25
LM-14 Frequency Indictor (1943)	$20
Hughes HTR-12A/C HTR-13A/C Radar	$30
Hughes Aircraft Unit 24 MA-1, F-106A computer maint. manual	$30

B&K

415 Sweep/Marker Generator	$15

B&W

400 Distortion Meter	$15
410 Distortion & Voltmeter (copy)	$8

Boontoon

160-A / 170-A Q Meter (copy)	$5

Bytcom

24/12ADH Modem	$5

Central Electronics

20A SSB Exciter partial manual copy plus (original?) schematic	$25

Concord Data Systems

224 Autodial Modem	$5

Collins

32S-1 Transmitter	$50

70-E8 Oscillator glossy brochure (1947 copyright)	$10
520 5430 00 Vernier Tuning Knob	$5

Eico

HFT-90 FM Tuner	$10

Federal Telephone and Radio

FT-125-B25A	$20

Fluke

8022B DMM	$10

General Radio

1606-A Impedance Bridge (copy)	$10

Gorler

UT-345 AFC / UT-343 FM Tuner	$10

Heathkit

309C RF Probe	$5
A-9C Audio Amplifier	$15
AG-9 Audio Generator	$10
CM-1073 Auto Tune-up Meter	$5
FM-3 FM Tuner	$10
FM-4 FM Tuner	$10
IM-4100 Frequency Counter	$10
IO-105 Dual Trace Oscilloscope	$15
O-11 Oscilloscope	$10
SA2500 Antenna tuner (new)	$50
TC-2 Tube Checker	$10
V-6 VTVM	$8
WA-P2 Preamplifier	$10

Hewlett Packard

150A/AR Oscilloscope	$10
152 Dual Trace Amplifier	$5
400A VTVM	$5
400C VTVM	$5
400D/H VTVM	$10
400D/H/L VTVM	$12
410B VTVM	$12
3455A Digital Voltmeter (operation)	$10
5340A Frequency Counter (comb bound copy)	$50
6200A Power supply -- Harrison Lab version lower right part of front cover missing	$15
7035B X-Y Recorder	$20

8445A Preselector (bound copy)	$20
8556A Spectrum Analyzer LF unit	$45
8672A Synthesized Generator	$100
10811A/B Quartz Crystal Oscillator	$20

Motorola

Motran (136-174 MHz) FM transceiver instructions, schematics 68P81044A10 (2 books)	$30
Motran (150.8-174 MHz) FM transceiver instructions, service/schematics 68P81040A45 (2 books)	$30
Motran (150.8-174 MHz) FM transceiver service manual (copy) 68P81041A15	$15
Model X53GJV-1091A Two-Way FM Radio (160-174 MHz) service manual (copy)	$15

Radio Shack

CT-101 Cell Phone Owners Manual	$5
CT-101 Cell Phone Service Manual	$20
SA-10 Stereo Amplifier	$2

RCA

WR-64B Color Bar Generator(copy)	$5
5-E 5KW AM Broadcast Xmtr	$50

Sabotronics

2000 DMM	$10

Signal One

CX7A (partial copy -- schematics mostly)	$10

Teac

MV-550 VCR Service Manual	$20
MV-800 Owners Manual	$5

Tektronix

DC505A Counter (bound copy)	$20
FG503 Function Generator	$25
FG504 Funct Gen. (SN <40000)	$30
FG504 Funct Gen, comb bound copy (SN >40000)	$20
PS503A Power Supply (back cover missing)	$20
SG503 Leveled Sine Wave Gen	$25

Yaesu

FT-101 service manual -- not quite complete copy though I think it has all the "real" service info, plus a dozen or so FT newsletters (copies) (1974-76)	$30

FT-101E / FT101 ES (in Japanese) $10

********** Old Radio Books & Catalogs **********

RCA HB-3 Tube Handbook

Loose leaf 6 ring binder style data sheets starting in the late '40's with additions and updates through October 1966. Sepatate sections cover Transmitting Tubes, Receiving Tubes (Part 1 & 2), Industrial receiving tubes, Photosensitive devices, Thyratons & such, CRT's & Picture tubes, Miscellaneous types, & semiconductors. The updates appear to have been made in all these sections except Picture Tubes which is somewhat disorganized. It also appears that the obsolete data sheets were kept for reference. The whole collection is about 30" wide on a shelf. Shipping weight will be 20 lbs. Excellent condition; mostly never read! One gotcha - No binders. $250

Heathkit Catalogs
1954, 55, 56, 57, 58, 59 &
Fall-Winter '62-63,
Xmas '89 + Winter & Spring '90 $100 all

Handbook of PREFERED CIRCUITS
Navy Aeronautical Electronic Equipment
vols. 1&2 (1955 tubes & 1962 transistors)
very good condtion $40

Most Often Needed 1926-1938 Radio Diagrams, originally published by Supreme Publications 1941. This is a REPRINT, by Vintage Radio.
240 pages, solid schematics! Like new, $50

RCA TT-3 Air-Cooled Transmitting Tubes 1938 copyright
overall good condition w/slight damage at top & bottom of spine & first 20 pages of lower right corner. 192 pages -- $30

Radio Supply Company catalog 1934 (they used to be in downtown Los Angeles) -- a little smudging on the back cover and two middle pages torn on the edge but, otherwise in fine condition. There is a sticker from the (original?) owner on the first inside page. 85 pages, the last 10 or so of which are receiving and transmitter tube data from the era. $20

5 Meter Radiotelephony by Frank Jones -- This is a REPRINT of a 1934 booklet
Excellent condition 20 pages or so $10

Elin company overview book 1932
very good condition except cover is almost loose

Text is in GERMAN. Lots of photographs of electrical equipment,
 tools, machinery, and construction projects.
128 pages $10

Radio Doings Call Book Spring 1931 edition
cover taped at spine, otherwise very good
50 pages $15

Radio Doings Vol 15, #1 June 1929 edition
cover, first two & last two sheets missing otherwise o.k.
pages 5-62 remain $10

Official Radio Service Manual 1930, originally published by Gernsback
 Publications. This is a REPRINT by Vestal Press, 1984. Schematics &
some service info. 352 pages, like new $60.

All of the above plus shipping, if necessary, naturally.

I have the following technical and math books for sale:

1. Albert, Arthur Lemuel
Electronics and Electron Devices
3rd ed., Macmillan, 1956, cloth, VG-/-, $15.00
This text was the last in a long series of books authored by A.L. Albert, and contains a couple of chapters on semiconductors and transistors, but is still predominantly oriented towards vacuum tubes. There is a very slight amount of pencil underlining in the first 100 pages, but otherwise the interior is clean. Owner's address label removed fom FFEP, cover has foxing and slight wear overall, worn through slightly at lower corners.

2. Angelo, E.J.
Electronic Circuits: A Unified Treatment of Vacuum Tubes and Transistors
McGraw-Hill, 1958, cloth, VG-/-, $15.00
Some minor pencil underlining and notes in the first few chapters, owner's names inside FC and on FFEP. Minor bumping to cover corners and spine ends, but virtually no wearing to cover surface or edges. This undergraduate textbook bridges the gap between vacuum tube and transistor circuit design, with a primary emphasis on rectifiers and amplifiers.

3. Balabanian, Norman
Network Synthesis
Prentice-Hall, 1958, cloth, VG-/-, $15.00
Some minor pen underlining, seems to be limited to the chapter on the synthesis of general one-ports. Owner's name inside FC. Binding is exceptionally bright, minimal wear to cover corners and hinge ends. Despite the underlining, this is a very, very clean copy of one of the classic tectbooks on passive network synthesis, covering such subjects as the realization of lossless two-ports, insertion-loss synthesis, realization of RC two-ports, and many other subjects essential to the basic understanding of network synthesis.

4. Boyce, William F. and Joseph J. Roche
The Radio and Electronics Handbook
2nd ed., Howard W. Sams, 1952, VG-/G, $15.00
No markings internally except for owner's stamp on FFEP. Cover and spine have very slight wear. Dustjacket has small portions missing at top and bottom of spine, lower edge of front, as well as rubbing overall. Contains extensive chapters on practically every practical aspect of consumer electronics, including vacuum tube data. A clean copy despite the dustjacket blemishes.

5. Cattermole, K.W.
Transistor Circuits
2nd ed., Gordon and Breach, 1964, hbk, G+/-, $15.00
Slight wear and bumping to cover and spine. Inside is immaculate. Although dated, this book describes circuitry such as wide-band neutralized common-base amplifiers that you won't find elsewhere.

6. Chaffee, E. Leon
Theory of Thermionic Vacuum Tubes
McGraw-Hill, 1933, cloth, VG/-, $20.00

Owner's stamp inside FC, inside RC, and on title page. Binding is very clean, having slight bumping to cover corners and spine ends. Pages are slightly yellowed from age. This was one of the earliest textbooks on vacuum tube theory, and one of the most substantial. Chaffee was a renowned expert on the subject of regeneration theory, with to entire chapters being devoted to the subject. A very clean copy of an essential and classic textbook on vacuum tubes.

7. Collin, Robert E.
Field Theory of Guided Waves
McGraw-Hill, 1960, cloth, VG-/-, $25.00
Owner's address label on FFEP, no markings found elsewhere. Binding has very slight wear to cover corners, slight wear to spine ends. This is a very clean copy of one of the most significant textbooks written on the subject of electromagnetic theory as it applies to waveguides.

8. Department of Electrical Engineering
Magnetic Circuits and Transformers
Wiley, 1943, cloth, VG-/-, $20.00
No markings internally. Cover is worn slightly at corners and bottom edges. Spine is slightly worn at end. This is a very clean copy of a highly sought-after reference on magnetism

9. Dow, William G.
Fundamentals of Engineering Electronics
1st ed., Wiley, 1937, hbk, VG-/-, $22.50
Bumping to cover corners and spine ends being the only external blemishes. Owner's name on FFEP, no detected markings inside. A very clean and unspoiled copy of a classic work.

10. Dummer, G.W.A. and H.M. Nordenberg
Fixed and Variable Capacitors
McGraw-Hill, 1960, hbk, VG-/-, $13.50
Owner's name at top of cover, tape over owner's name on FFEP, one instance of underlining (page 108), and minor bumping to spine ends. Overall, a nice copy of this book. And I DO NOT agree with the underlined statement on page 108.

11. Editorial Staff
Radio for the Millions
Popular Science, 1943, cloth, VG-/-, $20.00
A very clean copy of a highly collectible volume containing reprints of articles from Popular Science including regenerative, TRF, and superheterodyne receivers. Also includes interesting applications of radio including a wireless phonograph/microphone. Minot bumping to top and bottom of spine.

12. Fink, Donald G.
Radar Engineering
McGraw-Hill, 1947, cloth, VG+/-, $12.5
Owner's name on FFEP (crossed out) and title page.No markings to be found internally. Cover is in much better than average condition, very lightly foxed with slight wear to spine ends.This was one of the very first

textbooks to be made available on the subject of radar after the close of the second world war.

13. Freeman, J.J.
Principles of Noise
Wiley, 1958, cloth, VG-/-, $15.00
Rare to occasional underlining and notes throughout, owner's name and address on FFEP. Binding is spotless with very minor bumping to spine ends. This book provides a very basic understanding of the principles and characteristics of noise in vacuum tubes, discussing the physical sources of noise as well as two-terminal and four-terminal representations, and the all-important concept of noise figure.

14. Ghirardi, Alfred A.
Radio Physics Course
2nd ed., Murray Hill Books, 1932, cloth, VG-/-, $20.00
No markings anywhere internally. Cover has very slight wear overall, slight bumping to front cover upper corner, slight wear to spine ends, gold leaf on spine faded from handling. This is a very clean copy of a substantial textbook used as a home study course on the principles of electricity and radio, covering all aspects of electricity, electronics, vacuum tubes, radio receivers, television, broadcasting, and a wide range of additional subjects.

15. Gibson, H.L.
Test Equipment for the Radio Amateur
2nd ed., Radio Society of Great Britain, 1978, VG+/VG+, $20.00
Owner's paste-down inside FC, embosed stamp on FFEP, otherwise immaculate inside and out. This is essentially a new copy of a must-have book for radio amateurs, both beginning and advanced, in need of a handy and thorough reference on the usage of test equipment. Errata sheet is included.

16. Glasford, Glenn M.
Fundamentals of Television Engineering
McGraw-Hill, 1955, hbk, VG-/-, $17.50
Owner's name on page ends and some very occasional pencil markings. Cover and spine have very slight wear and bumping to extremities. A nice, relatively clean copy of an early textbook on television system and circuit design, from the camera to the picture tube. Has a nice chapter on wideband amplifiers.

17. Glasgow, R.S.
Principles of Radio Engineering
McGraw-Hill, 1936, cloth, XLIB, G+/-, $10.00
Library pocket and stamp inside FC, library stamp on FFEP and bottom of block, later owner's name on FFEP. Cover and spine have slight wear, most noticeable at top of spine. This textbook covers every aspect of radio transmitters, receivers, modulators, antennas, and radio communication as well as electrical and vacuum tube theory. A very worthy companion to the Terman and Henney books that you already have.

18. Henney, Keith (ed)

Radio Engineering Handbook
3rd ed., McGraw-Hill, 1941, flexible handbook, VG-/-, $15.00
Not a single marking found internally. Cover shows very slight wear around edges, primarily cover corners and spine bottom. This book was one of the most heavily used for instruction during the second world war, and ranks right alongside Terman's similar work. An exceptionally clean copy.

19. Johnson, David E.
Introduction to Filter Theory
Prentice-Hall, 1976, 0-13-483776-2, decorative boards, VG-/-, $15.00
Slight amount of hilighting in first five chapters. Cover is pristine, with no shelfwear to be seen. Without the hilighting, this book would be in near fine condition. A first undergraduate course text in filters, the chapters include approximation, elements of passive synthesis, all-pass filters, Bessel filters, passive synthesis, active filters, and much more.

20. King, Ronold W.P., H.R. Mimno, and A.H. Wing
Transmission Lines, Antennas, and Wave Guides
McGraw-Hill, 1945, VG-/-, $15.00
Owner's name on FFEP. No other blemishes internally other than yellowing of paper edges with age. Slight foxing to cover and spine, moderate wear to spine bottom, bumping to spine top. Spine lettering still bright.

21. Krauss, H.L., C.W. Bostian, and F.H. Raab
Solid State Radio Engineering
Wiley, 1980, cloth, 0-471-03018-X, VG+/-, $45.00
Owner's name on FFEP, otherwise clean internally. Cover and spine have some minor wear from handling, mostly to cover corners and spine ends. This is still considered to be the most thorough textbook on modern HF, VHF, and UHF power amplifier design, and covers everything from Class A to Class S designs. New copies are listed at $105.

22. Lenk, John D.
Handbook of Modern Solid-State Amplifiers
Prentice-Hall, 1974, hbk, VG-/G+, $13,50
Owner's name inside FC, minor bumping to spine ends, but no makings on pages. Dustjacket is slightly worn on spine ends and cover corners. Very clean copy.

23. Lenk, John D.
Handbook of Simplified Solid-State Circuit Design
Prentice-Hall, 1971, 0-13-381731-8, cloth, VG+/VG, $17.50
A highly sought-after reference on solid-state circuit design, this is an exceptionally clean copy, hnaving only minor bumping to spine ends and cover corners, and very slight wear to dustjacket spine ends.

24. Leutz, Charles R.
Modern Radio Reception
Experimenter Information Service, 1925, hbk, G+/-, $25.00
This book has suffered some minor damage by rodents (it came from a barn), consisting of 2" chewed along the front hinge , 3" along the top

of the front cover, and 1" along the top of the rear cover. Book would be in VG condition otherwise as there is no other wear and no markings. This highly sought-after collectible is very worthy of restoration, and easily so.

25. Marcus, Abraham and William Marcus
Elements of Radio
4th ed., Prentice-Hall, 1959, decorative cloth, VG-/-, $15.00
No markings internally, slight rubbing over cover and spine with slight bumping to cover corners and spine ends. An exceptionally clean copy of a well known and respected textbook on vacuum tube radio receivers and electronics, with only six pages introducing and discussing the transistor.

26. Martin, Thomas L.
Electronic Circuits
Prentice-Hall, 1955, cloth, VG/-, $13.50
Owner's name on FFEP, otherwise no markings internally. Slight wear to cover and spine, very slight bumping to cover corners and spine ends. This is an extensive book covering of linear amplifiers, primarily with vacuum tubes but with a chapter on transistor circuits as well. Additional chapters on negative resistances, noise, modulators, rectifiers, mixers, magnetic amplifiers, and more. An exceptionally clean copy of a worthwhile reference for vacuum tube circuit designers.

27. Mills, John
Radio Communication Theory and Methods
McGraw-Hill, 1917, flexible handbook, XLIB, G/-, $7.50
Library pastedown inside FC, label of some sort peeled off FFEP, pocket removed from inside RC, errata sheet laid in inside RC. Cover shows moderate wear all around, rear hinge worn through for 3/4 of length, call number applied with white paint to spine, varnish on upper 1/2" of spine, spine bottom worn through. Internally, this book is in good shape, but the cover and spine need some care. A wonderful little book from the very beginning of radio communication.

28. Milnes, A.G.
Semiconductor Devices and Integrated Electronics
Van Nostrand, 1980, hbk, 999 pages, VG+/VG-, $25.00
No markings inside except owner's stamp on FFEP, dust jacket has two tears, spine faded fro exposure to light. An exhaustive reference, this book contains substantial material regarding the state of the art in semicondcuctors at the beginning of LSI and VLSI. A very clean copy.

29. Molloy, E. and W.E. Pannett (eds.)
Radio and Television Engineers' Reference Book
2nd ed., George Newnes, 1956, cloth, G+/-, $20.00
With the exception of the owner's stamp on the FFEP, there are no makings to be found internally. Cover and soine show cinsiderable wear all around, with front cover corners worn through, a couple of small spots worn through on rear cover, spine top and bottom as well as hinges having moderate wear but not worn through. Coffee cup (?) ring on front cover (my kind of engineer), small wear spot on front cover. This is a very

thick book of what must be well over 1,000 pages, hard to tell since each chapter is numbered individually. This book is, for all purposes, the British equivalent of the 4th ed. Of the ITT reference book, but has much, much more in it. An absolute must have for vacuum tube freaks.

30. Motorola
The Semiconductor Data Book
4th ed., Motorola, 1969, VG-/-, $17.50
Clean throughout, upper cover corners slightly frayed, spine and cover lettering faded from handiling and age. A very large reference manual from an era when Motorola was considered a world leader in discrete semiconductor manufacturing, unlike today. This is a large book and will require additional postage for shipping.

Prices are exclusive of shipping costs. Unless stated otherwise, for USPS bookrate shipping add $3.50 for first book and $1.50 for each additional. For USPS Priority shipping add $5.00 for first book and $2.50 for each additional. Canadian and foreign shipping dependent on actual cost. Payment in US$ in advance by cheque or money order. Money orders preferred, cheques accepted from established customers. Books will be held for 14 days after confirmation. All dustjackets are protected with Brodart covers, paperbacks are protected with archival sleeves. Books may be returned within 30 days, with prior approval, if not as described.

I have a Icom 2700 mobile in very good condition with the tone decoder board installed. I am the second owner and it's been a base since I have had it for the last 4 months. I would like to trade for a Kenwood 733 or sell for 275 plus shipping. Any questions please email.

Scott

One or more, working or not, or pieces.   I've worn out mechanicals on the original, and am looking for a 'parts department'.

Tks!

73, Dave, K3BHJ

******** Roller Coils *************

B&W 3853 72 uH NOS but, a mite tarnished from age. $60

Johnson 229-202 18uH used good, $50

La Pointe L-0201 406-1 (identical to a Johnson 229-201) 10 uH. used good, $30

********* B&W Air Dux coils *********

These are all shiny NOS, 10" lengths, unless noted otherwise

#2408T 3" dia, 8TPI, #14 wire -- $30

#2008T 2.5" dia, 8TPI, #14 wire -- $30
#2006T 2.5" dia, 6TPI, #12 wire -- $30
#2008-31 2.5"dia x 4" long , 8TPI, #14 wire with 2 turn #14 link at center.
NIB $25

#1604T 2" dia, 4TPI, #12 wire, slight tarnish $20

#1208T 1.5" dia, 6TPI, #12 wire, slight tarnish $20
#1216T 1.5" dia, 16TPI, #16 wire, somewhat tarnished $20

#1006T 1.25" dia, 6TPI, #14 wire, somewhat tarnished $15

and a couple of miniductors (lighter construction)

#3035 3" dia, 10TPI, #16 wire, slight tarnish -- $25
#3029 2.5" dia, 6TPI, #12 wire, used somewhat tarnished but, no turns soldered $20

and a couple of Illumintronic Engineering parts

375 7367-P1 -- 1.5" dia.x 5.75" winding w/ indented turns, 14 TPI, #17, 7" overall
including plastic center support, un-used somewhat tarnished $25

980-0121-000 -- 2.5" dia. x 7.5" winding w/ indented turns, 8 TPI, #14, 9.5" overall
including plastic center support, used somewhat tarnished but, no turns soldered $30

All of the above plus shipping, if necessary, naturally.

********** Crystals and Oscillators***********

CTS Knights JKTO-47 970-2602 -- 1MHz ovenized oscillator
also bears Collins part number: 292-0308-010. Looks new, w/data sheet.
Original cost was $325! now only $50

US Army Signal Corps dual compartmented crystal case CS-137
with complete set of 120 FT-243 crystals -- channels 270 (5675 kc)
through channel 389 (8650 kc) inclusive; all checked good! $300

Signal Corps octal cased Crystals -- $15 ea
DC-9AJ 1000KC
DC-9D 1000KC
DC-15A 200KC

FT-241 -- 200 KC $10 ea

FT-243 -- 1000 1500 2000 2500 5000 5350(10.7 marker) 10000 -- $10 ea

Bliley AX-2 (FT-243 pin spacing) -- 3974.0 14125.2 $4 ea
CR-1A -- 5910 kc -- $4

FT-243 crystals -- $3 ea, 10 for $20, or $50 for all

1640.93 2506 2550 2637 3093 4035 4190 4280 4340 4450 4495
5295 5327.5 5500 5660 5995 6554.5 6555 6673.3 6783.33
7313.8 7340 7366 7825 7900 8015 8025 8050 8070 8087.7 8091.7
8141.7 8150 8163.46 8200 8230 8250 8330 8333.3 8405 8850
12460 14346 14741 14760 14780 14800

HC-6 / CR-18 / CR-27 (large case modern) Crystals -- $3 ea, 10 for $20, or $50 for all
1152 2126 2142 2182(10) 2206 2512 2522 2565 2566 2597 2620 2638(5) 2670(5)

Xref: supernews.google.com misc.books.technical:455 rec.radio.swap:24705 rec.radio.amateur.swap:390

I have the following technical and math books for sale:

1. Albert, Arthur Lemuel
Electronics and Electron Devices
3rd ed., Macmillan, 1956, cloth, VG-/-, $15.00
This text was the last in a long series of books authored by A.L. Albert, and contains a couple of chapters on semiconductors and transistors, but is still predominantly oriented towards vacuum tubes. There is a very slight amount of pencil underlining in the first 100 pages, but otherwise the interior is clean. Owner's address label removed fom FFEP, cover has foxing and slight wear overall, worn through slightly at lower corners.

2. Appleton, E.V.
Thermionic Vacuum Tubes
1st ed, Methuen, 1932, cloth, G+, $15.00
No markings to be found internally. Binding split between FFEP and title page, but book is intact. Cover is worn through at corners, spine is bumped and worn at ends. Subjects include triodes, tetrodes, pentodes, amplifiers, oscillators, and rectifiers.

3. Beck, A.H.W.
Thermionic Valves: Their Theory and Design
Cambridge, 1953, cloth, VG-/-, $22.50
Owner's name and annotation on FFEP, otherwise no markings internally. Cover and spine have slight wear and bumping overall, but no serious defects. A very clean copy of a somewhat obscure textbook on the subject of vacuum tube theory and design, including klystrons, magnetrons, and travelling-wave tubes.

4. Boyce, William F. and Joseph J. Roche

The Radio and Electronics Handbook
2nd ed., Howard W. Sams, 1952, VG-/G, $15.00
No markings internally except for owner's stamp on FFEP. Cover and spine have very slight wear. Dustjacket has small portions missing at top and bottom of spine, lower edge of front, as well as rubbing overall. Contains extensive chapters on practically every practical aspect of consumer electronics, including vacuum tube data. A clean copy despite the dustjacket blemishes.

5. Bridgers, H.E., J.H. Scaff, and J.N. Shive
Transistor Technology, Volume 1
Van Nostrand, 1958, cloth, XLIB, G+/-, $15.00
Library pocket inside FC, annotations to title page, otherwise no internal markings. Call number on spine, bumping to spine ends and corner covers, slight wear from handline. A clean copy of a significant reference on the fabrication and characterization of germanium transistors.

6. Camm, F.J. (ed)
Amplifiers: Design and Construction
George Newnes, 1957, cloth, VG/VG-, $15.00
No markings to be found anywhere. Cover and spine are very slightly worn at top and bottom. Dustjacket has some small chips and light wear to spine top and bottm. A very clean copy of an interesting small book on vacuum tube amplifiers from small signal to power.

7. Camm, F.J. (ed)
The Superhet Manual
George Newnes, 1940, cloth, G+/-, $12.50
Yellowing to pages and spots due to age. Cover slightly worn along edges, more so on bottom, with bumping to corners. Spine worn slightly on ends, faded with exposure to light. Interesting book dealing with the principles, design, and servicing of superheterodyne receivers.

8. Dawley, R.L.
Radio Handbook
13th ed., Editors and Engineers, 1951, hbk, G-/-, $15.00
Moderate wear overall, spine faded from handling and light, small ink stain on top of pages, no markings on pages. This is a substantial book and is very similar to the Radio Amateur's Handbook in many ways.

9. DeFrance, Joseph J.
Electron Tubes and Semiconductors
Prentice-Hall, 1958, hbk, G+/-, $12.50
Slight wear and bumping to outside. Owner's name inside FC, moderate underlining throughout. A good entry-level textbook from the era where transistors were becoming more widely used but tubes still dominated.

10. Department of Electrical Engineering
Applied Electronics
Wiley, 1948, cloth, G+/-, $15.00
No markings on pages. Owner's plate inside FC. Slight to moderate wear to cover and spine, slight crease down middle of spine. This was a

substantial and essential textbook for undergraduate courses during the second half of WWII, and later went to a second edition. Extensive chapters on all classes of amplifiers, rectifiers, and vacuum tube theory.

11. Department of Electrical Engineering
Magnetic Circuits and Transformers
Wiley, 1943, cloth, VG-/-, $20.00
No markings internally. Cover is worn slightly at corners and bottom edges. Spine is slightly worn at end. This is a very clean copy of a highly sought-after reference on magnetism

12. Dummer, G.W.A. and H.M. Nordenberg
Fixed and Variable Capacitors
McGraw-Hill, 1960, hbk, VG-/-, $13.50
Owner's name at top of cover, tape over owner's name on FFEP, one instance of underlining (page 108), and minor bumping to spine ends. Overall, a nice copy of this book. And I DO NOT agree with the underlined statement on page 108.

12. Eastman, Gerald A.
Television System Measurements
Tektronix, 1969, pbk, VG-/-, 0-062-1064-00, $10.00
With the exception of a name written in ink on the spine and cover, the latter of which is crossed out, this copy of one of the Tektronix series on measurements concepts is very clean, having mo markings on the pages.

13. Fitchen, Franklin C.
Transistor Circuit Analysis and Design
Van Nostrand, 1960, cloth, G/G+, $12.50
A very thorough early undergraduate text on transistor theory and applications. Moderate underlining throughout, very slight wear to cover and spine, minor bumping to spine ends and cover corners. Dustjacket has some slight rubbing, small tear at spine bottom.

14. Gartner, Wolfgang G.
Transistors: Principles, Design, and Appications
Van Nostrand, 1960, hbk, G-/-, $13.50
No wear to outside. Slight to moderate amount of underlining in first five chapters, clean elsewhere. A very good text written at the end of the initial era of the bipolar transistor and just prior to the junction FET.

15. Glasford, Glenn M.
Fundamentals of Television Engineering
McGraw-Hill, 1955, hbk, VG-/-, $17.50
Owner's name on page ends and some very occasional pencil markings. Cover and spine have very slight wear and bumping to extremities. A nice, relatively clean copy of an early textbook on television system and circuit design, from the camera to the picture tube. Has a nice chapter on wideband amplifiers.

16. Guillemin, E.A.

The Mathematics of Circuit Analysis
Wiley, 1949, cloth, G-/-, $12.50
No markings to be found on pages. Owner's label on FFEP. Cover and spine worn with handling. Cover corners worn through slightly. Spine ends and cover edges slightly worn. One of the classics in circuit analysis, the contents of this book will never go out of date.

17. Henney, Keith
Principles of Radio
5th ed., Wiley, 1952, cloth, G+/-, $13.50
This is a very clean copy, having no markings on pages. Covers all aspects of radio receivers from the antenna to the audio output amplifier and everything in between. Spine is darkened slightly from exposure to light. Spine ends and cover corners bumped.

18. Henney, Keith and Glen A. Richardson
Principles of Radio
6th ed., Wiley, 1952, cloth, G+/-, $12.50
This is a very clean copy of the last edition of this book, having no markings on pages. Covers all aspects of radio receivers from the antenna to the audio output amplifier and everything in between. Cover and spine have some wear from handling, gold leaf on spine being faded. Spine ends and cover corners bumped, upper front cover corner worn through slightly.

19. Hetterscheid, W. Th.
Designing Transistor IF Amplifiers
Philips Technical Library, 1966, hbk, VG/G+, $25.00
No markings except owner's name on end of pages. Dust jacket has slight defects from handling, such as tears and creases as well as chip-outs. One of the most thoroughly written books on any aspect of solid-state circuit design, and an uncommon find in any condition.

20. Hicks, Tyler G. (ed)
Standard Handbook of Engineering Calculations
McGraw-Hill, 1972, hbk, VG-/-, $20.00
Owner's name on FFEP, small notations on title page, otherwise no makings inside to be found. Cover has minor bumping to corners, spine has slight crease down centre, some minot wear to top and bottom. This reference covers basic mathematics from civil to nuclear engineering and is very clean.

21. Jordan, Edward C.
Electromagnetic Waves and Radiating Systems
1st ed., Prentice-Hall, 1950, cloth, G+/-, $12.50
Slight wear to cover and spine extremeties, pages yellowed at edges with age, rare markings in pencil. A cleaner than average copy of a classic text on electromagnetics and antennas.

22. Ketchum, Donald J. and E. Charles Alvarez
Pulse and Switching Circuits
McGraw-Hill, 1965, hbk, G-/-, $10.00
Very slight wear but some moisture damage to top of first quarter of

pages. Spotless otherwise. This text covers both late vacuum tube and early transistor pulse circuitry.

23. King, Ronold W.P., H.R. Mimno, and A.H. Wing
Transmission Lines, Antennas, and Wave Guides
McGraw-Hill, 1945, VG+/-, $15.00
Owner's name inside FC. No other blemishes other than yellowing of paper edges with age. This is an exceptionally clean copy.

24. Kiver, Milton S.
Transistors
3rd ed., McGraw-Hill, 1962, cloth, VG-/-, $12.50
A nicer than average copy, there are no internal defects to be found. Blemshes are limited to some minor rubbing and bumping to spine ends and cover corners. Kiver was one of the first to author undergraduate textbooks on transistor theory and applications, and this edition has good chapters on amplifier design and experiments.

25. Landee, R.W., D.C. Davis, and A.P. Albrecht
Electronic Designer's Handbook
McGraw-Hill, 1957, cloth, VG+/G-, $20.00
Owner's name on FFEP, no other markings found internally. Cover and spine are blemish-free with the exception of some slight bumping to the spine ends. Dust jacket has numerous tears, moderate edgewear, and spot on front where a price sticker (?) was removed. This is an exceptionally clean copy of a substantial reference for vacuum-tube designers and hobbyists, and a dustjacket in any conditon is very uncommon. This should sit right next to The Big Red Book.

26. Le Croisette, Dennis
Transistors
Prentice-Hall, 1963, hbk, G+/-, $12.50
Moderate wear to cover extremities and no markings on pages. This is an interesting early undergraduate textbook on the bipolar transistor, with a chapter on h-parameters and an additional chapter on tunnel diodes.

27. Lee, Reuben
Electronic Transformers and Circuits
1st ed., Wiley, 1947, hbk, G-/-, $15.00
Moderate wear to cover and spine extremities. Spine worn through at bottom, cover worn through at corners. Owner's stamp on FFEP and title page. Some minor pencil marginalia. Perhaps the earliest textbook on the subject of signal transformers, this book covers everything from air-cored RF transformers to iron-cored audio power transformers, including a section on saturable-core reactors (transductors).

28. Lenk, John D.
Handbook of Modern Solid-State Amplifiers
Prentice-Hall, 1974, hbk, VG-/G+, $13,50
Owner's name inside FC, minor bumping to spine ends, but no makings on pages. Dustjacket is slightly worn on spine ends and cover corners. Very clean copy.

29. Lenk, John D.
Handbook of Oscilloscope Theory and Application
Prentice-Hall, 1968, hbk, VG+/VG-, $12.50
No defects to book, minor wear and one 3/4" tear to DJ. A very nice copy.

30. Lenk, John D.
Handbook of Simplified Solid-State Circuit Design
Prentice-Hall, 1971, 0-13-381731-8, cloth, VG+/VG, $17.50
A highly sought-after reference on solid-state circuit design, this is an exceptionally clean copy, hnaving only minor bumping to spine ends and cover corners, and very slight wear to dustjacket spine ends.

31. LePage, William R, and Samuel Seely
General Network Analysis
McGraw-Hill, 1952, hbk, G+/-, $15.00
Owner's name inside FC. Small stain on FC, minor bumping to spine ends. No markings on pages, making this a very clean copy of a classic text on network analysis.

Prices are exclusive of shipping costs. For US, add $3.50 for first book, and $1.50 for each additional, unless noted otherwise. Canada and foreign dependent on actual cost. Payment in US$ in advance by cheque or money order. Books will be held for 14 days after confirmation. Money orders preferred, checks accepted from established customers. All dustjackets are protected with Brodart covers. Paperbacks are protected with archival sleeves.

Dual Band Amateur Ham Radio Handheld
EBAY AUCTION Item #1216996273

For Sale : MAHA-REXON RL-501 with 200 channel memory, Dual Band ht 2mt/440mhz with MAHA's NMH High-output battery pack. Last for aprox. 14hr of listening to the local repeater. I have the original box, packing and owners manual along with the ac charger and a custom leather case, and a speaker mic that I will include in this auction. Has seen little use, mostly during field day. I am selling to upgrade to the new APRS handheld, as I enjoy that aspect of the hobby more theses days. The unit is used but clean, small marks on the original antenna where the speaker mic was clipped for storage, but unharmed in anyway. I would rate this unit a 8 out of 10 on the looks scale, and a 10 for opperation. As with any used gear I will not accept any returns or refunds, and this unit is sold without any warranty, but I will state that this unit is fully functional on my desk as I place this auction listing.. I AM A PAYPAL VERIFIED Seller, I would like the winning accepted bidder to use PayPal with Visa or MasterCard etc.. much Quicker and it protects you against fraud, but will accept money order / certified bank drafts, No personal Checks. Buyer to pay Fixed S/h of $10.00. US Bidders Only. I reserve the right to offer to sell to the next highest bidder if the

```
winner has unexceptable bad feedback Rating.

What do you mean "As with any used gear I will not accept any returns or refunds,".

Since you apparently don't know the difference between For Sale and For Auction, little else you have to say has no meaning.....

Just wanted to correct a few things.....

Motorola did not sell the crystal controlled product line to Dataradio, Inc.

The RNet 150 is a crystal controlled unit. In fact, Motorola had to discontinue the crystal product line prior to the sale due to the limited availability of key components. Only the synthesized portion of the boxed RNet product line was sold to Dataradio, Inc. Dataradio, however, does offer compatible product.

The RNet 150 has been superceded by the JSLM RNet VHF which was designed to meet much higher performance specifications. The link in your post references the JSLM RNet VHF specifications.........not the RNet 150 specifications.

The JSLM RNet is available at VHF and UHF frequencies and is a drop in replacement for either the crystal controlled prouducts or the frequency synthesized telemetry products that Motorola used to manufacture.

The new JSLM RNet is available in either a 'pre-farmed' or 're-farmed' (11K0 emission designator) version. Anyone needing a drop in replacement for the RNet 150 or the RNet 450 telemetry radios can obtain one from Dataradio....the JSLM RNet is it.

Regards, Ernie

Outbacker Perth + HF antenna

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1216261945

Closes in 1 day. Get this great HF mobile antenna for much less than retail. Below are the specs. Thanks for looking

Adam / kc7ljq

This is the perfect antenna for your HF mobiling needs, or for the apartment dweller who wants a compact HF antenna. Made in Australia, this tunable antenna has received rave reviews.

This mobile antenna with tuning spike fully extended is 1.8 metres long (around 4 feet) - a 900 mm main shaft with a 900 mm tuning spike.

Operates on 80 - 75 - 40 - 30 - 20 - 17 - 15 - 12 - 10 - 6 - and the 2m band. The PERTHplus is ideally suited to fender, gutter, or trunk mounting applications, or can be bullbar mounted. It is easily transported, packing down to 900 mm . Suits all HF transceivers. Just "Plug - N - Play" for the desired band.

Help!  I need to raise some cash for a new rig, so my 737 has to go.

This near mint condition (has some dust and fingerprints on it) Icom 737
operates  SSB, CW, AM, and FM. It has the auto antenna tuner, dual vfos,
split operation, band pass tuning, notch filter, 101 memory channels and
much more.  Output power is variable from 10 to 100 watts on SSB, CW,
and FM and 10 to 40 watts on am.  This is from a non-smoking
environment.  Comes with the original hand mic with up/down controls,
power cable, operating manual and optional service manual.  Will come
packed in the original Icom boxes.  I will ship for $625 anywhere in
lower 48 states.  You can check out my feedback rating on eBay under the
user id "kabeezy".
 Thanks for reading this.

I have a TenTec Omni D model C for sale along with a matching 20 amp power suppply. Both units are in very good condition and pictures are available upon request. I'm asking $350 plus shipping for the pair. I used them in Alaska to work most of Europe on a G5RV and always recieved excellent reports. It's a great setup for the beginner as well as the TenTec collectors out there. I'll consider trades towards an HF/UHF/VHF mobile antenna and/or dual band handheld radios.

Where did rec.radio.swap go to?  Anybody know?  I know there were a few
idiots on there, but that's what filters are for.  There also were a lot
more postings on it than any of the other radio swap/for sale groups.

Does anyone have a set of FT-One extender boards and cable that they would
be prepared to loan (I'll pay postage etc) or sell?

My Ft-one is not at all well and needs urgent attention.

Many thanks for reading this

Paul, G0odp

Like new condition Icom IC-756PRO with SM-8 Desk Mic for $2495.00

Ameritron AL-811H 10-160 Meter Amplifier - Looks good and wooks great for $625.00.

Also have a new Mosley TA-53 5 band beam antenna - 10, 12, 15, 17, and 20 Meters for $400.00.
The TA-53 has been partially assembled but never put on the tower. The motorcycle hobby calls out louder....

For any of the above email Anthony, WB5TTY at wb5tty@hotmail.com My web page is http://www.vvm.com/~wb5tty/

HAMFEST March 4, 2001 - Lindenhurst, LI

GREAT SOUTH BAY AMATEUR RADIO CLUB and SUFFOLK COUNTY RADIO CLUB
ARRL APPROVED LONG ISLAND HAMFEST - March 4, 2001

LINDENHURST, LI - NY

On March 4, 2001 the Great South Bay Amateur Radio Club will again sponsor an indoor Hamfest-Computer Show. The location will be at the:

Knights of Columbus
400 South Broadway, Lindenhurst, NY.
This is an ARRL approved Hamfest.

There will be radio equipment, electronic components, computers and accessories, software, books, technical manuals, ARRL information, Amateur Radio License Exams, Door Prizes.

Advanced registration is $18.00 each table. Tables at the door are $25.00 each. Contact Walter Wenzel KA2RGI at 631 957-0218 for table reservations. NO TABLES WILL BE RESERVED WITHOUT PRIOR PAYMENT due to the space available.

General admission is $ 6.00. Wife's and children under 12 admitted with no charge.

VE - ARRL - 12:00 NOON at Babylon Town Hall, 200 E Sunrise Hwy, Lindenhurst. For exam candidates please remember to bring your original FCC Amateur Radio license (if licensed), any C.S.C.E. forms that are pending, plus a photocopy of each, pens, calculator, formal form of ID (preferably photo ID), and the examination fee, to the exam session. Current ARRL/VEC fee is $10.00, exact change is appreciated.

Talk-in will be via GSBARC Repeater on 146.685 -600 136.5 PL.

Food Service during the Hamfest will be provided by members of the Knights of Columbus Council.

Information is also available during the GSBARC 2 meter info net every Monday evening at 7:00 PM following the Newsline Report on the W2GSB repeater, 146.685 -600 136.5 PL required. You may also write to:

Great South Bay ARC
P.O. Box 1356
West Babylon, NY 11704-0356

E-mail GSBARC info@gsbarc.org or visit GSBARC online at

Hi Larry
rec.radio.swap is alive and well.  Maybe you deleted it off your system.

Larry Faehling wrote:

"Very Clean" Ameritron AL-811H with the 10 Meter Mod dealer installed. Amp works great on all bands. I have raised the ALC to operate the amp at only 450 watts out which means the amp has not been over worked. The amp is currently in use and is available for on the air tests. $625.00 plus shipping. Contact Anthony at wb5tty@hotmail.com , also visit my web page to see who I am. If you perfere to call my home number is 254-778-3428. If you will be in the area of Temple, TX, I will be happy to demo the amp for you.

73,

Anthony, WB5TTY

Hello folks
I need a Band Switch or the Wafers for an SB-1000. Can anyone help or
direct me to someone or place that might? Please email me. Thank you.
Brian

FS:MFJ 1278, HF/VHF tnc. This is the straight 1278, not the B model.
Has the 3.6X Version EPROM upgrade, software, power supply, etc.
Excellent condition cosmetically, electrically the mailbox does not function properly. This unit will do CW, RTTY, Amtor, SSTV, ASCII as well as automatic signal type detection. Original box also.
$70 and split the UPS or USPS to your QTH.
Thanks,

```

I have for sale or possible trade the following ham equipment:
1) Midland model 13-505 two meter transceiver. This is a 12 channel
crystal controlled, 25 watt rig. It is in very good condition with original
manual.
 $45.00 plus shipping

2) Realistic HTX 202 HT with battery, charger and battery pack.
$75.00 plus shipping

3) Bud 6 meter variable low pass filter model LF-601. If you are getting
into TVs, this may be just what you need.   Scratches and paint chips but
real clean inside. $20.00 plus shipping.

4) Ten Tec PM-3 Power Mite QRP 40/20 meter transceiver with hard to find
AC-5 tuner. Works good, knobs appear to be non original.
$115.00 plus shipping.

Okay here is my problem. Just purchased the Radio Shack through the glass antenna. The "Glue" did'nt hold. What can I do now?! The only part of the antenna connection that is solid is the outside, no problem with that "glue" its on the glass with no problem, however the inside of the truck I can't get it to stick! What can I use that will keep it together, please help! Reply directly since I most likely wont be checking until next weekend.
Email ngwd@flash.net

73 Daniel KC4OXP
Winder, Georgia

P.S. On another topic, I do have a Larson Mag Mount, a 2000 Toyota PreRunner, does anyone know (without drilling a hole) how I can get the coax into the truck without drilling? Thanks!

I suspect that the surface of the glass MIGHT be a little curved? The one lucky part for you is that Radio-Shack WILL take it back, just tell them it didn't fit your needs :) Eddie

Does any company make an A-B switch for HPIB or GPIB? I checked Agilent (HP) catalog and web site with no luck and a web search wasn't too helpful either.

Theory says I shouldn't need one, but I have a setup where it would be easier to install a switch than to find out what the problem is.

If you can offer any info or assistance, please let me know!

Best regards,

Michael Tracy, KC1SX, ARRL Lab

Are you saying that you have two (or more) instruments on the bus and you have a
conflict?

Try National Instruments, they sell a lot of HPIB cables, etc.

from NETPLEX Internet Services - http://www.ntplx.net/ pressed
the keys in the following order:

> Does any company make an A-B switch for HPIB or GPIB? I checked Agilent (HP)
> catalog and web site with no luck and a web search wasn't too helpful either.

They do exists - but there is little demand for them these days.
I frequently see them in the surplus stores and fleamarkets. I
doubt if anyone is actively making them anymore.

They were very plentiful back in the days of HP pen plotters. I
know Black Box and Inmac made them.

www.blackbox.com
www.inmac.com

Also try searching with keywords like "black Box, Inmac, GPIB,
switch"

Also try IEEE-488 card vendors like National Instruments, IOtech
and Keithley.

Check your favorite surplus equipment dealers and Ebay.

> Theory says I shouldn't need one, but I have a setup where it would be easier
> to install a switch than to find out what the problem is.

What's the problem? Are you trying to use two talk-only machines
and one plotter? If the devices allow it - change to an addressed
system (define separate plotter and instrument addresses)

If it is an addressed system, make sure the two instruments have
different addresses. The GPIB bus is simple and does not handle
address conflicts very well.

Good Luck!

Cheers,

Paul Grohe

Be sure to clean the glass with alcohol before trying to glue to it. Inside windows build up a "film" that can keep the glue from sticking properly. If you're a smoker, I'd say this is particularly important.

 Beautiful noise attenuating aviation headset.Both the amplified dynamic mic
and headset have a gain control! Its model H10-30 and wired for icom rigs!
Manual and wiring diagram is included! Im the original purchaser and am
non  smoker! Unit is in mint condition. The audio on transmit and received
is   unsurpassed. Im asking $140 shipped. Picture supplied upon request! I
can be  reached by calling 763-389-3966. Thanks Dan, KD0YO

Yeasu FT 726R transceiver with two meter module only. Has satellite board
and cw filter. Presently not working. Want $275.00 plus shipping or trade
for something interesting, HF, QRP, ?. With Manual.
When turned on, the rig lights up, you have sound from the speaker. The

squelch works. The shift and width work. RF gain seems to respond.
The display does not light properly. Sometimes it comes on and has one
digit on and other times nothing. When you turn it off, the display
flashes. Above the display seems locked up as the NOR LSB, USB, CW, and FM
all are lit. Most switches have no effect. Seems like its trying to work
but doesn't. May be something easily repairable, I don't know. I would
like to keep the radio if it was working.
Ron, AA5NI.......

I have the following technical and math books for sale:

1. Alvarez, E.C. and D.E. Fleckles, "Introduction to Electron Tubes and Semiconductors," McGraw-Hill, 1965, hbk, VG/-with no markings and very slight wear. A good undergraduate text bridging the gap from vacuum tubes to transistors.
   $13.50

2. Aharoni, Amikam, "Introduction to the Theory of Ferromagnetism," Oxford, 1996, hbk, 315 pages, Fine/-. This book is an excellent introduction to all aspects of ferromagnetism, and has an extensive bibliogrqphy (over 600 entries), making it an essential reference for entry and expert level professionals dealing with magnetic materials. This book is still in print and lists for over $75.
   $35.00

3. Black, Harold S., "Modulation Theory," Van Nostrand, 1953. Hbk, 363 pages, XLIB VG--/- with slight wear to outside and no markings inside except for library stamps inside front cover and on FFEP. Cover edges and spine are faded from exposure to light. This book is one of the Bell Telephone Laboratory Series from the early 1950's and is a good reference on amplitude and frequency modulation and demodulation.
   $17.50

4. Blackband, W.T. (ed), "Propagation of Radio Waves at Frequencies Below 300Kc/s," Macmillan, 1964, hbk, 478 pages, XLIB VG/- with virtually no wear. Call number on spine, usual library markings on page ends and top, as well as title page. A very exhaustive work consisting of conference papers including such well-known authors as John Belrose. An excellent copy.
$30.00

5. Cattermole, K.W., "Transistor Circuits, 2nd ed.," Gordon and Breach, 1964, hbk, 470 pages,G+/- with slight wear and bumping to cover and spine. Inside is immaculate. Although dated, this book describes circuitry such as wide-band neutralized common-base amplifiers that you won't find elsewhere.
$15.00

6. Dawley, R.L.., "Radio Handbook, 13th ed.," Editors and Engineers, 1951, hbk, G-/- with moderate wear overall, spine faded from handling and light, small ink stain on top of pages, no markings on pages. This is a substantial book and is very similar to the Radio Amateur's Handbook in many ways.
$15.00

7. Dow, William G., "Fundamentals of Engineering Electronics, 1st ed.," Wiley, 1937, hbk, 604 pages, VG-/- with bumping to cover corners and spine ends being the only external blemishes. Owner's name on FFEP, no detected markings inside. A very clean and unspoiled copy of a classic work.
$22.50

8. Fox, Jerome (ed)., "Proceedings of the Symposium on Modern Network Synthesis," Polytechnic Institute of Brooklyn, 1952, pbk, 342 pages. VG-/- with no markings on pages, cover and spine faded with exposure to light. Owner's name on upper right-hand corner of cover. A good collection of papers regarding both passive and active (tube) network synthesis.
$12.50

9. Gartner, Wolfgang G., "Transistors: Principles, Design, and Appications," Van Nostrand, 1960, hbk, 675 pages, G-/- with no wear to outside. Slight to moderate amount of underlining in first five chapters, clean elsewhere. A very good text written at the end of the initial era of the bipolar transistor and just prior to the junction FET.
$13.50

10. Hetterscheid, W. Th., "Designing Transistor IF Amplifiers," Philips Technical Library, 1966, hbk, 330 pages, VG/G+ with no markings except owner's name on end of pages. Dust jacket has slight defects from handling, such as tears and creases as well as chip-outs. One of the most thoroughly written books on any aspect of solid-state circuit design, and an uncommon find in any condition.
$25.00

11. Hunter, Lloyd P., "Handbook of Semiconductor Electronics, 1st ed.," McGraw-Hill, 1956, flexible handbook binding, VG+/- with virtually no wear and no markings except for owner's name on FFEP. This is a beautiful copy of an early comprehensive work on bipolar transistors, diodes, photocells, semiconductor physics, and applications.
$17.50

12. Kotel'nikov, V.A., "The Theory of Optimum Noise Immunity," McGraw-Hill, 1959, hbk, VG-/- with moderate wear to top of spine and owner's name on FFEP. Excellent early text on communications in noisy signal environments.
$15.00

13. Kraus, John D. and Keith R. Carver, "Electromagnetics, 2nd ed.," McGraw-Hill, 1973, hbk, 828 pages, XLIB VG-/- with slight wear, mostly bumping, to outside. Call number on spine, card pocket inside rear cover, library stamp inside front cover, but no markings found elsewhere. This book is easily recognized, having been authored by one of the foremost experts in the areas of antennas and electromagnetics. A nice, clean copy.
$22.50

14. Landee, R.W., D.C. Davis, and A.P. Albrecht, "Electronic Designer's Handbook, 1st ed.," McGraw-Hill, 1957, hbk, VG/- with slight wear to rear hinge and hinge ends. Exceptionally clean inside, owner's name on FFEP. This is a substantial reference for vacuum-tube designers, and should sit right next to the Big Red Book. A very nice copy.
$17.50

15. Le Croisette, Dennis, "Transistors," Prentice-Hall, 1963, hbk, 280 pages, G+/- with moderate wear to cover expremeties and no markings on pages. This is an interesting early undergraduate textbook on the bipolar transistor, with a chapter on h-parameters and an additional chapter on tunnel diodes.
$12.50

16. Lee, Reuben, "Electronic Transformers and Circuits, 1st ed.," Wiley, 1947, hbk, 282 pages, G-/- with moderate wear to cover and spine extremities. Spine worn through at bottom, cover worn through at corners. Owner's stamp on FFEP and title page. Some minor pencil marginalia. Perhaps the earliest textbook on the subject of signal transformers, this book covers everything from air-cored RF transformers to iron-cored audio power transformers, including a section on saturable-core reactors (transductors).
$15.00

17. Lenk, John D., "Handbook of Modern Solid-State Amplifiers," Prentice-Hall, 1974, hbk, VG-/G+ with owner's name inside FC, minor bumping to spine ends, but no makings on pages. Dustjacket is worn on spine ends and cover corners, also faded

along spine. Very clean copy.
$13.50

18. Leutz, Charles R., "Modern Radio Reception," Experimenters Information Service, 1925, hbk, 337 pages, G+/-. This book has sufferred some minor damage by rodents (it came from a barn), consisting of 2" chewed along the front hinge , 3" along the top of the front cover, and 1" along the top of the rear cover. Book would be in VG condition otherwise as there is no other wear and no markings. This highly sought-after collectible is very worthy of restoration, and easily so.
$25.00

19. Malvino, A.P., "Electronic Principles, 3rd ed.," McGraw-Hill, 1984, hbk, 754 pages, VG-/- with minor hilighting and underlining for first 100 pages. Outside is pristine. This is a substantial undergraduate textbook on semiconductors, covering as much as can be done in just these few pages.
$17.50

20. Maxwell, James Clerk, "A Treatise on Electricity and Magnetism," Dover, 1954, hbk, 1000- pages, VG+/G+. No markings inside except for annotation on title page. Dust jacket is faded on spine and slightly worn, missing a piece from the top of the spine. This is the original Dover one-volume reprint of Maxwell's extensive work from the 19th century. Clean throughout, this is a very nice copy despite the dust jacket blemishes.
$20.00

21. Milnes, A.G., "Semiconductor Devices and Integrated Electronics," Van Nostrand, 1980, hbk, 999 pages, VG+/VG- with no markings inside except owner's stamp on FFEP, dust jacket has two tears, spine faded fro exposure to light. An exhaustive reference, this book contains substantial material regarding the state of the art in semicondcuctors at the beginning of LSI and VLSI. A very clean copy.
$25.00

23. Quarrington, C.A., "Radio Circuits and Data," Caxton Publishing, 1948 (printed 1951), hbk, 90 pages, VG--/- with no markings inside. Cover is slightly worn along edges and spine is moderately worn along hinges, top, and bottom. This book contains complete schematics of a few commercial British receivers, as well as functional schematics of mixers detectors, amplifiers, etc. Extensive tables for hardware and vacuum tube characteristics. A real collector's item.
$17.50

24. Radio Corporation of America, "Solid-State Power Circuits," RCA, 1971, hbk, 698 pages, VG-/- with owner's name inside front cover. A very good reference for design of power circuits using bipolar transistors, silicon rectifiers, thyristors, and more. Covers

areas from power supplies to microwave power amplifiers.
$15.00

25. Richter, Walter, "Fundamentals of Industrial Electronic Circuits, 1st ed.," McGraw-Hill, 1947, hbk, VG-/- with owner's name on FFEP, very light foxing overall, no markings on pages. Very good text on vacuum tube theory and applications.
$13.50

26. Smith, Carl E., "Applied Mathematics for Radio and Communication Engineers," Dover, 1961, pbk, 336 pages, G+/- with very little wear for a paperback of this age, but still some wear overall and yellowing to pages. No markings found on pages. A good mathematical reference, this Dover reprint is every bit as useful as the original that was used extensively during WWII.
$10.00

27. Sokolnikoff, I.S. and E.S. Sokolnikoff, "Higher Mathematics for Engineers and Physicists, 2nd ed," McGraw-Hill, 1941, hbk, 587 pages, G+/- with very little wear and no markings on pages. Owners name inscribed on FFEP. This is a substantial book on the subjects of infinite series, integral and differential calculus, vector analysis, and other forms of higher mathematics.
$17.50

28. Valdes, Leopoldo B., "The Physical Theory of Transistors," McGraw-Hill, 1961, hbk, G+/- with owner's name on FFEP, underlining in first four chapters. Very slight wear to cover Excellent early work on semiconductor theory.
$12.50

29. Vavilov, Viktor S., "Effects of Radiation on Semiconductors," Consultants Bureau, 1963, hbk, VG+/G. Book is immaculate, but dustjacket has a piece missing from the FC bottom as well as some damage to the FC outer corner and the spine ends. Still a very nice copy of an early book on radiation effects.
$15.00

30. Walter, Carlton H., "Traveling Wave Antennas," McGraw-Hill, 1970, 429 pages, hbk, VG+/- with virtually no wear to outside, owner's nameplate inside FC. This is the original edition of one of the very few texts on traveling wave antennas.
$17.50

31. Westman, H.P. (ed), "Reference Data for Engineers, 4th ed.," ITT, 1956, hbk, G+/- with slight to moderate wear to spine ends and cover extremities, but inside is very clean with no markings to be found. A great deal of information on vacuum tubes, waveguides, transmission lines, scattering parameters, etc.
$13.50

Prices are exclusive of shipping costs. For US, add $3.50 for first book, and $1.50 for each additional, unless noted otherwise. Canada and foreign dependent on actual cost. Payment in US$ in advance by cheque or money order. Books will be held for 14 days after confirmation. Money orders preferred, checks accepted from established customers. All dustjackets are protected with Brodart covers. Paperbacks are protected with archival sleeves.

Mint Yaesu FT900AT HF rig and MD100A8X Mike for sale. 100 memories,
built in autotuner,
100 watts out 160-10. All-mode, built in cw keyer with full break-in. IF
shift and notch
filtering. CW and AM narrow filtering as well. This rig has never been
mobile, not a scratch.
Mars/CAP modified. This rig works 100% and is in line now. The base mike
is less than 3
months old. Rig comes with box, manual, hand mike, power lead. Mike
comes with box as
well. Will ship insured on receipt of U.S. Postal Money Order for $750
(Shipping included) to
James O'Brien,3910 Hiram-Sudie Road, Hiram, Georgia, 30141-3126. No
checks, etc.,US
postal Money Order.Tracking number e-mailed on shipment Thanks W4AMP

I purchased (used) a RF concepts 2M amp (45in-160out) rfc 2-417.

I used it with a yeasu dual band (VHF/UHF) but it seems to be attenuating the UHF receive considerably.

Has anyone one else experienced this, is it normal ? is there a fix ?

Jim

Hello all. I have posted a nice Drake TR4CW/RIT with Noise Blanker
and FF-1 to Ebay. The auction ends Sunday night.

The address is:

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1214248557

Thanks for reading!

Neil, K1VY

This is a great station accessory.
It has new batteries and tracks LOCAL time as well as UTC time. It is =
small and fits on the rig or desktop. MFJ sold a ton of them. It has a =
polished aluminum solid rack frame and the plastic clocks slide in/out =
when necessary to change the batteries.=20

To reset the time you don't have to take them out...just push the proper =
buttons/combinations on the ends and you're there.=20

I hace an Optoelectronics R10 Interceptor FM Communications Interceptor (30-2000MHz) The unit has marginal batteries and no antenna. I got it from a friend in trade and I cannot get it to work right. Unit is sold AS IS. Opto states they can repair it, but I figure i'd just sell and let some techie fix or send it out, asking $75 shipped conus. Photos upon request

This is a multiple CD set of vintage rig owners manuals, service and
repair info, schematics and more that I have compiled over the years !
There are literally hundreds of rigs covered on these CD's. All are
printable using a simple graphics viewing program and Adobe Acrobat
Reader. Manufaturers included are: Alinco, Alliance, Alpha, Ameco,
Ameritron, Amp Supply, Antenna Mart, Astatic, Astron, Autek, B&K, B&W,
Babcock, Breting, CDE, Central Electronics, Clarostat, Collins, Conar,
Dentron, Dowkey, Dragon, Drake, Eddystone, Eico, Eldico, Elmac,
Electro Voice, Geloso, Gonset, General Radio, Gross, Hallicrafters,
Hammerlund, Harvey Wells, Heathkit, Henry, Hickok, Hewlett Packard,
HyGain, Icom, James, Johnson, Kenwood, Knight Kit, Lafayette, Lysco,
Maxon, Midland, Motorola, Standard, Telcraft, Tmc, Triplett, VEB,
Waters, Weston, World Radio Labs, Yaesu, CB Radios, and more. Hundreds
sold in the past. Being updated weekly now. No hams shack is complete
without this CD set of vintage manuals ! There is also a list of mods
included for vaious rigs, scanners, cb's and whatnot. Buyer agrees to
prepay and cover shipping. Email me if interested.

I just bought a used AEA Pk-232mbx on ebay but there's not any software included in the deal.   I'm not sure what software I should be looking for. I primarily want to use it on HF for Amtor and Pactor.   Is there any free software I can download from the web for this TNC?

Thanks,
David, K4ZZR

You can use any terminal program to run the PK 232. I use Procom to run mine.
But windows hyperterminal will work fine.
I hope that helps
73 from Oris

Hello all. This is a final notice for a nice Drake TR4CW/RIT with FF-1. There is less than one day left, the auction ends Sunday Night.

The address is:

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1214248557

Thanks for reading!

Neil, K1VY

I have 2 units, Brand new in box with GPS antenna and all hardware. Orbcomm
KX-G7101Satellite Data Communicators w/GPS output . For more detailed info,
check out the following link:
http://www.panasonic.com/industrial_oem/satcom/products/kxg7100.html

These units sell for $895.00
I will sell for $700 each OBO.
I would consider trades for working PIII or athlon computer (desk or laptop)
All or partial
Also interested in Icom R3 scanner

Additional photos upon request..

Will trade Yaesu FT-2200 VHF for similar UHF amatuer or commercial
mobile radio.

The 2200 is in excellent shape. Original box, manual, mounting bracket,
seldom used. MARS/CAP modified (140-174 MHz TX, 110-180 MHz RX,
110-139.995 AM RX).

FT107M with FC107 , SP107P , MD1 Mike AND STAND

This radio in a 9 out of a possible 10 . I am the 2nd owner of this rig and first operator. This rig spent a good deal of its life in storage. I have purchased a new rig and need to make room. I sent this rig back to YEASU in 2000 . Nothing was wrong I just wanted it checked out and new relays installed . Which they did. Rig works very well . I have had no problems with it. Buyer pays shipping. Cashiers check or money order accepted. Price 800.00 or O.B.O. 10m thru 160m includes warc bands

Looking for Drake DC-4 power supply: at least 9/10 physical condition and known working condition especially filter capacitors and power transistors.
Email address: vojsak.1@copper.net
Thanks, Chris

Hello all:

For auction, one Perth Outbacker + mobile HF antenna. Operates on 80 - 75 - 40 - 30 - 20 - 17 - 15 - 12 - 10 - 6 - and the 2m band.

There hasn't been one of these on eBay for quite a while. Buy here and save:

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1216261945

Thanks for looking.

Adam / kc7ljq

GE MP-A VHF 146.-174. 160 channels Aegis digital encryption w/ battery and charger 9-9.5 condition. works great I use it daily. $375.00

GE MP-A UHF 440.- 470. 192 channels. w/ battery and charger an 8.5 $275.00

GE MTL VHF 16 channel scan. With battery and charger about an 8. $150.00

GE Monogram SP2550 VHF ex CSX radio with battery and charger $100.00

GE NPC200 UHF 16 channel scan with battery and rapid charger. New Uniden case. Radio works and looks new. $150.00

GE Master 2 UHF 75 watt. with pre-amp no accessories. No Icoms $75.00

GE Master 2 UHF 40 watt repeater in a Desk mate case with GE controller. No duplexers. I will add a UHF Master 2 75 watt for parts with the station that way you can make it a 75 watt with a pre-amp. $650.00

Motorola MX300s software adapter for the 1801 suitcase programmer. part number RTL5805C. $250.00

GE Master exec 2 Mobile repeater. VHF radio with a UHF receive section. with your choice of a Master 2 or a delta cable. $25.00 I have several of these.

GE Voice guard 9600 series encryption boxes. $20.00 I have several of these.
Yaesu FT50r Dual band HT in the box with manual and charger. With these accessories
drop in charger, 4 5 watt batteries(Cost $186.00), 1 2 watt battery, 2 belt clips $250.00
Motorola Micor VHF 110 watt mobile. drawer only. make a repeater. $30.00 ea.
GE Mobile Vehicle charger. Turns the MP-A, MPD, MTL, and TPX into a mobile radio and charges the battery. Comes with the mic, speaker and wiring harness. this is my personal setup so I know it works. Price with one of the above radio's $100.00 if purchased separately $125.00
GE MP-A, MTL, MPD, and TPX speaker Mic's new in the box with all paperwork. $35.00. I have 2 of these. I also have 1 used Public safety speaker mic for $35.00
Marconi UHF portable HT 16 channel. Looks like a standard. I powered up with a power supply and the thing works and has good sensitivity. No charger so I do not know about the battery. about an 8.5 $75.00
My terms
Shipping is the responsibility of the buyer on all Items. All Items sold as is but Portable radio's will not be DOA. I will not cover return shipping but will pay to ship a replacement if I have one. I can have the above radio's programmed ask about price. Trades welcome just ask.
Wanted Items
4EX22A10 mini e-prom programmer.
TQ3330 Delta ranger interface. (found one)
TQ2310 suitcase programmer if I can trade above items for it.
Dual band mobile ham radio's.
Cash also works
Dean

I have a really nice Leader LBO-552 2-channel, 20mhz oscilloscope with a probe that is is in good to excellent shape operationally and cosmetically. I'd like to trade this scope for a back-up hf radio.

I'm looking for a Knwd 830, Icom 740 or similar rig, but must cover warc bands.   If you have anything to trade, let me know and maybe we can work a deal.   I'd prefer doing business with someone who is active on eBay with positive feedback. I am and have the user name KB9E.

Thanks,

Ron

I have for sale a very nice Winged 30L-1 with good Svetlana tubes and new filter caps, replaced a year or so ago. (The old ones were working, but old so I decided to replace them.) It has a new, heavy-duty line cord. Appears to be 1967 vintage. I've been running it on 120VAC, on 80, 40 and 20meters. It works like a charm.

Offering it because I've sold the KWM-2A I was using it with and I have a Ten-Tec Titan 425 for use with my Icom transceiver.

The amp looks great, but the case and trim ring have been repainted. Trim ring shows some tiny scratches under the paint but you have to look for them. Inside appears very clean. For $700 I'll ship it UPS ground CONUS.

Thanks... Ed, W5EJ

WTB: Working Drake DC-4 mobile power supply - preferably great cosmetic
shape and has filter capacitors and power transistors in great shape AND
comes with the wiring harness.
Thanks, Chris, WG8I

Ham�s car for sale in Raleigh, NC area. The semi-famous KN4AQ-mobile is on the block. It comes wired for three antennas, audio and power distribution.

The car is a 1992 Saturn SL-2 with about 135,000 miles. It�s in very good mechanical and cosmetic condition. It has automatic transmission, power steering, power brakes, air conditioning (already converted to the non-freon system), rear window de-froster, premium stereo/cassette, cruise control.

The ham stuff includes three NMO antenna mounts in real holes (one on the roof, two on the trunk deck), a 12 V power distribution block wired to the battery, and an audio amp/coupling system to the front stereo speakers (puts a dual-band mobile�s audio into the right and left in-door speakers, which sounds great!. Sorry, the radios are not included, but I could be persuaded to toss in a dual-band Larsen whip.

```
Asking $2500.  See it at: http://www.ipass.net/~garypearce/

73,
Gary KN4AQ
Cary (Raleigh), NC

I am testing some new auction software on the Ham's Net server. If this works out It will be a regular feature on Ham's Net. There is no charge for the auction so go post your items. It would also be a big help to kick things off.

RADIO FLEA MARKET in BEETSTERZWAAG.

The flea market takes place to - 26 May 2001. Do you look for an exotic
transistor kit or a super recipient, fixed and do manufacture kit... or do
meet of radio friends? Dan comes Saturday 26 May to the Friese radio market
into Beetsterzwaag!

Many thousand visitors come each year from the entire Netherlands and Europe
to this radio flea market spectacle, approx. 100 dealers, with most diverse

articles, like senders - recevers - power supplies - antennas - software - hardware and literature.

Additionally of businessmen in the place also a flea market with many attraction organized for large and small. There is unfortunately no sales desks free on the radio flea market more, but you can reserve suburb, announce, for the year 2002. Is possible also by telephone & email, contact on to take with the executive committee. Down are these addresses.

How does one find Beetsterzwaag? From direction Apeldoorn = > Zwolle = >
Meppel = >
Heerenveen = > Drachten, departure after Gorredijk Tijnje comes departure (28) Beetsterzwaag.

From direction Bremen = > Groningen = > Drachten = > Heerenveen, departure after Drachten Haven comes departure (28) Beetsterzwaag.

On 2mtr, 145,650 Digi Meppel and 145,700 Digi Joure can one to instruct leave themselves. Inlet is from 09:00 to 16:00 MESZ, into which Cafeteria one also boarded into this time.

This whole is organized of VERON FRIESE WOUDEN. Cordially Welcome in Friesland on the FRM!

Hi, I'd like to have a spare pair of true Eimac 3-500z tubes, they
don't need to be electrically matched. They don't even have to be new
as long as the output is full and normal. What have you got?

Yes, I know I can get them and other brands from the RF Parts, etc,
but they are a bit out of my budget.

Thanks!

Neil, K1VY
(603) 465-2788
(800) 962-2949

P.S. Also, while I have your attention, I'm still looking for a noise
blanker for my Drake TR-5 and TR-7 (NB-5 and NB-7/7a respectively).
All leads gratefully accepted.

Hi there.

HOW ABOUT a LINK to the NEW CRYSTALS swapping BBS?

There is a NEW Crystal Exchange Message Board (free) on the
web at:

http://senac.com/boards/880/

There you can post sale & want ads and find radio crystals for sale
by others!

Sell your excess crystals there!!

The previous old message board was being ruined by Taiwanese infiltrators that ruined it with off-topic SPAM ads. This one is secure.

The above is all hobbyist and non-commercial. OK, the BBS has sponsor ads, that is how we get it free.

I have concentrated all of my HAM LINKS
efforts over the past few years to editing the Open Directory system, and I am the editor for all of the Ham Radio BOATANCHORS links on there.

I like the robot that automatically removes any bad links for me!

Never any 404 errors!!

We have a broad variety of specialty links to over 700 sites
(arranged by category) of interest to hams who enjoy antique rigs.

Please also link to:

http://dmoz.org/Recreation/Amateur_Radio/Boatanchors/

I have a almost new 756 it has been used on six meters for about 15

minutes. I have a SM-6 mic a SP-21 speaker and it has the FL-223 filter. The radio is in perfect shape. I wouldn't be getting rid of it but have no time to learn the code due to family problems hope to have time later but just don't have the time now.

This is the campaign gold model with spider and hard mount, and case. I

also have the manual, and the original cardboard shipping box it all came in. Used for the past year and a half for doing broadcast work in an amateur radio station. As a hobby, this adds up to very few hours. It is in perfect condition. I will ship anywhere in the continential US

for $425.

Please email your interest by Friday the 19th. After that, I'll put it on ebay.

Thanks
M. Sell

1) Knight P2 SWR bridge with meter unit and remote sensing unit/cable. Excellent condition. Picture available. Will sell for $19.00 plus shipping.

2) Micromatch Model 262 SWR meters, with remote sensing unit and cable.

Classic style equipment. This will look GREAT with any antique ham radio station! I have two of these. One with the remote sensing unit in solid metal as pictured on web site.

The other one has the same meter, but the remote sensing unit has the more normal 'basket metal' finish. Same color.

They look great with Collins and other tube era rigs.

Both units are in excellent condition.
Will sell for only $25.00 for each unit, plus shipping.

For Sale:

Ten Tec Century 21 Model 570 50 Watt solid state
CW transceiver with manual. Great for QRP ops too.
Operates on 80 through 10m CW bands,
with full break-in smooth QSK. Many features.

Will sell for $195.00 plus shipping from Florida

I also have available the TenTec iambic keyer
with built-in paddles.

eBay Customer Support <cswebform@ebay.com>
To:
John & Norma Adamson <josttech@mediaone.net>

Hello,

Thank you for writing in to day with your input on our categories.

Please understand that we hear from our members on a daily basis on how they feel our categories should be set up as we all any new features they feel would be an asset to the eBay site. We appreciate your willingness to share your thoughts and ideas with us.

We have noted your Consumer Electronics Category Suggestion and will look into the possibility of including it in future category implementations.

Again, thank you for your suggestion and we hope to hear from you again in the future. Have a great day! :)

Regards,

Sheena
eBay Customer Support

****

Original message follows:

Form Message
Subject: Other find item questions
Item:
Message: Who put Commercial Radios under: "Everything
Else:Office
Equipment:Commercial Radios"?????

Why was it moved some place else at all?????

Does someone at Ebay think this is cute or what?

Commercial Radio belongs back where it was under Consumer Electronics.

Please put it back as it is just wrong!

Thanks and I hope someone really reads this.

Have a great day.

```

Hi folks,

I saw some traffic at the Ham's Net Auction from the last posting but it didn't last long. I would just like to invite anyone who has not been there to check out http://www.hamsnet.net/auction/ The auction is free so please help me get this thing rolling by posting some items and bidding on the items that are there. At the moment I need postings.

I am trying to make a common place for hams to buy and sell their equipment online. Although the auction is a new addition to Ham's Net, I have been running the server for the past two years. I have been hosting free e-mail accounts and website hosting for hams only so this is by no means fly by night.

If you are curious about what Ham's Net is, take some time to check it out at http://www.hamsnet.net/

Thanks for your help

I have a ver clean Tektronix 2213 Dual-Trace 60Mhz Oscilloscope ($600) I would like to trade for a HF rig of equal value. I am getting back into Amateur Radio after many years of doing other things. Got my Extra license recently.

The TEKTRONIX 2213 Oscilloscope is a rugged, light-weight, dual-channel, 60 MHZ instrument that features a bright, sharply defined trace on an 80- by 100-mm cathode-ray tube (crt). Its vertical system provides calibrated deflection factors from 2 mV per division to 10 V per division. Trigger circuits enable stable triggering over the full bandwidth of the vertical system. The horizontal system provides calibrated sweep speeds from 0.5 s per division to 50 ns per division along with a delayed-sweep feature. A x10 magnifier extends the maximum sweep speed to 5 ns per division.Weight: 16.8 lb; Height with feet and handle: 5.4 in.; Width with handle:
14.2 in.; Depth with handle extended: 20.1 in.; Line voltage: 90V to 250V nominal at 48 - 62 Hz;

Includes a Tektronix P6109B 100Mhz 10x probe. No dints, dings or scratches. Original owner.
Lightly used in my consulting business on the bench. Like new service manual. The Oscilloscope is in good working order. I have 2 scopes and 0 ham gear so I need a swap.

73's de AD5BH

Alinco DJ-580T. RX is 108-129.995 AM 130-174 FM 400-520 and 810-999 MHz with no gaps in the cell portion. It will transmit 140-150 and 420-450 and out of band although I've had no need for it.

This unit even comes with some extras. Alinco Soft case,
Alinco lighter adapter, 2 battery packs and 1 alkaline case. Desh top
charger, Maha Speaker Mic, 2 dual band duck ant and manual.

Would like to trade for a lap top computer send me a email with what you
have to: pacman@bcl.net

What is this load of crap? Why is it around Christmas anyway? Is it just
a "me too" false holiday to make people who reject structured religion
feel worthwhile?, not to mention more profits for the retailers? Are
there any other groups without their own "special" holiday? Maybe
homosexuals should start their own and call it "RumpWrangle", where they
light 2 brown candles on a NAMBLA member roster. Jeeeeeez, what other
garbage can we dream up?

Still Looking for the operational manual for a Philips AL990
communications portable receiver. A service manual would be a big plus
as well. Will be willing to pay copy fees and shipping or I may have
some literature you
need? Thanks in advance, Picture of radio is shown below! email me
directly at rlonn@home.com

Hey all,
I have for auction 1 Alinco DJ-G1 2 meter HT. This is the one with the spectrum scope to see if there is activity on a nearby channel.

There is only 1 day left, and no reserve. Price is only $98 now. Have a happy new year!

I want to thank all for the input and assistance. I have more than enough information now.

I can, in the future, provide info for those whom need it for the FT-101 series. One of my procurements through all this was an original Maintenance Service Manual - FT-101 Series.

Happy Holidays to all!

Thanks Again!
N0DGN

need a good tech class radio.  Will trade computer minus power supply case
and drives.
 Was a server on my network  {have 3 so depends on how good a radio....can
add more parts to build up}
  (486, video, I/O, IDE controller. perfect internet server for FTP and web
pages)
                (was doing this till ISP said no more...had 3000 hits in 2
days)

Still Looking for the operational manual for a Philips AL990
communications portable receiver. A service manual would be a big plus
as well. Will be willing to pay copy fees and shipping or I may have
some literature you
need? Thanks in advance, Picture of radio is shown below! email me
directly at rlonn@home.com

I just spoke with a man in New York State (Albany area) that says he has lots of Tektronix BoatAnchor Scopes (mostly tube type) for give away, trade, etc. if you can pickup (or maybe pay shipping-- but these are very hard to ship). He doesn't have usenet and is not interested in Ebay.

Send him email-- I am not in the loop. Just a favor.

Joe: joseph.oneill@ogs.state.ny.us

Good luck.

Steve.

Hello all,

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1204891659
I have a Pro 2035 1000 ch 1.3 Gig scanner radio for sale on ebay.
There is less than 2 days left.
Currently $88.00 with NO reserve!

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1204891659

More info on this scanner can be found here:

http://support.tandy.com/support_electronics/16587.htm

Thanks for looking,
Adam / kc7ljq
nukingcats (at) home (dot) com

copy of ad

Pro 2035 1000 Channel Scanner
Covers 25 Mhz ---> 1.3 Gig!

This scanner is the replacement of the ever popular PRO-2006 only w/ a tuning knob and 1000 channels. It's very similar to the Pro-2042. This is a powerful scanner, yet I am selling because I am a starving college student, w/ more school than money.

Scanner is in great shape w/ the exception of some slight warpage on the top part of the scanner. (hey, it's HOT here in AZ!) However the scanner is works great!

PRODUCT FEATURE LIST:
Channels of Operation:........... 1100 Channels in Any Band Combinations
(100 Channels per bank x 10 banks and 100 Monitor Channels)
Coverage......25-520 760-1300 MHz
Scan .... 50 channels/second
Search......... 50 steps/second
Steps .... 5, 12.5 & 50 kHz
Modes .... AM, FM & WFM
Attenuator .... Yes
Data skip ...... Yes
TAPE OUT Jack
Audio 1.8W
Memory .... non-volatile
Power ... 120V AC 14V DC

Size ...10.5"(W) x 4"(H) x 7.5"(D)
Supports computer-controlled scanning w/ additional interface.

GE MP-A VHF 146.-174. 160 channels Aegis digital encryption w/ battery and charger 9-9.5 condition. works great I use it daily. $375.00
GE MP-A UHF 440.- 470. 192 channels. w/ battery and charger an 8.5 $275.00
GE MTL VHF 16 channel scan. With battery and charger about an 8. $150.00
GE Monogram SP2550 VHF ex CSX radio with battery and charger $100.00
GE NPC200 UHF 16 channel scan with battery and rapid charger. New Uniden case. Radio works and looks new. $150.00
Vertex VX500 UHF 32 channel scan with battery and charger. $185.00
GE Master 2 UHF 75 watt. with pre-amp no accessories. No Icoms $75.00
GE Master 2 UHF 40 watt repeater in a Desk mate case with GE controller. No duplexers. I will add a UHF Master 2 75 watt for parts with the station that way you can make it a 75 watt with a pre-amp. $650.00
Motorola MX300s software adapter for the 1801 suitcase programmer. part number RTL5805C. $250.00
GE Master exec 2 Mobile repeater. VHF radio with a UHF receive section. with your choice of a Master 2 or a delta cable. $25.00 I have several of these.
GE Voice guard 9600 series encryption boxes. $20.00 I have several of these.
Motorola Micor VHF 110 watt mobile. drawer only. make a repeater. $25.00 ea.
GE Mobile Vehicle charger. Turns the MP-A, MPD, MTL, and TPX into a mobile radio and charges the battery. Comes with the mic, speaker and wiring harness. this is my personal setup so I know it works. Price with one of the

above radio's $100.00 if purchased separately $125.00
GE MP-A, MTL, MPD, and TPX speaker Mic's new in the box with all paperwork.
$35.00. I have 2 of these. I also have 1 used Public safety speaker mic for
$35.00
Marconi UHF portable HT 16 channel. Looks like a standard. I powered up with
a power supply and the thing works and has good sensitivity. No charger so I
do not know about the battery. about an 8.5 $75.00
My terms
Shipping is the responsibility of the buyer on all Items. All Items sold as
is but Portable radio's will not be DOA. I will not cover return shipping
but will pay to ship a replacement if I have one. I can have the above
radio's programmed ask about price. Trades welcome just ask.
Wanted Items
4EX22A10 mini e-prom programmer.
TQ3330 Delta ranger interface.
TQ2310 suitcase programmer if I can trade above items for it.
Dual band mobile ham radio's.
Cash also works
Dean

I'm interested in purchasing a 6 meter amp capable of 1kw - 1.5kw out.  If
you have one that you would rate a 9 out of 10 (10 being mint) I'd be
interested in the following:

1.)    How much do you want for the unit.
2.)    How much will shipping cost me?
```

3.)   How do you want to be paid? MO, PayPal, MasterCard ;-) ??
4.)   You will HAVE to provide me with CURRENT pictures of this unit via email, or the web.

If you have such a unit please email me, I am interested.

PS - Also looking for similar 432 amps.

GE MP-A VHF 146.-174. 160 channels Aegis digital encryption w/ battery and charger 9-9.5 condition. works great I use it daily. $375.00

GE MP-A UHF 440.- 470. 192 channels. w/ battery and charger an 8.5 $275.00

GE MTL VHF 16 channel scan. With battery and charger about an 8. $150.00

GE MPD VHF 48 channel alpha display with battery and charger. a 9 $125.00

GE PCS I have several VHF and UHF all 2 channel with batteries no chargers $50.00 each

GE Monogram SP2550 VHF ex CSX radio with battery and charger $125.00

GE NPC200 UHF 16 channel scan with battery and rapid charger. New Uniden case. Radio works and looks new. $150.00

GE MPI 2 UHF 2 watt 2 channel programmable radio. I have 3 of these all programmed to the same GMRS split and talk around. all have chargers and good batteries. $65.00 each or $55.00 each for all 3.

Vertex VX500 UHF 32 channel scan with battery and charger. $200.00

GE Master 2 UHF 75 watt. with pre-amp and all accessories. No Icoms $125.00

GE Master 2 UHF 40 watt repeater in a Desk mate case with GE controller. No duplexers. I will add a UHF Master 2 75 watt for parts with the station that way you can make it a 75 watt with a pre-amp. $750.00

Motorola MX300s software adapter for the 1801 suitcase programmer. part number RTL5805C. $300.00

GE Master exec 2 Mobile repeater. VHF radio with a UHF receive section. with your choice of a Master 2 or a delta cable. $25.00 I have several of these.

GE Voice guard 9600 series encryption boxes. $25.00 I have several of these.

Motorola Micor VHF 110 watt mobile. drawer only. make a repeater. $25.00 ea.

GE Mobile Vehicle charger. Turns the MP-A, MPD, MTL, and TPX into a mobile radio and charges the battery. Comes with the mic, speaker and wiring harness. this is my personal setup so I know it works. Price with one of the above radio's $100.00 if purchased separately $125.00

GE MP-A, MTL, MPD, and TPX speaker Mic's new in the box with all paperwork. $35.00. I have 2 of these. I also have 1 used Public safety speaker mic for $35.00

Motorola thruline wattmeter with 5 watt 500 - 1000 MHz element $65.00

Marconi UHF portable HT 16 channel. Looks like a standard. I powered up with a power supply and the thing works and has good sensitivity. No charger so I do not know about the battery. about an 8.5 $75.00

My terms

Shipping is the responsibility of the buyer on all Items. All Items sold as is but Portable radio's will not be DOA. I will not cover return shipping but will pay to ship a replacement if I have one. I can have the above radio's programmed ask about price. Trades welcome just ask.

Wanted Items

4EX22A10 mini e-prom programmer.

TQ3330 Delta ranger interface.

TQ2310 suitcase programmer if I can trade above items for it.

Dual band mobile ham radio's. UHF mobile ham radio's

Cash also works

Dean

I am ordering a Kenwood TH-D7AG HT for Christmas and will no longer be needing the Tigertronics APRS Tracking unit that I purchased about six months ago.

The Tigertonics TM-1+ is a Multimode APRS Tracking unit which I have had GREAT success with. I used the TM-1+ with a Kenwood TH-28A HT and Garmin 45XL GPS unit. I ran the TM-1+ off of a 9 volt battery and never had a single problem.

I paid $109.95 for the unit but will sell for $75 which INCLUDES shipping. This includes the TM-1+, Windows Programming Software, Radio to Tracker patch cable, 9 volt power cable & Manual.

Rather than list all of the features of the unit, please refer to Tigertonics's APRS Websites for more info:

www.tigertronics.com

www.gpstracker.com

Please E-Mail me direct and thanks in advance.

Misc for Sale: I have pictures I can send by email if you like.

1989 International Callbook
1989 United States Callbook
both in excellent condition, $10 plus postage for the pair.

Knight Model KG-687 Sweep / Marker Generator, very good
condition but missing the handle on the top. Still has the plastic
over the front dials.
$30 plus shipping.

Panasonic KX-P1124 printer, excellent condition with owner's
manual, power cable and "six" brand new ribbons. This takes the
small ribbons like the Okidata type printers.
$25 plus shipping.

IBM Proprinter II printer, very good condition, with owner's manual,
power cable and 2 new ribbons.
$20 plus shipping.

Approximately 30 foot roll of "real" ladder line. This is not homebrew
and has plastic spacers installed. Bare copper wire. You need to see
the picture on this one.

Make offer.

Military style phone plugs with the numeration:

```
ADC  PJ051R   M642 / 2 - 2         one each
KINGS     PJ-055B                       one each
KINGS     PJ-054R                       one each
JK-26                                       one each - this one is the
matching in-line jack
                                                 for the PJ-054R
```

Make offer on all, please.

Again, I have pictures I can send to interested parties.
Thanks,   Randy   N�SAH

I need a schematic for a Yaesu FT-101B. I'm going to convert it over to 6146B finals based on the QST from May 1999. Send me an email, let me know if you can or will fax, scan and email a jpg or whatever. Anyone have an old manual or copy of one lose? Will pay for copy.

Thanks!
N0DGN

All:

I have decided to sell a computer that I originally purchased for my wife.

The machine is a Toshiba Tecra 550CDT. It has a 266Mhz processor, 96MB RAM, 4GB hard disk, USB, 20X CD, 56K modem) see here for exact spec - http://cdgenp01.csd.toshiba.com/content/product/pdf_files/detailed_specs/tecra_550cdt.pdf

I will be asking $390.00 plus shipping. This is exactly what I paid for it 8 months ago. I would prefer to sell it here on the west coast or even in norther calafornia to avoid shipping. However, I will ship it if needed. The computer is is really good condition and has not been used mobile. It come with Windows 95B but no other software due to licencing restrictions.

Please email me at

brumey@subdimension.com

Kevin (KD6QFO)

I am looking for a dual bander, 2m/70cm, preferrable Kenwood or Yaesu, but
I'm not gonna be picky. =-]~

Will pay or I also have the following items for swap (or swap and add in a
little $$$)

Yaesu FT-530 2m/70cm Dualband Handheld w/DC Power Cord
Alinco DJS-41 70cm Handheld (small!)

Matrox G400 3D Card w/Original CD-ROM
Hauppage WinTV Card w/Original CD-ROM
Creative 3D Blaster Banshee Video Card w/Original CD-ROM
nVidia TNT2 3D Card 32 MB RAM w/Drivers on CD-R

A few 100 MB IDE Hard Drives
WindowsNT 4.0 Server (Original Everything, Boxed)

And a few other things I can't remember right now, but if you're looking for

something, ask!
Contact me at alyssamt99@hotmail.com

Thanks!

Obveiously my first impression was right.
You are a Zipperhead and you do not have a clue..
or you are to lazy to read the charter OR you are just
a money grubbing individual who has NO respect for
the News Group or it's rules...

He has not a Clue that Binaries and ASCII
are NOT used in this News Group. TEXT ONLY..

>> >" Remember, this radio IS NEW IN THE BOX" and

>> >"all electronics, sold As Is"

Brand new and not even a "No DOA"

sniff sniff something smells <G>

Just My Opinion..

Bob

Looking for information on the DC voltage of the optional battery that
goes in the AOR 7030? Has anyone used a substitute battery? I believe
the AOR unit is a Lead Acid type battery so the voltage is probably more

like 13 to 14 volts rather than 12 volts?? AOR charges a hefty $200.00 for this option! Any information would be appreciated. Please email me at rlonn@home.com

Robert

Hi Robert,

I had a 7030 a few years back and seem to recall the receiver needs 15VDC in order to meet its IP3 spec. I picked up a 12V-->15V converter and ran it portable that way.
It should probably be OK at reduced IP3 on 12V

Several hams have suggested I take TWO of my portable wind-up reel
antenna's and manufacture them together to make a portable dipole
system. So that's what I've done. If you'd like a portable dipole
system made with our wind-up reel antenna's and custom made with ANY
kind of plug on the end...PL-259, 1/8" phone, BNC, etc...just let me
know and I'll
be happy to do it AT NO EXTRA COST. And the shipping is free when you
order two of the reel antenna's, too. To see a photo and to get further
info on the wind-up reel antenna's, just go to http://qth.com/dwm and
click the "Yo-Yo-Tenna" section.

73 and happy holidays;

Bill, WA8MEA @ Jackson, MI QRP Club station: KC8BCR

The extra digit on the display is not a mod, Chris ... it's a built-in available feature!   That is, if you're referring to the 10 khz feature.

To get 10 hz resolution on the main display, press CLEAR while turning on the power. To set it back to 100 hz resolution, do it again.

If you have the owner's manual, section 4-2-8 will have a list of functions that can be toggled by pressing a button when you turn on the set.

I don't quite understand what you mean by "power up on SSB", however.

This is the 2nd thread I have seen rhawk@negabits.net engaged in truly asinine name calling. This, sir, gets you a place in my kill-file. Grow up. In this newsgroup, how many times do you see a file that is 117kb that ISN'T binary... and the very next post in the thread is from YOU and it is a whopping 119kb. Just ignore them, or delete them.

ERRRR....

Since when is TEXT **NOT** ASCII??? Text IS represented by 7 bits of the ASCII code. The graphics characters are formed with the addition of the 8th bit. But...BOTH ARE ASCII!!

I think you perhaps need to get a clue as well.

By the way, why do you keep change your address from "megabits" to "negabits"??? To confuse those who put you in their kill file?

No Binaries, Or HIGH ASCII.. Is that better?

Negabits or megabits tells me where it came from..

Bob

What can I say Coward. at least when I say something I
have the B*LLS to sign it and I do NOT hide behind
a spammed email address using an AKA.. Just look in the header.

you remind me of a cop, they do not have "Balls" either

My Opinion..

I am using version 1.0 dated 12/15/99.

Does anyone know where I can get a later version or any patches
for the sw itself.  I am having problems with bad file saves and
I know the system is ok.

Please email direct:  josttech@mediaone.net

     Thanks in advance,  John w1hzh

Yep - That's rite!

I wanna buy you cruddy CONAR Receiver model 500.

Come on, get your butt off the couch and get your nose into the junkbox in the garage and dig it out.

It's been waiting there for 35 years since you last fired it up as a Novice.
You're not going to do anything with it during the next 35 years.

So sell it to me, so I can put it in my junkbox in the garage.

email me if you found it.

Hi Folks,

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1203218678

Standard UHF Trunking Mobile

Compatible with 900 MHZ LTR and conventional protocols.

The 15-watt GX5850T easily handles up to 20 systems and 200 groups - not to mention its 100-channel conventional capabilities. You get advanced trunking and data handling capabilities you need for today's business environment. The GX5850T has a built-in interface for an array of GPS, mobile data terminals, AVLs and remotes.

Specs:
Frequency RangeRX: 935-941 MHz
TX: 896-902/935-941 MHz
Systems/Group 20/ up to 200
Input Voltage: 13.6 VDC +20%
Channel Spacing: 12.5 kHz

More info at ----> http://www.macawelectronics.com/standcom/gx5850.htm

Psst, the reserve is $150 Please e-mail if you have any questions

I don't waste my time with contests, as I've said several times in the past.
It's like visiting places vs just driving thru 'em so you can stick another
tack on the map.
Waste of time, iow. I like to spend time getting to know my contacts.

You just can't stand being hit where it hurts, huh?
(Now, THAT's profound sh*t, huh?)
I've noticed that most contesters seem to get very upset when you compare
'em to the vacationer who's travelling for no reason other than the 'trophy'
he gets by sticking another state on the map he's got on the back of his

motorhome or whatever.. They can always give you a few textbook answers
about the sites they've been to after the fact, but that's about it....
So "What's the point" if not just 'trophies' to brag about, huh?...
And, no, I really don't expect any more of an answer from you than what's
quoted below...
You're just a typical contester, "as I said before..." hehe..

Hi Gang,

FOR SALE , ICOM IC-4SRA 440 MHz TRANSCEIVER PLUS 50-900 MHz WIDEBAND
RECEIVER ! This Icom IC-4SRA is LIKE BRAND NEW ! I'm the original owner
and have the instructions as well as the box . This HT has NEVER been
outside , in a car , or dropped on the ground ! It's MINT . Some general

information

HAM BAND 440 - 450 MHz FM
Pwr settings 5 W , 3.5 W , 1.5 W , and 500mW selectable.
NUMBER OF MEMORY CHANNELS 33
RECEIVER SYSTEM Double - conversion superheterodyne.

RECEIVER BAND Frequency coverage (NO GAPS)
25 - 950 MHZ
MODE AM , FM , and WFM (wide FM)
TUNING STEPS 5, 10 , 12.5, 15 , 20 , 25 , 30 , and 50 kHz and 100 kHz, 1 MHz, 10 MHz for dial select steps.
NUMBER OF MEMORY CHANNELS 63
RECEIVER SYSTEM Triple - conversion superheterodyne.

All antenna's (two) included . Along with the battery pack BP-84 (weak and needs to be replaced) . Also included is the wall wart (AC adapter / charger) . And all documentation . This HT has a ton of features , pager , etc. Too numerous to mention . It's a loaded HT and like new . Oh yeah, it scans as well . So you could use it to listen to Police / Fire calls as well as the whole 800 Mhz cell phone band !! (They don't make um like that anymore !)

I can answer any questions and provide .jpg's via e-mail . I'm asking $225.00 SHIPPED USA only. This rig cost $400.00 new . I can accept Visa / MasterCard payment via PAYPAL . Thanks for reading !

73,
Steve

Greetings:
I have a Toshiba 520CDT notebook for sale. This unit is in excellent condition. It's only been used in a home environment and as a secondary computer (for learning). For detailed specification, go to
http://cdgenp01.csd.toshiba.com/content/product/pdf_files/detailed_specs/tecra_720cdt.pdf

In summary, the machine is

166Mhz Pentium MMX processor

2GB Hard disk

64MB RAM

12.1 inch Active Matrix screen

Built-in CD, Sound system, USB port, Modem and 2 PCMCIA ports

Software includes Windows 98 (pre installed). All other software has been removed to comply with copyright laws.

Has battery although I have never used on battery power and cannot confirm the battery condition.

I am asking for $290.00 or better offers. Please reply in email with your location, phone number and offer (above $290 please). I would prefer to sell the unit locally (Sacramento, CA) but will ship if I cannot get any interest locally. No Swaps this time, I am raising cash for xmas :)

Please email me at brumey@subdimension.com

Thanks,

Kevin.

I have two Advanced Receiver Research SP432VDG Preamps for sale. Both are in perfect working condition. They appear almost like new. I say almost because on has a small scratch on the covers decal. Other than that these look and work like new. They currently sell new from ARR for $109.95.   I'm selling these for $80.00 Plus $4.00 shipping.

This URL explains the preamp: http://www.advancedreceiver.com/page7.html

Hi,
Have 5 Mostars for sale, two UHF and three VHF.

UHF are rotary channel switch 8 channel radios.

VHF are all 8 channel radios, two with digital channel display, one rotary switch. All work fine, have Ham frequencies programmed in them.

$65 each shipped. No power cords, only have a couple of mikes. One base station and a couple of mobile. No mounting brackets.

Email if interested.

Have two VHF 12 channel synthesized handhelds, no batteries. Have ham band frequencies programmed. Work fine. Are low split radios, with rf preamps. Hot receivers. No pl installed

ALso have one UHF synthesized mx for sale. Has one pl frequencie installed, 103.5 hz. Works fine.

ALso have several convertacoms, like new, working great.

No batteries, but have antennas and one speaker mike.

$60 each for the mx's. $40 for the convertacoms, and $20 for the speaker mike.

Email if interested.

Yaesu FL-7000 Solid State Linear Amplifier. Auto band switching and tuning with a number of Yaesu rigs. Works fine with other rigs as well. Built in antenna tuner. Works on 160-10 including WARC Bands. A few minor scratches nothing serious. Front Panel is clean.
$1300 plus shipping.

Date: Sat, 02 Dec 2000 00:42:58 GMT
Xref: supernews.google.com rec.radio.amateur.swap:106

I recently picked up TS850 with a receiver problem. The radio seems to be slightly less sensitive (compaired to my FT-847) on the lower bands (about 2 S units or so), 160M, 80M, 75M etc, but significantly less sensitive on the higher bands like 10M. On the higher frequencies, my FT-847 can hear a faint signal, one with no S reading, but the TS850 usually does not even hear them.

Also, I noticed that if I turn off the IF filetring or I make them as wide a possible, the receiver performs a little bit better.

I've done some research and found D31 as a possible solution, although the information stated that if D31 is leaky, the receiver will be less sensitive. I don't know if it means the above situation holds ture or if the receive should be less sensitive on all bands.

Also, I noticed there are two amplifier receiver circutis on the RF board which use different transistors for the below 20MHz and above 20MHz. I'm not sure if these are the issue because on the 10M band (with the widest IF filtering) , if I get a strong signal, it will be just as loud and of almost similuar S readings as my FT-847.

I have only 3 days to decide if I want to keep the radio. It is in great condition except for this and I am looking for ways to determine and narrow down what the issue really is. I do not want to get stuck with a radio that needs $300 or more to fix, so please help. Any information you can provide would be of great help!

Thanks for your help!

As much as I love '850s, I'd recommend sending it back.  '850s in
excellent shape are widely available.  Mr. Murphy is waiting to bite
you on this one.  :-)

I posted a "Bad Guy Alert" here about a week ago concerning Jerry Pippins (aka cbnut24 or cbfixxer). I stated that he was supposed to ship me a Uniden HR-2510 in exchange for my BC895 Trunk Tracker.

Jerry claimed to have shipped the radio on November 13th, I shipped the 895 on the 14th. He got the 895 on the 21st of November. On Thanksgiving day I started asking him where the 2510 was and he came up with a bunch of excuses as to why it wasn't here. He eventually responded, "Don't be a whine ass, you'll get it." After that, his e-mail address was no longer valid.

On December 2nd I FINALLY received the 2510...postmarked Nov 30!!! But that didn't bother me. At least I had finally gotten the "excellent condition... you'll love this radio" 2510 that Jerry promised me. Upon opening the box and digging through the packing I found a PATHETIC looking 2510. The case and face plate was scuffed up like you wouldn't believe. The power plug on the back is broken and pushes back into the radio whenever you try to connect the power cord, the accessory plug has epoxy all over it and someone added a speaker jack and did a very poor job of it. Upon removing the covers I found that the back part of the display was melted because some MORON removed the original lamp (probably burned out) and replaced it with a HIGHER wattage lamp. This lamp melted the display to the point that the lamp will no longer stay in place. Wires have been snipped and slodered to other locations, obviously an attempt at doing some kind of modifications. There are cold solder joints, large globs of solder and someone added a small PCB board to the underside of the RF board and is being held in place by pieces of solder. I have no idea what this board does. The radio smells like smoke and has the hint of burned components.

I obviously didn't get a fair trade since my 895 was in NEW condition and this 2510 is probably only good for parts.

Avoid this person if you can. I was able to find some feedback about this guy on Yahoo! Auctions and his feedback was very poor. He's still holding to the pattern from those posts: ships late, has several excuses and doesn't send what is promised.

Jerry... if you read these news groups... thanks a lot liar.

Well David E. Eaton has attempted to stiff me for $136.00 for a Kenwood
```

HC-10 clock he claimed to have and if he did it was probobly stolen. I am going after him and the book is being thrown at him. These people who want something for nothing have to be stopped. By the way, I've seen David E. Eatons rap sheet and he is by no means even close to an upstanding citizen.

That board is supposed to be there and these radios really don't hold up very well to any kind of abuse. Always check to see if a person sells a lot of items and check to see if they exist on ebay for references and positive feedback. Do a search on dejanews to see if the person had good or bad dealings in the past.

"N6TGK" <n6tgk@home.com> wrote in message
news:axwW5.33341$I5.557571@news1.rdc1.sdca.home.com...

I posted a "Bad Guy Alert" here about a week ago concerning Jerry Pippins (aka cbnut24 or cbfixxer). I stated that he was supposed to ship me a Uniden HR-2510 in exchange for my BC895 Trunk Tracker.

Jerry claimed to have shipped the radio on November 13th, I shipped the 895 on the 14th. He got the 895 on the 21st of November. On Thanksgiving day I started asking him where the 2510 was and he came up with a bunch of excuses as to why it wasn't here. He eventually responded, "Don't be a whine ass, you'll get it." After that, his e-mail address was no longer valid.

On December 2nd I FINALLY received the 2510...postmarked Nov 30!!! But that didn't bother me. At least I had finally gotten the "excellent condition... you'll love this radio" 2510 that Jerry promised me. Upon opening the box and digging through the packing I found a PATHETIC looking 2510. The case and face plate was scuffed up like you wouldn't believe. The power plug on the back is broken and pushes back into the radio whenever you try to connect the power cord, the accessory plug has epoxy all over it and someone added a speaker jack and did a very poor job of it. Upon removing the covers I found that the back part of the display was melted because some MORON removed the original lamp (probably burned out) and replaced it with a HIGHER wattage lamp. This lamp melted the display to the point that the lamp will no longer stay in place. Wires have been snipped and slodered to other locations, obviously an attempt at doing some kind of modifications. There are cold solder joints, large globs of solder and someone added a small PCB board to the underside of the RF board and is being held in place by pieces of solder. I have no idea what this board does. The radio smells like smoke and has the hint of burned components.

I obviously didn't get a fair trade since my 895 was in NEW condition and this 2510 is probably only good for parts.

Avoid this person if you can. I was able to find some feedback about
this guy on Yahoo! Auctions and his feedback was very poor. He's
still holding to the pattern from those posts: ships late, has several
excuses and doesn't send what is promised.

Jerry... if you read these news groups... thanks a lot liar.

Hi all.

I'm looking for a couple of noise blankers, one for my Drake TR-5, one for a TR-7/7A. The applicable Drake model numbers are NB-5 and NB-7 (or NB-7A) respectively.

Please contact me at:

NeilR@innermedia.com

or call (800) 962-2949 (in the USA)
or (603) 465-2788

Must be operational.

Thanks, and any/all leads are gratefully received.

Neil, K1VY
New Hampshire

I am still searching for an ICOM IC551 FM add on module.  I will entertain
buying another non working 551 that has the module. I know somwone has one
put away and is no longer using it.

Thanks
Mike

I think I am interested in finding another used (or new) Hy-Gain Hy-Tower (18HT) to phase with the one I have. All metal fittings must be included and antenna in good condition. Please EMAIL me with price, condition, location.

Thanks... Ed, W5EJ

I am looking to buy an absolutely mint Kenwood HC-10 World Clock.  If
you had the box and instructions,it would make it more desireable.  Let
me know what you have.

Do not trust or do business with this
person . They have SPAMMED
the NG with their eBay Drivel without
inserting FA = For Auction in subject
line so those of us that do not enjoy
auctions can filter said "spam mail"
Is this Swap, For Sale OR For Auction.

Just my opinion..

Bob

Good Day - For Sale a Gonset SUPER SIX mobile converter. This is a tunable tube converter that covered 10, 11, 15, 19, 20, 40, 49, and 75 meters when operated into the car's radio. Got its power from the car radio and was great for AM operation. Was very popular in the mid and later 1950s.

Unable to try so sold as is.   Looks complete and all the controls operate freely. But has a couple scratches on the gray box and a cracked knob.. The extruded aluminum case is good but has a couple small dents that can easily be repaired.

Manual and drawing is on BAMA

$35 plus postage from zip 98837.

73 Bob W7AVK

Anybody have a manual for the Ten-Tec PowerMite 3A QRP transceiver that was manufactured back around 1968-70? I'll be glad to pay reasonable copying/mailing charges, of course. Tnx and 73!

Joe, W2RBA

Stupid frigging spammer!!!

Do not trust or do business with this
person . They have SPAMMED
the NG with their eBay Drivel without
inserting FA = For Auction in subject
line so those of us that do not enjoy
auctions can filter said "spam mail"
Is this Florida For Sale OR For Auction.

P.S. For the Profanity Police.
"Frigging" IS A Nautical term..

Just my opinion..

Bob

Read the damn Post. This is my standard response.

"Do not trust or do business with this
person . They have SPAMMED
the NG with their eBay Drivel without
inserting FA = For Auction in subject
line so those of us that do not enjoy
auctions can filter said "spam mail""

In other words I have NO problem with
FA, FS or WTB

A lot of us are just getting tired of downloading
something that is interesting to us ONLY to
find that some inconsiderate greedy individuals
has intentionally left out the FA at the begining
of the subject line to "TRICK" people that
otherwise would NOT waste their time on
eBay ads into readind their DRIVEL..

Just my opinion..

Bob

For Sale:

Kenwood TR-751A 2M All Mode. Works Great, about a 8.5 cosmetically. Mic works, but the DTMF and up/dn buttons on the mic do not (bad cable?). $250.00.

Tempo 2020 10-80M HF Rig w/mic ... Cosmetically quite nice... could use some contact cleaner or pot cleaner on some of the controls... but works good. $200.00

Alinco DJ-S11T 340mw 2M HT... nice little radio, fit's in your shirt pocket. I lost the manual (I may still find it) but have the "quick ref" pdf printout (the actual manual was not much bigger). It's about 18mos old... my wife used it mostly just to listen to me when I was mobile and commuting... $90.00

E-mail if interested

Help. I need a copy of Hamshack that Kenwood had out in the early 90's.
It was Hamshack Version 2.2. I need a copy that works. I have the demo
copy. It is a rig control program for the TS-440 Thanks.
Gene Sailsbury KC0IKY

Hi all. I have four nice items on Ebay for sale. These auctions end
Sunday evening.

Drake R4-C : Late Model, L@@K!
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=506423617

Drake T4X-C : Excellent, L@@K!
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=506452682

Drake AC-4 Power Supply: L@@K!
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=506469021

Drake MS-4 Speaker: L@@K!
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=506487715

All items are fully satisfaction guaranteed.

Thanks for your interest and good luck with your bidding. You can
email questions to NeilR@innermedia.com

You go around Dentroning bad-guys? haha...
Considering the childish CB handle you're using, well... Yeah, whatever you say, Dentron-Man..

BD,
That's great you are running at 30wpm I don't think I could copy your fast
speed I would have to use my TNC for that. What's your call maybe we can qso
sometime. I really dont know what your problem is BD.

As I've explained before..
Think about it for a sec, ok?
Would it make much sense to use fake name here and then post my
call-sign?...
What would be the point in using a fake name? ;)
If so much personal info couldn't be obtained with it, I'd have no prob at
all posting it here, but...
And I've yet to get any junkmail (that I know of), sales-calls, etc. as a
result of using it on the air, so that is somewhat different...

Hi all. I have four nice items on Ebay for sale. These auctions end
Sunday evening.

Drake R4-C : Late Model, L@@K! Currently at $262.00
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=506423617

Drake T4X-C : Excellent, L@@K! Currently at $200.00
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=506452682

Drake AC-4 Power Supply: L@@K! Currently at $75.00
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=506469021

Drake MS-4 Speaker: L@@K! Currently at $33.99
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=506487715

All items are fully satisfaction guaranteed.

Thanks for your interest and good luck with your bidding. You can
email questions to NeilR@innermedia.com

When I lived up north it was easy to find a ground for my rigs through the
plumbing pipes, etc. Here in Florida however, almost everything is PVC.
Here's my plan: I intend to run transmission line into the house through the
wall near the station location. There will be a lightening arrestor in the
line from the mast mounted vertical. (ten meter vertical, about twenty feet
high, I'm starting slow.) It will be adjacent to the transmission line
entrance point, connected to an 8 or 9 ft. ground rod. From the ground buss
in the shack, I intend to run a bare ground wire through the line access
point out to be connected to the same ground rod used for the lightening
arrestor.Any comments or suggestions will be appreciated.
Thanks and 73, Jim W2JBS

Being in Florida, the best advice I can add is to set things
up where you can readily DISCONNECT the antenna and and PULL
the ac power physically. Having a good ground is a mixed
blessing if a lightning surge comes in via the power. It'll
jump right thru your gear to get to that nice ground.
Oh, and pull ur telco/modem connection too when a storm is
in the area.

Thanks Bill,
I intend to house the arrestor fitting in an outside enclosure for access to
disconnect when a storm is emminent, which is often enough here. Also, we
have a drill to pull telephone lines, TV and other power cords at such
times.
Vieques, eh? Keep your head down.
Thanks again and 73. Jim

Hello Jim:

My advise to you is make sure you connect you grounding system to the main electrical service panel ground as per the National Electrical Code. In addition, use multiple points (several ground rods) all connected in series with your station ground which ultimately connects to your electrical service panel ground as well. My QTH is subject to lightning hits (Ive lost computers, tv's, well pumps, electric g-door openers and the like) and this is the only system Ive found that minimizes damage. Of course, nothing can stop damage from a direct lightning hit however one can try to prevent the resulting damage. Also try visiting www.polyphaser.com and look up the essay on "Multiple Point Grounds".

I hope this helps.

I have the following Motorola units for sale.

8 Motorola Radius SP10's. Model numbers are P24RRC23F2BA. These are 2 watt one channel radios in the UHF freq. range. $75.00 each or $70.00 each for more than one. These include charger, antenna and are in good condition. They have been used but as stated are in good condition.

3 Motorola Visars Model number H05UCD6CB1AN. These are 800 mhz 3 watt units. Come with dual slot rapid chargers, batteries, antenna and are in good condition. $130.00 each

4 Motorola Maxtrac mobile radios. Model number D45MQA5GB5AK. These are 2 channel 35 watt radios. They operate in the 800 mhz range. Comes with power cord, microphone and mounting bracket. $50.00 each

5 Motorola Maxtrac mobile radios. Model number D35MWA5GB7AK. These are
10 channel 15 watt radios. They operate in the 800 mhz range. Comes
with power cord, microphone sorry no bracket $70.00 each.

Thanks

Hi all. I have two nice items on Ebay for sale. The Drake C-Line
auction ends Sunday, November 12 at about 6:20 PM California time, and
the Drake TR-7 ends on Sunday, November 12 at about 8:00 PM California
time.

C-Line:

Yaesu 767GX multi-mode transciever plus accessories for sale as package.

Transceiver is solid state, multi-mode, with all of Yaesu's bells and whistles: built in digital freq display, auto antenna tuner, digital swr meter, digital rf power meter, am and cw filters, built-in digital key pad for freq entry, and optional TSU-8 CTCSS tone board. Freq coverage is 1.5 to 29.99999MHz, and also has the three optional boards for 2mtrs, 70cm (440MHZ option) and 6mtrs, all multi mode. Comes with Operator's Manual and "Technical" (Service Manual) Supplement. Clean (non-smoking environment) and sharp looking.

The following accessories are included in the package for sale as a package deal, and will not be split out:

Yaesu matching external speaker and phone patch, SP-767P.
Heil Headset (dual muffs) with HC-4 element.
Heil Dual element (Switchable on mic) cardoid microphone, HM-10, with the HC-4 and HC-5 elements.
VibroPlex "Bug" (brass base, chrome and 'red' keyer)

All components are in excellent working and cosmetic condition. The Heil headset needs new muffs, however the old ones are still servicable and clean.

Asking $1225 (was 1325) plus shipping and insurance from 92083 (Southern CA).
Certified Check, USPS Money Order or PayPal accepted.

I have a Collins 32V-2 with original manual which I would like to trade for
a Hallicrafters SX-28A receiver. May also consider a Hallicrafters HT-32B
transmitter.

Hi,

I am looking for a ATV transceiver. Would like to find a PC Electronics
TC70-10 or Wyman Research TRIDON 2000 H. Might also be interested in the
lower powered units.

Thanks

Ross

DRAKE SW8 COMMUNICATIONS RECEIVER & in EXCELLENT + condition.
This radio is thought to be the best performing and sounding transportable shortwave receiver on the current market.
Its ergonomics are fantastic and the three (3) standard filters are all high quality.
This receiver comes with the manual and the AC adapter.
This great receiver.

The radio is a general coverage receiver that covers from 100 Khz to 30,000 Khz continually covering LW (longwave), MW (middle wave - AM) and SW (shortwave), 87 - 108 FM (STEREO through the headphone jack and 118 - 137

AIRCRAFT band. Modes are AM/USB/LSB/CW/FM/SYNCHRONOUS DETECTION standard. Digital PLL synthesized tuning via a keypad, up and down buttons or a large tuning knob. The AM selectivity filters are 2.3 / 4.0 / 6.0 and are selectable in all modes except FM which has it's own 12 khz selectivity filter.

TECHNICAL INFORMATION: Alphanumeric liquid crystal display provides for display of station frequency, Direct entry of mode and bandwidth selection via keypad, Selectable sideband, synchronous AM detector for improved quality of received AM signals, especially under severe fading conditions, Internal "D" cell batteries or AC wall transformer operation, High Dynamic Range allows for detection of weak signals in the presence of strong signals, Outstanding Audio Quality - the hallmark of a Drake receiver, FM Stereo with headphone operation, Extensive panel display of operating parameters including operating mode and band, Scanning capability by memory, 70 programmable channel memories stored in non-volatile memory, Dual time zone clocks, Dual programmable timers, Auto Backlight shutoff to conserve battery life, Low Battery Indicator and MADE IN THE USA .

Money Orders Please, No Personal Checks $495.95 + $14.95 Shipping/Insurance/Packing for domestic US shipment. All used electronics are sold as-is but guaranteed not to be DOA

Really, really clean Heathkit HW-9 for sale. Comes with original book. No mods. No WARC kit. Nicely done circuit work inside. Not a project. The only thing I would look into is the backlash on the dial. It seems a bit much. I've tried other HW-9 rigs and they seem to have less backlash. Probably an adjustment. Will look into it. Transmits and receives great. Too many rigs standing around here, doing nothing. Need

to make some room. $250 plus a few for UPS. MO preferred, check ok.
Jim W7LS

For Sale or Trade:
Yaesu FL7000, 1200 Watt input, 160-10, QSK, all mode, auto-tune
amplifier in very good condition. Will track bands with the Yaesu
transceivers, but will work fine with all other transceivers. Wired for
120V but can be wired for 220V.
$1295 plus shipping

-or -

Will consider trade on a Collins S-Line in CCA Excellent condition.
Thanks,
Randy   N�SAH

Kenwood TS-520S in good condition with copy of manual. $275 plus shipping from southern California.

This is a nice rig, about the most popular ever made. Puts out 100 Watts on 160-80-40-20-15-10 meters. Has SSB and CW.

If interested, leave email or call me between noon and midnight Pacific time at 818-894-2887.

73, Bob K6DDX

WOW!
I have a PM3 + AC5 tuner and the matching VSWR meter and matching
crystal calibrator.
I love that little radio.

Been thinking of replacing the RCA with  SMA

HAMFEST October 29, 2000 - Lindenhurst, LI

GREAT SOUTH BAY AMATEUR RADIO CLUB
ARRL APPROVED LONG ISLAND HAMFEST - October 29, 2000

LINDENHURST, LI - NY

On October 29, 2000 the Great South Bay Amateur Radio Club will again sponsor an indoor Hamfest-Computer Show. The location will be at the:

Knights of Columbus
400 South Broadway, Lindenhurst, NY.
This is an ARRL approved Hamfest.

There will be radio equipment, electronic components, computers and accessories, software, books, technical manuals, ARRL information, Amateur Radio License Exams, Door Prizes.

Advanced registration is $15.00 each table. Tables at the door are $20.00 each. Contact Walter Wenzel KA2RGI at 631 957-0218 for table reservations. NO TABLES WILL BE RESERVED WITHOUT PRIOR PAYMENT due to the space available.

General admission is $ 6.00. Wife's and children under 12 admitted with no charge.

VE - ARRL - 12:00 NOON at Babylon Town Hall, 200 E Sunrise Hwy, Lindenhurst. For exam candidates please remember to bring your original FCC Amateur Radio license (if licensed), any C.S.C.E. forms that are pending, plus a photocopy of each, pens, calculator, formal form of ID (preferably photo ID), and the examination fee, to the exam session. Current ARRL/VEC fee is $ 6.65, exact change is appreciated.

Talk-in will be via GSBARC Repeater on 146.685 -600 136.5 PL.

Food Service during the Hamfest will be provided by members of the Knights of Columbus Council.

Information is also available during the GSBARC 2 meter info net every Monday evening at 7:00 PM following the Newsline Report on the W2GSB repeater, 146.685 -600 136.5 PL required. You may also write to:

Great South Bay ARC
P.O. Box 1356
West Babylon, NY 11704

The Drake T-4XB has been sold.

1. Kenwood TS-830S (gold label) and VFO-240. Both are in very good condition cosmetically. The TS-830S has low output (about 40 watts); probably needs new finals. Other than this, it is in very good condition electrically. The VFO-240 is in very good condition electrically. The TS-830S has the optional 500-Hz CW filter. Includes original manual. $325 plus shipping from 78628.

2. Kenwood SM-220 with BS-8 panadaptor. Very good condition electically and cosmetically. Includes original manual. $275 plus shipping from 78628.

3. Drake R-4B and MS4 speaker. All in very good condition electically

and cosmetically, except that there is some hum in the R-4B (SSB mode only), probably needs filter caps. $160 plus shipping from 78628.

4. Drake AC4 power supply. Good condition. $50 plus shipping from 78628.

5. Kenwood R-599A receiver. Good condition cosmetically, very good condition electrically. $125 plus shipping from 78268.

6. MFJ 941D antenna tuner, 160-10 meters. Good condition cosmetically, very good condition electrically. $50 plus shipping from 78628.

7. AEA PK-900 multimode TNC. Very good condition; works fine, no dings or scratches. RTTY, Packet, PACTOR, WeFax, AMTOR, and CW. Includes original manual. $125 plus shipping from 78628.

I prefer to sell these items (I am trying to clear some space after all), but I might be open to interesting trades.

73,
Jeff Kilgore, KC1MK

Hi all. I have four nice items on Ebay for sale. The T4X-C auction end Saturday October 28 at about 7:00 PM California time, and the others end on Sunday, October 29 from about 6:15 to 6:45 PM California time.

Drake T4X-C: Excellent, L@@k
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=477911482

DX Engineering Speech Processor for Drake
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=478931596

Drake AC-4 Power Supply: Guaranteed!
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=478953755

Drake MS-4 Speaker: Excellent!
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=478969726

At the present time, the T4X-C is at $150, the DX-Eng is at $160, the AC-4 is at $50, and the MS-4 is at $50.

All items are fully satisfaction guaranteed.

Thanks for your interest and good luck with your bidding. You can email questions to NeilR@innermedia.com

Regards;
Neil

I am interested in buying an inexpensive 1750 meter transmitter and or beacon.Homebrew is ok and may be tube or solid state.
I am disabled with a neuro-muscular disease so it can not be a kit because I am unable to solder small components any longer.Price is also a concern due to fixed income so if you have anything you think I might be able to use please e-mail me with details and price.

** This is your chance to get some cheap radios! **

I have a couple of radios on E-bay:

Dx 390 SW radio:
http://cgi.ebay.aol.com/aw-cgi/eBayISAPI.dll?ViewItem&item=475085028

Includes Box, and printout of manaul from RS website. And a set or 2 of D cells.

If the bids on the DX-390 go over 45.00, I will pay the shipping.

DX 394 for parts.
http://cgi.ebay.aol.com/aw-cgi/eBayISAPI.dll?ViewItem&item=475070567

Radio powers up, it just does not get hardly any reception. In great shape for parts, all the jacks and switches are in good shape.

This is the guy to stay away from, HE LIES..
He has nothing to sell. he has some junk he is
auctioning on ebay and wanted some free ad
space so he SPAMM'D the NG by NOT putting
FA = For Auction in the subject line.

"if they lie in the subject line, they will lie about
the stuff on ebay that they want you to buy".

Just my opinion..

Bob

Yaesu 767GX multi-mode transciever plus accessories for sale as package.

Transceiver is solid state, multi-mode, with all of Yaesu's bells and whistles: built in digital freq display, auto antenna tuner, digital swr meter, digital rf power meter, am and cw filters, built-in digital key pad for freq entry, and optional TSU-8 CTCSS tone board. Freq coverage is 1.5 to 29.99999MHz, and also has the three optional boards for 2mtrs, 70cm (440MHZ option) and 6mtrs, all multi mode. Comes with Operator's Manual and "Technical" (Service Manual) Supplement. Clean (non-smoking environment) and sharp looking.

The following accessories are included in the package for sale as a package deal, and will not be split out:

Yaesu matching external speaker and phone patch, SP-767P.
Heil Headset (dual muffs) with HC-4 element.
Heil Dual element (Switchable on mic) cardoid microphone, HM-10, with the HC-4 and HC-5 elements.
VibroPlex "Bug" (brass base, chrome and 'red' keyer)

All components are in excellent working and cosmetic condition. The Heil headset needs new muffs, however the old ones are still servicable and clean.

Asking $1225 (was 1325) plus shipping and insurance from 92083 (Southern CA).
Certified Check, USPS Money Order or PayPal accepted.

I have 14 Maxtrac Mobile radios just taken out of service last week. Company went to Nextel. They are complete with mounting brackets, antenna, microphone and, power cords. They are 800 mhz radios with the digital read out. I am told that they are 32 channel 45 watt radios. Model number is D45MWA5GB7AK. In my opinion these radios are a 9 out of 10 all look good and taken care of.

$100.00 each plus shipping OBO.

I really get a kick out of people who want to throw their two cents in.
Maybe if you would mind your own business you wouldn't let things get to
you.  Obviously this bothers you.....and i'm glad.

Hello,

I have a Radio Shack Trunk Tracker which works on Motorola I, II, I/II, GE/Ericsson and Johnson/Uniden trunked systems.

It scans 500 channels and is a slick unit. I need money for school so it has to go. Low reserve so go ahead and bid.

I just discovered a whole box full of BC-610 coils, that I had forgotten, in my old storage shed.

I'd have to count them, but I think there are maybe 8 to 12. At least two are in the original sealed boxes. I know that there is some duplication as well.

Any one interested?
make an offer??

I need an MN-7000 box for my Cushcraft R-7000 vertical. Mine was damaged by a lightning strike. If you have one you'd like to part with, please let me know.

OR

I have a lightning-damaged R-7000 for sale. Only visible damage is to the MN-7000 box, everything else appears to be undamaged. Even the plastic parts are OK. Of course, I can't be sure the traps are OK without the MN-7000 but everything else looks just fine. I believe it was a near strike, not a direct hit, or the antenna would be history.

If you're interested in selling or buying, please let me know...

TKS & 73....   Mark   AA7TA   markem@primenet.com

I have tried the mod for the FT-100 and it will not work on the
FT-100D that I just received.  Does anyone out there have the
mod for the 100D.

Please respond direct to my email address:  cbe@mediaone.net

Thanks to all those who responded.
I ended up with a real pile of e-mail...Didn't think there was that much
interest in a "real" boat anchor <:-))

I'll try and get back to all within a day or two.

I'm in the midst of some serious tower work with only one other helping
me...He pulls the rope to the gin pole <:-))

I think the antennas start up tomorrow.

I have been searching high and low for an Icom IC551 6 meter FM add on Board.

I would entertain a complete radio in need of repairs *IF* it has the board installed.

I have a 3 week old Yaesu FT847. I took a lighting hit a month or so
back and bought this a replacement rig for a Icom 820. I have found
another 820 and decided to sale this rig. I paid $1500 and will take
1200, I am firm on this price. I will ship anywhere in the USA  for this
price

Thanks for reading my post. IF the HF doesn't bring my reserve, it will not be offered anytime soon.

If your the winning bidder, you will receive a beautiful General Coverage Rig, Mint cosmetically as well as electronically. Built-In Antenna Tuner, No Microphone. I do have a COPY of the owner's manual.

I try to personally check out each item I list for auction, and to describe each item completely & carefully. However, since most of these items are used electronic pieces all items are sold "AS-IS".

BUYER pays a flat rate of $30.00 for shipping insurance and handling.

This rig was checked out by a local LICENSED HAM TECHNICIAN in North Georgia, and found to be in EXCELLENT HEALTH (this was less than 3 months ago).

THIS HF RIG IS A RELISTING!! I LOWERED THE ORIGINAL RESERVE PRICE. With the RESERVE lowered to it's current price I am now cutting the rig over $500.00 from what I paid for the rig less than 3 years ago!

ADDED BONUS!! To the HIGH BIDDER & (who meets my reserve price)I am giving FREE a cable that connects the RIG to a IBM Compatible PC. You can "Control" The IC-737 via your computer!! This WAS NOT Included in the orginal offering.

To Bid On This Item, Please Click Here!
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=454010399

Please contact me for any further information ngwd@flash.net

Happy Bidding Good Luck! 73 Daniel KC4OXP

You're only losing $500 in less than 3 years and this bothers you? You're lucky that you didn't buy an Icom 746/756...

For Sale:  HAL DXP-38 TNC (Terminal Node Controller).  Does
RTTY, PACTOR, AMTOR and CLOVER.  In perfect condition, with
manuals and HAL factory software for Windows and DOS.

See review in April 2000 QST or go to HAL website for pictures
and information:

http://www.halcomm.com

In the QST review, the DXP-38 beat out all the competition for
copying signals under difficult conditions.  This is a top of
the line TNC, guaranteed to be in perfect working condition
when received.

Sold new in February 2000 for $395, sell now for $295.
Price includes shipping and insurance to US address.

I have a kenwood ts-430s HF (160-10M) with 10M FM board installed. To see photo's of this rig direct your web browsers to:
http://www.timhavens.com/n1rz/rigs/for_sale.htm

Asking $325.00 +shipping.

Includes MC-50 Desk Mike also shown in the pictures above, as well as the manual.

I'm trying to sell this to afford an upgrade to an FT-847 in time for P3D ;-)

de N1RZ (http://www.timhavens.com/n1rz/) or (http://www.qrz.com/callsign.html?callsign=n1rz)

I have a Kenwood UHF TK-330 with 10 ch.,keypad,and the alpha numberic display, with one battery. It's missing the ant. This radio works and is in fair condition. Programed on the amateur band. I'm looking to trade it for a Motorola VHF MT1000 16 channel with the keypad. No battery neccessary, that can be programed for the amateur 2m band.
I may be contacted via e-mail(n2icv@home.com) or 1-877-527-1765.

For Sale:

Kenwood TM-733A dual band mobile. Just back from AAVID for alignment/repair (had a bad mic cable as it turned out). Very good condition, a few scratchs on the top cover. $325.00

Larsen 2/70 NMO mount antenna... coil is brand new, whip is used but in perfect condition. $30.00

Larsen 2/70 Duplexer, used but in perfect condition. $30.00

All three above for $375.00 shipped.

Kenwood TR-751A 2M all mode... cosmetically an 8 or 9, works fine. No mobile bracket. mic works but Up/Dn and DMFT tones on mic don't, mic needs to be repaired or replaced. $275.00

Perth Outrunner 10-160M mobile antenna... I don't believe this has ever been used... $250.00

Wanted:

10-80M vertical in "GOOD" condition... will swap towards any of the above.

Yaesu 767GX multi-mode transciever plus accessories for sale as package.

Transceiver is solid state, multi-mode, with all of Yaesu's bells and whistles: built in digital freq display, auto antenna tuner, digital swr meter, digital rf power meter, am and cw filters, built-in digital key pad for freq entry, and optional TSU-8 CTCSS tone board. Freq coverage is 1.5 to 29.99999MHz, and also has the three optional boards for 2mtrs, 70cm (440MHZ option) and 6mtrs, all multi mode. Comes with Operator's Manual and "Technical" (Service Manual) Supplement. Clean (non-smoking environment) and sharp looking.

The following accessories are included in the package for sale as a package deal, and will not be split out:

Yaesu matching external speaker and phone patch, SP-767P.
Heil Headset (dual muffs) with HC-4 element.
Heil Dual element (Switchable on mic) cardoid microphone, HM-10, with the HC-4 and HC-5 elements.
VibroPlex "Bug" (brass base, chrome and 'red' keyer)

All components are in excellent working and cosmetic condition. The Heil headset needs new muffs, however the old ones are still servicable and clean.

Asking $1325 plus shipping and insurance from 92083 (Southern CA).

Radio Amateur Callbook Winter 1962-63

Classic FLYING HORSE cover. 568 pages in good condition.
All K & W calls. On the rear cover is an RCA ad for
"Beam Power" Tubes. Vintage ads in the 32 page glossy paper
front section include Collins, Allied Radio, Mosley, Henry
Radio, Hallicrafters, etc. ARRL countries list, Intl. radio
amateur prefixes, Intl. "Q" signals, great circle bearings,
time charts, etc. A little edge wear but overall real nice
clean condition.

HAMFEST October 29, 2000 - Lindenhurst, LI

GREAT SOUTH BAY AMATEUR RADIO CLUB
ARRL APPROVED LONG ISLAND HAMFEST - October 29, 2000

LINDENHURST, LI - NY

On October 29, 2000 the Great South Bay Amateur Radio Club will again sponsor an indoor Hamfest-Computer Show. The location will be at the:

Knights of Columbus
400 South Broadway, Lindenhurst, NY.
This is an ARRL approved Hamfest.

There will be radio equipment, electronic components, computers and accessories, software, books, technical manuals, ARRL information, Amateur Radio

License Exams, Door Prizes.

Advanced registration is $15.00 each table. Tables at the door are $20.00 each. Contact Walter Wenzel KA2RGI at 631 957-0218 for table reservations. NO TABLES WILL BE RESERVED WITHOUT PRIOR PAYMENT due to the space available.

General admission is $ 6.00. Wife's and children under 12 admitted with no charge.

VE - ARRL - 12:00 NOON at Babylon Town Hall, 200 E Sunrise Hwy, Lindenhurst. For exam candidates please remember to bring your original FCC Amateur Radio license (if licensed), any C.S.C.E. forms that are pending, plus a photocopy of each, pens, calculator, formal form of ID (preferably photo ID), and the examination fee, to the exam session. Current ARRL/VEC fee is $ 6.65, exact change is appreciated.

Talk-in will be via GSBARC Repeater on 146.685 -600 136.5 PL.

Food Service during the Hamfest will be provided by members of the Knights of Columbus Council.

Information is also available during the GSBARC 2 meter info net every Monday evening at 7:00 PM following the Newsline Report on the W2GSB repeater, 146.685 -600 136.5 PL required. You may also write to:

Great South Bay ARC
P.O. Box 1356
West Babylon, NY 11704

E-mail GSBARC info@gsbarc.org or visit GSBARC online at http://www.gsbarc.org/hamfest.htm

Check out - The DX Page - which has all the North American telnet DX
Clusters available as clickable links. Try them all out and find the
cluster(s) you like before setting up your logging or DX Telnet program to
access them.

Check out - View AB7SL Logbook - a daily updated logbook (even looks like
a logbook) that displays all my DX contacts for the current month including
a running DXCC count.   Got a new one just today on 12M !

See you all next time.... 73

Yaesu 767GX multi-mode transciever plus accessories for sale as package.

Transceiver is solid state, multi-mode, with all of Yaesu's bells and whistles: built in digital freq display, auto antenna tuner, digital swr meter, digital rf power meter, am and cw filters, built-in digital key pad for freq entry, and optional TSU-8 CTCSS tone board. Freq coverage is 1.5 to 29.99999MHz, and also has the three optional boards for 2mtrs, 70cm (440MHZ option) and 6mtrs, all multi mode. Comes with Operator's Manual and "Technical" (Service Manual) Supplement. Clean (non-smoking environment) and sharp looking.

The following accessories are included in the package for sale as a package deal, and will not be split out:

Yaesu matching external speaker and phone patch, SP-767P.
Heil Headset (dual muffs) with HC-4 element.
Heil Dual element (Switchable on mic) cardoid microphone, HM-10, with the HC-4 and HC-5 elements.
VibroPlex "Bug" (brass base, chrome and 'red' keyer)

All components are in excellent working and cosmetic condition. The Heil headset needs new muffs, however the old ones are still servicable and clean.

Asking $1325 plus shipping and insurance from 92083 (Southern CA). PayPal accepted.

Hi Guys,
I am in need of a set of Mastr II accessories (control head, mic, cables for
a GE Mastr II mobile, spkr would be nice but not necessary). Please state
price and condition. Thanks in advance

The Drake T-4XB has been sold.

I need to clear some space, so I have the following items for sale:

1. Kenwood TS-830S (gold label) and VFO-240. Both are in very good condition cosmetically. The TS-830S has low output (about 40 watts); probably needs new finals. Other than this, it is in very good condition electrically. The VFO-240 is in very good condition electrically. The TS-830S has the optional 500-Hz CW filter. Includes original manual. $400 plus shipping from 78628.

2. Kenwood SM-220 with BS-8 panadaptor. Very good condition electically and cosmetically. Includes original manual. $325 plus shipping from

78628.

3. Drake R-4B and MS4 speaker. All in very good condition electically and cosmetically, except that there is some hum in the R-4B (SSB mode only), probably needs filter caps. $190 plus shipping from 78628.

4. Drake AC4 power supply. Good condition. $60 plus shipping from 78628.

5. Kenwood R-599A receiver. Good condition cosmetically, very good condition electrically. $150 plus shipping from 78268.

6. MFJ 941D antenna tuner, 160-10 meters. Good condition cosmetically, very good condition electrically. $60 plus shipping from 78628.

I prefer to sell these items (I am trying to clear some space after all), but I might be open to interesting trades.

73,
Jeff Kilgore, KC1MK

Hello all, recently I bought an Icom IC-901A from someone on Ebay and it was supposed to be working perfectly, it's not. A number of the buttons on the right hand side of the control head (Call, Band, Mhz etc.) are broken (the little plastic parts on the back of the switches are all smashed) so I'm looking for a defective control head (defective pc board or display) that I can get some plastic switch pieces from. If you have a control head that all the switches work on (say the LCD is bad or the PC board is broken, let me know how much you want for it.

Thanks, Jennifer

I have a Kenwood UHF TK-330 10 ch with keypad,and the alpha numberic
display, with one battery. It's missing the ant. This radio works and is
in fair condition. Programed on the amateur band. I'm looking to trade
it for a Motorola VHF MT1000 16 channel with the keypad. No battery
neccessary, that can be programed for the amateur 2m band.
I may be contacted via e-mail( n2icv@home.com) or 1-877-527-1765.

Good Day Gentlemen,
I am in search of a HP 8640B or HP 8640M internal freq counter can be non functional as long as the signal generator is functional.

Also looking for a HP 8654, needs to be functional

Please state price and condition.

Regards
Frank - K9IC

I have the H.F. module for the Yaesu FT-726R that is surplus to my needs. This module allows one to work the Russian satellites (RS-13/15) or the 15, 12 and 10 meter bands. Works perfectly! Supposed to be 10 watts but, in my rig, I measure a minimum of 10 and up to 15 watts output on the 10 meter band. This unit is rare as owners of FT-726Rs can attest: the module is not listed in the owners operating manual (but it was available!). Genuine Yaesu with cables and mounting hardware. Offers? ns1z@arrl.net

Forthcoming family addition demands I get rid of some equipment.
Reluctantly, I offer the following:

Excellent condition IC-735 with 500 Hz CW filter and SM-6 desk mic.
Asking $550, must sell, reasonable offers considered, unreasonable
offers laughed at.

Quicker service to email me at my callsign at midsouth.rr.com or my
callsignat arrl.net

Thanks and 73 de Marty, N5NW

rec.radio.amateur.digital.misc:712 rec.radio.swap:7448

Icom IC-737 Mint Condition.

If your the winning bidder, you will receive a beautiful General Coverage Rig, Mint cosmetically as well as electronically. Built-In Antenna Tuner, No Microphone. I do have a COPY of the owner's manual.

I try to personally check out each item I list for auction, and to describe each item completely & carefully. However, since most of these items are used electronic pieces all items are sold "AS-IS".

BUYER pays a flat rate of $30.00 for shipping insurance and handling.

This rig was checked out by a local LICENSED HAM TECHNICIAN in North Georgia, and found to be in EXCELLENT HEALTH (this was less than 3 months ago).

THIS HF RIG IS A RELISTING!! I LOWERED THE ORIGINAL RESERVE PRICE. With the RESERVE lowered to it's current price I am now cutting the rig over $500.00 from what I paid for the rig less than 3 years ago!

ADDED BONUS!! To the HIGH BIDDER & (who meets my reserve price)I am giving FREE a cable that connects the RIG to a IBM Compatible PC. You can "Control" The IC-737 via your computer!! This WAS NOT Included in the orginal offering.

To Bid On This Item, Please Click Here!
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=454010399

Please contact me for any further information ngwd@flash.net

Happy Bidding Good Luck! 73 Daniel KC4OXP

Hello Keith,
Many have taken it upon themselves and totally outside of my control to perpetuate some of the threads that are related to www.ab7sl.com . Occasionally some of them merit a response from me. More often though I let them go with no response. I believe if you examine the threads you'll see this is the case.

Thanks for posting.   73 / DX

Greetings to all,

As of October 5 ,2000   www.ab7sl.com   will have been on the web for a full year. This is a real milestone in the site's existence. www.ab7sl.com started out this time last year with 0 (zero) visitors and now has almost 16,500 visitors on the counter. The average visitor count per day is now at 55 visitors daily . There are nearly 100 entries in the guestbook now and several dozen user-added links on the Free-for-all-Links Page.

Many features have been added since the basic site went up last year. One of the most popular is The DX Page with the active and clickable DX Cluster Telnet links. I have received a lot of positive feedback on that. Another recent feature is the addition of the AB7SL Monthly DX Online Logbook. This page receives several updates - each day - depending on my activity and band conditions. It lists chronologically all the DX stations I have worked for the current month.

The most recently added page is the 3D-Art Gallery which showcases 3D art I have created with Bryce 3D graphics application. Besides the thumbnail for each image there are two popular resolutions available for download that can be used as desktop wallpaper.

www.ab7sl.com has grown tremendously over it's first year and I look forward to sustained and increased growth over the years to come.   Thank you all for making www.ab7sl.com a great success for me and all it's users.

73 / DX

This, besides being meaningless, doesn't answer the question put forth to you.
What part of the statement do you disagree with?
"Are YOU the judge and jury?

 Do YOU have enforcement power to enforce Federal Rule and Regulations
 granted by Congress?"

These are the questions being asked. An inability or unwillingness to answer would seem to me to be an admission of guilt.

I have 5 of the type M68729 class C (i.e. FM) 30 Watts out average, 40 Watts max. These will replace older M57774 module just fine. The input drive is 300 mW for 30 watts out. I am asking $50.00 including shipping to conus for each of them them. RF parts wants around $70.00 for the same.
I will sell them all for $200, this is the equivalent of getting one for free.

These are brand new never been used and still have the one inch leads on them. I have 4 of them in a sealed rack and one loose.

Thank You,

Bryan Fields, KB9MCI

Icom IC-737 Mint Condition.

This rig was checked out by a local LICENSED HAM TECHNICIAN in North Georgia, and found to be in EXCELLENT HEALTH (this was less than 3 months ago).

THIS HF RIG IS A RELISTING!! I LOWERED THE ORIGINAL RESERVE PRICE. With the RESERVE lowered to it's current price I am now cutting the rig over $500.00 from what I paid for the rig less than 3 years ago!

ADDED BONUS!! To the HIGH BIDDER & (who meets my reserve price)I am giving FREE a cable that connects the RIG to a IBM Compatible PC. You can "Control" The IC-737 via your computer!! This WAS NOT Included in the original offering!

If your the winning bidder, you will receive a beautiful General Coverage Rig, Mint cosmetically as well as electronically. Built-In Antenna Tuner, No Microphone. I do have a COPY of the owner's manual.

I try to personally check out each item I list for auction, and to describe each item completely & carefully. However, since most of these items are used electronic pieces all items are sold "as is". BUYER pays a flat rate of $30.00 for shipping insurance and handling.

To Bid On This ICOM IC-737 please click here!
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=454010399

. Please contact me for any further information, Contact ngwd@flash.net
Happy Bidding Good Luck! 73 Daniel KC4OXP

Dean, I have one that is in very very good condition, I'm not what you
would consider mint. I have the manual but no box and the HF coupler.

Scott,

Just wondering if you really need a weekly reminder to visit it though?
Most browsers have bookmarks or favourites which are an excellent feature!

Hamish

Hi Hamish...

You are right, I don't need a weekly reminder about the site as I have it
bookmarked. However, there are new people subscribing to this and other newsgroups
on a daily basis who may have never seen one of the posts before. I suspect that
is
the precise reason why the posts show up frequently. I am always on the lookout
for
good ham sites, and there are many new ones appearing every day. This is one
resource for finding out about new sites or existing sites that I wasn't aware of.
Therefore the weekly posts (or whatever frequency they are, I don't count them)
don't bother me. My cursor keys work well, so I can choose to scroll right on by
any post I don't want to bother with. Included in the posts that usually get this
treatment are the VERY frequent childish exchanges of insults and name-calling
from
people who obviously only like to practice their typing skills. This is a ham dx
newsgroup...If someone has a site that will point me to a good new source of
information about ham/dx, then I look forward to hearing about them. I don't mind
repitition once a week... I DO mind 10 posts daily about how once a week is too
much though.

73 and gd DX from Canada

Scott, VE1OP

Check it out here......no longer with any reserve....
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=449972468

MFJ-1278B Multi-Mode Data Controller

10 Modes ! with original box and books.

AMTOR, RTTY, ASCII, CW, 16 GRAYLEVEL FAX, NAVTEX,

COLOR SSTV, CONTEST MEMORY KEYER, PACKET, and

PACTOR with 32k Enhanced Mailbox. Also has Turbo with

2400 Modem.

Included is an RS-232 cable for connention to your PC's serial
port and a "radio port cable" for connection to your radio, the
manual has lots of information on hooking the 1278B to various radios.
The A.C. power cube (MFJ-1315) included, used only for a short
while on VHF packet, it's about 5 years old and spent most
of that time in storage, unit still looks like new.

Will warrenty (10 days) that unit is not DOA.

Bob,

FYI, the Newsgroup Police are still taking applications, and you
would make a fine officer.

Please submit yours today.

Dan

I'm sorry to all those that I offended by posting. I should have read and learned more about the newsgroup before I posted.

I have been posting messages here for the past 6 years, and suppose that it never hit me what FA was all about. Now I know. Again the mistake was mine and mine alone, It will Never happen again.

MFJ-1270C Super TAPR TNC clone has a world wide reputation as the most reliable packet TNC in the world! Thousands used as digipeaters, nodes, BBS and in all kinds of commercial applications working 24 hours a day -- many work for years without a single failure . . . Features ROM expands to 512K External accessible reset Built-in monitor ampifier Front panel ON/OFF switch Enhanced DCD circuit for HF Supports 19,200 baud terminals 64K RAM expands to 128K or 512K

This TNC was purchased NEW Christmas 1999 and has only been used 3 times for less than 1 hour total!! As with all electronic equipment, this item is sold as-is. I have the box, power supply, and manual. If you would like to see a picture, please visit my website at http://www.flash.net/~ngwd Please email with any questions before bidding. If you would like to bid on the item, please go to http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=441545668 . Buyer pays for shipping and insurance. Happy Bidding, Good Luck!!!

73 Daniel KC4OXP

No harm done Daniel. It would have been nice if the net cops just e-mailed you the citation but they need to make a public grandstand to earn their buck! You did no harm that I can see. Good luck with the FA.

Glenn

Good evening all. I am in need of four VHF Alphanumeric pagers in the
160 mhz range. My exact frequency is 163.250.   They can be new, used,
Motorola, or another brand. We will be using them for a local automatic
security system. Can anybody help or point me in the direction of one
who might?   I have heard of a Mr. Radio somewhere in the midwest but
have not been able to locate him.   Please respond via email. Thanks and
73's   Don Smith   KB6GQA

Charles, do you realise how many personal ham radio related web sites there are? There are many hundreds of them on the QSL.NET server alone. Have you thought what would happen if every ham with a web page posted an advertisement for it in half a dozen of the major ham radio newsgroups?

I certainly hope this nonsense does not become a trend. I would certainly hate to look through a few hundred web page advertisements everytime I opened this newsgroup.

You'll have to ignore him, or complain to his ISP.  He's crazy, this
is all the life he has, and since that implies running roughshod over
manners and custom, that's what he's going to do.

It sounds like you've had some experience with guy in the past. I don't know him, so I didn't want to make a major issue out this. Instead, I was hoping an appeal for restraint would be enough (if not for him, then for the others reading this thread - who might get the idea to copy him by posting a message about their own web page).

I just hit the delete key now anytime I see his call in the header information. He posts this crap every ten days in hopes of the uninformed clicking on his web site. Apparently he makes a buck every time someone makes the mistake. He just doesn't get it. There just aren't that many new subscribers to these news groups in any given month, and once you've seen his page, well, you've seen it. You don't want to book mark it, so he is essentially just preaching to the choir and taking up space and time in the process. If he would just once post a serious question on some topic, or answer someone's question with a studied answer I might take him seriously, but I just know that he is vulgar and shallow.

Questions, please email me directly at ngwd@flash.net

This information is taken directly off of the ICOM IC-T2H brochure.

General
Frequency Coverage:
Tx: 144-148 MHz; Rx: 136-174* MHz (*144 -148 MHz guaranteed)
Mode: FM
Number of memory channels: 43 (40 regular, 2 scan edges and 1 call)
Frequency stability: � 10 ppm (0�C to +50�C)
Operating Temperature Range: -10�C to +60�C; +14�F to +140�F.
Power supply requirement (negative ground): 9.6 V DC (supplied Ni-Cd cells)
Current Drain (at 9.6 V DC):
Transmit (6.0 W): 1.6 A typical; Transmit (1.0 W): 0.7 A typical
Receive (power saved): 25 mA (typ.); (standby): 80 mA (typ.); (rated audio): 210 mA (typ.)
Antenna connector: BNC (50)
Dimensions (mm/in): 58(W) x 140.5(H) x 32(D) mm; 2.32(W) x 5.5(H) x 1.32(D)

in
Weight (approx, w/antenna and battery): 420 g (14.8 oz.)

Transmitter

Output power (at 9.6 V DC): 6 W High, 1 W Low (typical)
Modulation: Variable reactance frequency modulation
Max. frequency deviation: �5.0 kHz
Spurious emissions: Less than -60 dB
External mic connector: 3-conductor, 2.5 (d) mm (1/10")/2k

Receiver

Receiver system: Double conversion superheterodyne
Intermediate frequencies:
1st: 30.85 MHz
2nd: 450 kHz
Sensitivity (typ. for 12 db SINAD): 0.14 �V
Squelch sensitivity (typ. at threshold): 0.16 �V
Selectivity: More than 15 kHz/-9 dB, Less than 30 kHz/-60 dB
Spurious and image rejection: 60 dB (typical) (more than -45 dB: half image point, except 2nd image)
Audio output power (at 9.6 V DC): 500 mW (typical with an 8 load)
External speaker connector: 3-conductor, 3.5 (d) mm (1/8")/8

IC-T2H Supplied Accessories

Battery case with Ni-Cd cells
Wall charger
Antenna
Belt clip

IC-T2H Options

Battery Packs and Case:
BP-194 R6 (AA) batteries x 8 (with Ni-Cd cells, 6.0 W/3.7 h). Ni-Cd cells in BP-194 must be purchased separately if battery pack is purchased separately from IC-T2H.
BP-195 9.6 V, 700 mAh (6.0 W/3.7 h)
BP-196 9.6 V, 1050 mAh (6.0 W/5.5 h)
All approx. output powers and operating times - Tx (high): Rx: Standby = 1:1:8
Desktop Chargers:

BC-119 + AD-81 Rapidly charges battery packs BP-195 or BP-196. Installed Ni-Cd cells cannot be charged via supplied BP-194 BATTERY CASE. Both AC and DC can be used to power the charger. The AD-81 must be purchased separately.
Speaker-Microphones:

HM-46 SPEAKER-MICROPHONE: Compact and lightweight. Equipped with an earphone jack.
HM-54 SPEAKER-MICROPHONE: Durable, full-sized.
HM-75A REMOTE CONTROL MICROPHONE: Allows you to remotely select memory

channels, operating frequency, etc. Simple remote and normal remote are selectable.
Carrying Case:

LC-145 CARRYING CASE: Useable with any battery pack.

Ah, I didn't know he was a routine newsgroup spammer. I'm especially glad I didn't visit his web site now. Of course, I don't tend to visit many personal web sites unless I know the person, or I'm having a conversation with that person in a newsgroup.

I recently aquired a Hallicrafter S46A speaker.  I have two questions:
1) What receivers did the speaker normally go with?
2)  what is the value of the speaker today?
Any information would be greatly appreciated.
Ron, AA5NI.......

Look on e-Bay. They normally have one or two at any given time. Prices vary.

Nobody could be so dumb as not to realize that you have advertised your
web page about a hundred times in the past two weeks and you chastise
Charles for advertising his one time? Your one line per post has
taken up twenty times as much bandwidth as his single post.

Wow! did you every get a bunch of p.o.'s reply's. I agree with you. We can
all scan ebay if we want to see what is for auction. This is for those who
want to sell outright. I like having the choice to bid or buy outright!

Thanks for you comment!

Uh, you probalby mean R46A, not S46A, right? According to the Hallicrafters
collector guide, it was used with the SX-62A, SX-100, SX-101, SX-101A, and
others

>2) what is the value of the speaker today?

Valued at $30-$50 in the book (your mileage may vary, of course).

Your explanation is flawed though. It explains that lots of ads and search engine entries generates lots of web traffic, but doesn't explain why lots of web traffic is important to you. Let people find you if you have information they need! No need to advertise.

Charles,

The search engine will lead them to you when they have
the information you need. By all means keep hitting the search engines.
Otherwise, why do you they to find you?

You have no rights to poke fun at someone that posts his website in the NG.
In fact,  I'm gonna take Charle's stance and post my URL in all the Ham
radio newsgroups every 7 days or so.

Heil Pro 5 Boom Micrphone Headset Purchase this Boom Microphone for my
ICOM - 737 less than 2 months ago, and used less than 20 minuites. Wife
purchased it for me, however I wanted the Goldline, so this microphone is up
for bidding. This has the BLUE HC-5 Element. I try to personally check out
each item I list for auction, and to describe each item completely &
carefully. However, since most of these items are used electronic pieces all
items are sold "as is". Microphone DOES NOT INCLUDE THE ICOM ADAPTER. Please
contact me for any further information at ngwd@flash.net  To Bid On This
Item, Please click here
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=443457561  Happy
Bidding Good Luck!

Isn't the internet amazing? A guy posts his web site address once, and you guys republished it 10
times while complaining about it! Talk about free advertising! By the way,
Charles, nice site!

Mr Davies:

You stupid Dipswitch. Read the the News Group titles that this
SPAM was crossposted to.

rec.radio.amateur.dx,rec.radio.amateur.equipment, rec.radio.amateur.misc,rec.radio.amateur.policy,rec.radio.amateur.swap

Now please tell me what this minusha has to do with these News Groups.

It is just plain SPAM from an IDIOT with another IDIOT defending his
stupid childish actions. where would we be if every IDIOT posted his
Web Page in this News Group

Get a LIFE.. SFB.

Just my opinion..

Bob

Yes it probably does and almost everybody does it.. With Most people
it is a URL at the bottom of the showing where to look if they want..

It is NOT as in AB7SL's case where the whole dam message was SPAM.
Their was NO body to the message. ALL WEBPAGE SPAM.

Just my opinion..

Bob

For Sale: HAL DXP-38 TNC (Terminal Node Controller). Does
RTTY, PACTOR, AMTOR and CLOVER. In perfect condition, with
manuals and HAL factory software for Windows and DOS.

See review in April 2000 QST or go to HAL website for pictures
and information:

http://www.halcomm.com

In the QST review, the DXP-38 beat out all the competition for
copying signals under difficult conditions. This is a top of
the line TNC, guaranteed to be in perfect working condition
when received.

Sold new in February 2000 for $395, sell now for $295 firm.
Price includes shipping and insurance to US address.

I do not have a problem with this, 40 or so characters at the end of
the message. not as much bandwith as a PDP signature.
I do not have a webpage myself, but I find no problems with it...
OR putting it in a line at the bottom of the message.

Bob

IC-735 with 500 Hz CW filter and including Icom SM-6 desk mic (mic is
$100 new). Excellent condition -- plastic door intact! Manual included.
Very clean, some wear on top, but no scratches. Asking $550 plus

shipping. Radio alone (no microphone) for $500 plus shipping.

Please email to my callsign at arrl.net or my callsign at
midsouth.rr.com if interested.

Mine literally caught fire! was gabbing on 2 meters when the car filled up with smoke. Yaesu made good on it. It seems that a voltage regulator shorted, placing full 12 volts on the entire radio. I was lucky I didn't lose the car as the self tapping screws that held the radio to the plastic ducting under the dash melted out of the dash and it fell on the floor. Yaesu was VERY VERY responsible about this. Just DO NOT under any case put this radio under the seat or in a glove box or anywhere else confined.....

The plastic end pieces melted, the external speaker plug melted,the VHF final was burned beyond recognition. The plastic piece that holds the power cable in the case melted, the heavy black and red cables became bare. The factory fuse FINALLY blew by the time I got pulled off the road and over to the passenger side of the vehicle.Had to get a rag to remove the chassis from the car as it was melting the floormat (Nylon).....Kirk

I have 5 of the type M68729 class C (i.e. FM) 30 Watts out average, 40 Watts max. These will replace older M57774 module just fine. The input drive is 300 mW for 30 watts out. I am asking $50.00 including shipping to conus for each of them them. RF parts wants around $70.00 for the same.
I will sell them all for $200, this is the equivalent of getting one for free.

These are brand new never been used and still have the one inch leads on them. I have 4 of them in a sealed rack and one loose.

Thank You,

Bryan Fields, KB9MCI

For Sale:

Perth "OutRunner" 10M-160M mobile antenna, I don't think it's ever been used. $275.00

Kenwood TM-733A dual band mobile, with remote mounting bracket. Very good condition, just back from AVVID for repair/alignment (turned out there was a problem in the mic cord and not the radio). $325.00

Kenwood TR-751A 2M All mode. Good condition. Up/Dn buttons on mic do not work (suspect cable again). $300.

Peter W. Dahl Plate xformer, 1250V @ 1.5A CCS - This is a large xformer and would really prefer someone within a couple of hours driving from Burlington, VT. $225.

LDG DWM-4 Digital Wattmeter with HF/QRP and VHF/UHF sensors. $90.00

MFJ-101 24hr Digital Clock. $20.00

Ten-Tec 1208 2M to 6M Transverter (needs final alignment, I don't have a 6M source). $70.00

Prices do not include shipping. E-mail direct if interested.

I need a copy of the manual for a Force 12 EF 320X240S I just picked up in a used tower, and got the Force 12 as part of the buy. Anyone who has this antenna care to zerox a copy of the manual for me? I will send a self addressed stamped envelope. I also would consider selling the antenna, if anyone is interested.

IC-735 with 500 Hz CW filter and including Icom SM-6 desk mic (mic is about $100 value). Excellent condition -- plastic door intact. Manual included. Very clean, some wear on top, but no scratches. Asking $550 plus shipping. Radio alone (no microphone) for $500 plus shipping.

Will consider trade for color laptop, Pentium 233 or better, CD-ROM, 1.0GB or better hard disk, TFT color screen, 64 meg memory, modem, PCMCIA slot, USB ports.

email to my callsign at arrl.net or my callsign at midsouth.rr.com for prompt response. All reasonable offers considered.

I am deeply disappointed to warn you not to deal with Warren Brooks W4WWB.

He advertised a radio on ebay that was complete, but needed some work. What arrived was a parts radio - Pieces were missing and it will not power up. After he ignored my emails I contacted him by phone and in his best good ole boy drawl he told me " you bought it, you own it". He would not allow me to return it for a refund. I know that ebay is a take your own risk venture - but deliberately lying about the condition of the radio to sell it is dishonest. What a disgrace to the ham community. Don't be suckered by this man like I was.

Depending on what course you followed:

Did you contact him ahead of time (prior to bidding, or at least prior to close of the bidding) to confirm the description.
If the radio was not as represented you can contact e-bay. They do have recourse for things misrepresented, but they also expect you to have done some checking ahead of time as well.

I have a new Radio Shack model # 20-280 amplified shortwave antenna with
the matching Radio Shack power adapter.  This can be run with the 9V
battery or with the power adapter.  $40.00 for both plus shipping.

What was the ebay item number?

(cuting back on the newsgroups, no need to post to most of them)

Heathkit HW-16 CW Transceiver

I purchased this rig from a ham that was getting out of the hobby. I have NEVER checked the rig out myself. Item is sold AS-IS. Also included is the original owners manual. Physical condition of the rig is good. Buyer to pay all shipping and insurance. Please email me with any questions before bidding. Pictures are available at http://home.flash.net/~ngwd/ebay.htm To Bid on this item please go to
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=440560855

Icom IC-T2H 2 Meter HT

Icom IC-T2H 2 Meter HT. Excellent Condition both cosmetically and electronically! I try to personally check out each item I list for auction, and to describe each item completely & carefully. However, since most of these items are used electronic pieces all items are sold "as is". Please contact me for any further information. You may look at items that I have for auction at my website http://home.flash.net/~ngwd/ebay.htm To Bid on this item please go to
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=440862967

Bob,

The next post please put AB = Auction Bitch. That way those of us who don't read Auction Bitches in this NG won't waste our time on your message.

The NGs title is "ham items for sale" NOT Bitch about Auctions.

Just my opinion. :-)

Glenn

You are welcom to your opinion.. I can assure you it will
have NO effect on my posting.. wait till you see how I
handle intentional deceptive EBAY Spammers..   :)

Just My opinion..

Bob

I have the following for sale or trade, best offers on sales. I am in need
of Motorola GP68 VHF w/ keypad and VR-500 unblocked...
I have 2 Panasonic CCD cameras for sale.

1 - Panasonic WV-CD22, serial # 98B03403 1/2" CCD Black & White Camera,
muliti output plus 0-99 number overlay on picture output (set inside
camera). Rear of camera has "VD", HD/VS, & "video" output which outputs
great picture when c-mount lens attached. Runs on 12VDC power supply
(included) Photo upon request
http://home.cfl.rr.com/mcguyver/wvcd22.JPG

$80 plus shipping

1 - Panasonic WV-BP105 1/3" black & White CCD camera with Panasonic
WV-LA4R5C3 Auto Iris lens (4.5mm) and AC power adapter (unit runs on 24AC)
Small piece of autoiris lens fron missing which does not effect image
quality, Photo upon request - $125

http://home.cfl.rr.com/mcguyver/panaccd1.JPG
http://home.cfl.rr.com/mcguyver/panaccd.JPG

I have a great condition Compac LTE Elite 4/40CX (486dx4/40) with 16MB mem,
340MB HD, 2 PCMCIA slots,COMPAQ 192 19,200 Data/Fax PCMCIA modem with

instructions & Cable (plus nylon case), good battery, AC cord, compact
case, external as
well as integral mouse. 1.44MB floppy, printer port, serial port (DB9). Unit
is in pristine shape, NO pixel damage on nice color TFT screen. Unit now
runs w3.1 with delrina fax pro. TCP/IP drivers, compaq drivers, MS Office
4.2, 8.4" color tft screen, lotus software. $175 obo plus shipping

http://home.cfl.rr.com/mcguyver/laptop1.JPG
http://home.cfl.rr.com/mcguyver/laptop2.JPG

Seagate 8.6GB Hard Drive, used but good, Model # ST38421A - $75 obo / trade
http://home.cfl.rr.com/mcguyver/st38421a.JPG

,rec.radio.amateur.equipment

I have 1 of the type M68729 class C (i.e. FM) 30 Watts out average, 40 Watts max. These will replace older M57774 modual just fine. The input drive is 300 mW for 30 watts out. I am asking $50.00 including shipping to conus for them. RF parts wants around $70.00 for the same.

These are brand new never been used and still have the one inch leads on them.

Thank You,

Bryan Fields, KB9MCI

This is false. ALL amendments to bills/acts must be voted on by both the Senate and House, as well as being signed by the President.

If it was introduced in February, it is far too late to do anything about it now. It has either been passed (highly unlikely) or dropped.

IC-735 with 500 Hz CW filter and including Icom SM-6 desk mic (about
$100 value). Excellent condition -- plastic door intact! Manual
included. Very clean, some wear on top, but no scratches. Asking $550
plus shipping. Radio alone (no microphone) for $500 plus shipping.

Please email to my callsign at arrl.net or my callsign at
midsouth.rr.com if interested.

I just completed an overhaul of the Propagation Center at the HF
Radio Resource Center (SWLing and Ham Radio). If you have not
been by in a while, or never, please take a look at the resources
available - they are updated in real-time. Included are eAlerts.

http://www.hfradio.org/propagation.html

I hope this is useful to you.

73 de NW7US, Tomas

Thank you for reading my message today.

I can not remember the e-mail address for a list server I was on from Sanford University. Too many HDD crashes I guess. If you know the e-mail of the W6(YZ@stanford.edu?) Mail list please forward that address to me please. I would like to say my good bye's to those on that listserver as well.

Name here is Michael David Hiltner
Call is VE3VRQ (AKA: CF3VRQ), No doubt, I have QSL'd with many on 2m & 6m SSB!
Grid is FN13gx

I will be departing for Saudi Arabia on the 20th of this month, and have been notified that I will not be able to bring over any of my radio equipment into the country.

Since I will be there for 5 years, I have decided to liquidate my Amateur Radio Equipment Holdings. There is one station for intl radio users (about 300km from where I will be stationed), I intend to visit this QTH as much as possible.

Remember These items WILL be sold to the BEST OFFERED PRICE. There are only 18 days prior to my departure, so please Print &/or FWD this message to as many Radio Amateurs you know to get the widest exposure. Time is of the utmost importance. Do NOT hessitate on this offer! They

WILL be gone before too long.

Items:

o Yaesu FT221r 2m
o Yaesu FT736r 2m / 440cm
o Mirage A1015g 100w 6m Amp
o GC Electronics 6m SWR & Power Meter
o General Electric (Shure Brothers) mic w/ 600ohm mic modification (This is what gave me my crystal clear transmitions on both my FT221r & FT736r!).

Buyer assumes the responsability for shipment / insurance of all of the above items.

Mailing address for your cheque:

Michael David Hiltner
VE3VRQ
18993 Loyalist Parkway
R.R.#3 Consecon, Ontario
K0K 1T0
Canada

Thank you kindly for your time & QSO's! I have enjoyed each and every opening I have been able to muster!

73 my friends! de, VE3VRQ, Michael

I'm looking to buy a Drake RV-75 Digital Remote VFO.  Must be in
working condition, name your price.

Thanks.
Neil, K1VY

FS: NorCal 40A  40-meter QRP Transceiver

The NorCal 40A is perhaps the most efficient and clean-design
single-band QRP rig made.  The receiver uses only 16 ma!
This one was built by an HP electrical engineer, and modified
to work reliably from 10-15v.

     Band:        40m
     Transmitter: 2w at 13 v.  Very efficient.
     Receiver:    4-xtal filter, RIT, Uses only 16 ma.

Available at www.ebay.com.  Search for "norcal".
Auction ends Sunday, Aug 20.

I have a new Radio Shack model # 20-280 amplified shortwave antenna with
the matching Radio Shack power adapter.  This can be run with the 9V
battery or with the power adapter.  $40.00 for both plus shipping.

I have 1 of the type M68729 class C (i.e. FM) 30 Watts out average, 40 Watts max. These will replace older M57774 modual just fine. The input drive is 300 mW for 30 watts out. I am asking $50.00 including shipping to conus for them. RF parts wants around $70.00 for the same.

These are brand new never been used and still have the one inch leads on them.

Thank You,

Bryan Fields, KB9MCI

This is my own one-owner/nonsmoker Alpha 87A, serial #91190053. It is in
absolutely top-notch (9.5 out of 10) condition

cosmetically and electronically. It comes with the original manual (clean; pages encased in plastic) and all schematics. It works perfectly (NEVER a problem of ANY KIND), delivers full output, and is ready to plug in and go with any transceiver.

Selling because I have never used it very much, and have an Icom PW1 to use with my IC-775. You'll be getting a REALLY FINE amp. Price is $3,995 + shipping/insurance FIRM. See my ebay feedback (swanman3) if you have any doubts. Tks es 73!

I am selling my excellent condition Yaesu FTV-901R Transverter...no reserve on Ebay:

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=416427431

a.. 144-148 accepts two other band modules
b.. 20 watts input
c.. ALC
d.. RF bypass for HF operation
e.. drive requirements 3V RMS at 28 - 30 MHz (requires xverter output or attenuator)
f.. 120VAC operation
g.. split for FM Repeater
h.. includes cables and instruction manual

Contact me at n1ar@yahoo.com with any questions. There are some nice pics of the transverter on ebay.

Hi all,

I have reproduced the diode boards for the Classic Collins 30L-1. If you have a 30L-1 and it has the original 1N1492 top hat diodes in it, you probably need one of these boards. Out of the seven amps I checked out, five of them had at least two shorted diodes. These new boards are just like the original in that all components are placed just where they are on the original. This board is extremely high quality and will live up to the Collins standards. All components are either NOS or NEW. The 16 rectifier diodes have been upgraded to new 1N5408's (3 Amp, 1000 volt PIV) made either by Motorola (now ON Semiconductor), or by Vishay. The 16 ceramic capacitors are 1KV ceramic disks made in the USA by Sprague. The 1500 Ohm resistor is a genuine Carbon Composition 2W 5% Allen Bradley! The 4 Meg 2W, 1% metal film resistor is a genuine Dale, and the

1 Ohm 5W 1% is either a Dale or Pacific NOS mil spec resistor or when these run out, it will be a New Ohmite brand. All assembly is being done by a NASA certified solderer. I have used the best components I could buy and hired the best assembler I could find. I wanted this board to be truely Collins Quality. A photo (not a very good one however) can be seen at http://members.aol.com/dw130/diode1.jpg   If you would like to place an order for one or more of these boards they are $79.00 each + $4.50 total shipping in US (no matter how many boards you order). If overseas, shipping will be actual cost. Please send to:

Rod Murray (K1ROD)
17 Shelly Drive
Derry, NH 03038
USA

I also accept Paypal at dw130@mediaone.net
If you would like feedback about how I conduct business please see my ebay id k1rod

Thanks and 73'

I have 1 of the type M68729 class C (i.e. FM) 30 Watts out average, 40 Watts max. These will replace older M57774 modual just fine. The input

drive is 300 mW for 30 watts out. I am asking $50.00 including shipping
to conus for them. RF parts wants around $70.00 for the same.

These are brand new never been used and still have the one inch leads on
them.

Thank You,

Bryan Fields, KB9MCI

I am selling my excellent condition Yaesu FTV-901R Transverter...no reserve on Ebay, auction ends August 28! (Monday):

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=416427431

*144-148 accepts two other band modules
*20 watts input
*ALC
*RF bypass for HF operation
*drive requirements 3V RMS at 28 - 30 MHz (requires xverter output or attenuator)
*120VAC operation
*split for FM Repeater
*includes cables and instruction manual

Contact me at n1ar@yahoo.com with any questions. There are some nice pics of the transverter on ebay.

Gun owners beware!

Senate Bill SB-2099 will require us to put on our 2000 1040 federal tax Form all guns that you have or own. It may require fingerprints and a tax of $50 per gun. This bill was introduced on Feb. 24. This bill will

become public knowledge 30 days after it is voted into law. This is an amendment to the Internal Revenue Act of 1986. This means that the Finance Committee can pass this without the Senate voting on it at all. The full text of the proposed amendment is on the U.S. Senate homepage. http://www.senate.gov/ You can find the bill by doing a search by the bill number. (SB-2099) Use the complete "SB-2099".
You know who to call; I strongly suggest you do. Please send a copy of this e-mail to every gun owner you know to help STOP this bill!!

I have 1 of the type M68729 class C (i.e. FM) 30 Watts out average, 40
Watts max. These will replace older M57774 modual just fine. The input
drive is 300 mW for 30 watts out. I am asking $50.00 including shipping
to conus for them. RF parts wants around $70.00 for the same.

These are brand new never been used and still have the one inch leads on them.

Thank You,

Bryan Fields, KB9MCI

I have the following items for sale (all prices are in US Dollars FOB Maple Ridge, B.C. Canada).

1) Icom IC-2800H (http://www.icomamerica.com/) Dual band radio. Was in my truck but now on the shelf. It is one year old, works great, replaced with a all mode all band radio

Asking $350.00 US

2) Radio Shack RS242 VHF mobile radio. Used for packet 2 years old. Works great in both 1200baud packet and voice.

Asking $100.00 US

3) Daiwa 30 Amp Power Supply, Variable output (5 to 20 volts) built in meter (switchable between Volts and Amps) 4 separate power connectors (1 - 30 amp screw lug connector, 1 -10 amp cigarette lighter, 2 - 6 amp spring loaded connectors).

Asking 100.00.US

I will sell the complete station for $475.00 US if someone wants the works.

Please e-mail me at kerry@keldar.bc.ca for more information

Hello,

I have just made a deal with another person on the newsgroup for the purchase of his IC-706mkIIG. Thanks to all that replied to my post.

Thanks again,

Piero - N3FVG

Hello,

I just wanted to let everyone know who may be interested, I received an e-mail from Barry Onigman <barryo@tiac.net>, who works for HRO, (unknown which branch, who stated that HRO just received a small shipment of brand new IC-706mkIIG's yesterday. If you call, ask/e-mail Barry for further details. I do not know the price, but I do know HRO will match any competitors price and Texas Towers currently has them for $999 with the Icom coupon.

Good Luck....

The following equipment is for sale. Please respond directly to Joe Nunimaker, KD3VR at bmejoe@juno.com or call him at 301-577-3749. He does NOT have access to this Newsgroup. Thanks.

Item 1):
2 Micor, solid state, 100 watt continuous duty repeater/base stations. 2 channel transmit and receive. Carrier squelch and private line, tone coded squelch, digital voice protection. Motorola C73RXB-1126B, date code of October 1988. Absolutely mint condition. Guaranteed to be completely operational.

These units have consecutive serial numbers. Both units are identical except one unit has a receiver board model TLD5781AV, which covers 132-142mhz. This receiver board will cover the 2 meter band without modification. All other boards are exactly the same in both units. The units are configured as remote bases, so they will need to be rewired as repeaters, if that is the intent of their use. This is easily done with the manual. Asking $895 each. Pick up only please from Maryland just outside of Washington DC.

Item 2):
CAI, commercial marine band, 2-30 mhz. 1 KW, continuous duty HF transceiver. The exciter unit is in a 19 X 22 inch equipment cabinet, is diode programmable and has 150 watts of output. The PA unit is in a 19 inch X 4 foot, roll around equipment cabinet. The PA unit uses an 8877 ceramic tube. The unit could be converted for the amateur bands by someone with some electronic experience. It is in working condition and can be seen in operation before purchase. Asking $500. Pick up only please.

3):
One (1) Eimac 8877 ceramic tube. Unknown age but can supply serial number. Will guarantee the tube to be in good operating condition and will make rated output power. Asking 450, plus shipping.

73 Thanks
Joe Nunimaker, KD3VR

I have an as new Sangean ATS-909 reciever that was purchased in January. This is the 25th Anniversary model. I have used it less than 1 hour. The manufacturers sticker has never been removed from the radio. I use my R-75 almost always. I am the original owner of this radio. I have the box, manual, A.C. adapter, case and roll-up antenna. I am also including a new Radio Shack amplified short wave antenna with the A.C. adapter. $200.00 shipped conus.

It's hard for me to believe that the next president of the United States will be George W. Bush or Al Gore. Both remind me of Hollywood movies that have been focus-grouped to death: they push all the appropriate buttons, but have zero original vision. Both stand for the same thing: corporate-driven business as usual.

There must be some way outta here.

Ralph Nader is no joker or thief. I think he and the Greens could give Al & George a good run for their money. At 65, Nader isn't running as fast as he used to, and the Green Party doesn't exactly have its platform figured out, but I think they have what it takes to inject a dose of radical democracy into the race. Unlike the two Tweedles, Nader is real, he stands for decency and common sense and he still commands a lot of respect in progressive and activist circles. And hidden behind the rainbow coalition of lefties, eco-feminists and crazies, the Green Party does have some great ideas. It's the only party that stands for the Tobin Tax, true cost markets, media reform and putting corporations in their place.

In October, with a fired-up Nader hurling intelligent sound bites into the presidential debates, the whole game show might actually be worth watching. The alternative is the most sophomoric presidential race in American history . . . and the lowest voter turnout ever.

I'm putting a GO GREEN - VOTE NADER graphic at the end of all my emails from now on. I'm betting that, between now and November, the American people will wake up to the fact that their sacred democratic experiment has now degenerated into a choice between a corporate-sponsored Republican and a corporate-sponsored Democrat.

In these heady post-WTO days, a sudden, massive protest vote against Al & George is entirely possible and Nader would be the most apparent heir. With perhaps less than 25 percent of the people voting, an inspired Nader campaign could grab a surprising share of the action. And even if he does not come close to winning, at least imagine how his campaign might pull together some of the fired-up, post-WTO forces and lay the groundwork for something really visionary in 2004.

Download the graphics and help launch an email pyramid scheme to dump the Tweedles! Two formats are available, a magazine sticker (17K) or a Banner ad (5K):

==

What it Means to be Green

"At the root of all Green political action is nonviolence, starting with how we live our lives, taking small, unilateral steps toward peace in everything we do. Green politics requires us to be both tender and subversive. Affirming tenderness as a political value is already subversive. In Green politics, we practice tenderness in relations with others; in caring for ideas, art, language, and culture; and in cherishing and protecting the Earth. To think Green is to build solidarity with those working for social justice and human rights everywhere, not bound by ideologies."

-Petra Kelly

I have a Motorola GP68 VHF 20 channel for sale or trade. This unit is in MINT condition and will be shipped in original box. Includes: rapid charger, ant. and batt.
I would be interested in trade for GP68 UHF or other UHF handheld. I will also entertain cash offers. Please reply to tim@tabol.com

Thanks
Tim

Hi Tim,

What kind of money were you thinking for the Gp68?

Thanks,

Doug

Subject basically says it all!

I'm looking for the original mic for the Icom IC-737 which the manual says it's a Icom HC-36. Please email me directly at ngwd@flash.net or kc4oxp@flash.net

I have for sale, a Icom HC-14 (which I believe went to the ICOM 706!? It has the keypad on the back of the mic, the condition of the mic is excellent! Best reasonable offer. email ngwd@flash.net or kc4oxp@flash.net .

I have 1 of the type M68729 class C (i.e. FM) 30 Watts out average, 40 Watts max. These will replace older M57774 modual just fine. The input drive is 300 mW for 30 watts out. I am asking $50.00 including shipping to conus for them. RF parts wants around $70.00 for the same.

These are brand new never been used and still have the one inch leads on them.

Thank You,

Bryan Fields, KB9MCI

I have the following for sale or trade:

Motorola MT1000 - 99 channel, VHF, DTMF Keypad
Maxon SM4150 VHF, 16 channel, 40Watt, scan

Both of these units are in nice shape. Pics available upon request.

Will consider trades for MOTOROLA UHF equipment or
Cash offers. Please don't ask how much I want, do some research and make an
offer!

Thanks

I am currently selling my Yaesu FT-50R on ebay.

The unit is in perfect condition except for the antenna, which has a slight (but very insignificant) 'curve' bent into it from brushing up along side my body. This is incredibly slight, but I like to be honest :-)

The package includes:
- The Yaesu FT-50 in incredible condition
- The Yaesu MH-34 Speaker Mic
- A rubber grommet for protecting the radio (it worked well!)

The following batteries:
1 - FNB-41* (Manufacture: Yaesu) 9.6v 600mAh   [NiCad]
2 - MH-FNB-41 (Manufacture: MAHA) 9.6v 900mAh [NiMH]
1 - MH-FNB-40H (Manufacture: MAHA) 7.2v 650mAh [NiMH]
1 - PR-FNB-V47 (Manufacture: PR?) 7.2v 1200mAh [NiCad]

The FNB-41 is "bad" and needs the cells replaced or sparked. The PR-FNB-V47 is practically brand new.

I am also including the Maha MH-C777 battery charger with this radio.

I am asking $250 for the entire package. You will not be disappointed.
The radio was modified, but I am unaware of the range of tx/rx.

For more information, or to make a bid on this radio, please visit the following auction on ebay:

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=405006165

.amateur.misc,rec.radio.amateur.swap

Hi all. I have five nice items on Ebay for sale. The auctions end
Sunday August 20, beginning at around 18:30 (6:30 PM California time):

Drake R4-C: LOADED and fully updated:
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=411060066

Drake T4X-C: Super Powerful:
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=411085258

Astatic D104 Night Eagle:
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=411041657

Drake AC-4:
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=411002050

Drake MS-4:
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=410979461

All items are fully satisfaction guaranteed.

Thanks for your interest and good luck with your bidding.

Neil

I am looking for two Drake TR-7 Accessories:

1. MS-7 Speaker

2. RV-75 Remote VFO

If you have either/both please email to NeilR@innermedia.com or call
(800) 962-2949 or (603) 465-2788

No junk please.

Thanks.

Neil, N1DMA

Icom IC-03AT

Includes: Radio, antenna,(2)BP-3 batteries, wall charger and copy of manual.

$180.00 including insurance and priority shipping to your door in the lower 48.

The radio is in good to good very condition (some wear from use but nothing more than very minor cosmetic wear) One battery holds a charge but it is not in "new" condition by any means. I get close to a full day's use out of it. Battery two seems to be at the end of its life but these battery cases can be opened without destroying them and new cells replaced for the old ones.

I'll thrown a non-icom hand mic that was included when I bought the radio, but I never used. I am selling the radio because I just got a mobile 220 that serves the purpose the HT filled before. Also, I have a copy of the manual and I thought I had the original but it isn't in its file and no where in the shack. If I find it, I'll include it (even if it's after the sale.)

I can provide a picture for interested parties.

Payment via cashier's check or postal money order. The radio will be shipped the day I get payment.

For the price police: Yes, I know that there are other newer 220Mhz radios out there. But really have you looked at the construction or what you get for your money?

email if interested

Drop by and visit AB7SL-Ham Radio Pages
You'll find....

1. Ham Radio Links - that actually work and are kept updated
2. Equipment Photos - thumbnails and full size photos
3. AB7SL Biography - learn a little about AB7SL
4. Personal Photos - see what I look like
5. Station Description - everything listed and described
6. Software Downloads - links and descriptions to software that I use
7. The DX Page - great insight for more effective DX'ing
8. IOTA List - downloadable for easy lookups
9. W7NH - Elmer Tribute
10. Prescott,AZ page - full of photos
11. Online Logbook - see who I have worked.
12. Music Page - what I listen to when not on-the-air
13. Guestbook - leave your thoughts and remarks for all to read
14. Public Links Page - leave a public link to your site.

For Auction:

Hamcomm/JVFAX (etc.) demodulator (comparator) with REGISTERED Radioraft v3.2 software. Use with a receiver or transceiver and a PC to decode RTTY, CW, ASCII, FAX and many other digital modes on the HF, VHF and other radio bands.

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=376745837

This auction ends July 17 at 12:51:17 PDT. Reasonable reserve price
-- if you're interested in digital transmissions on HF and VHF, I
invite you to put your bid in. Check my feedback profile on Ebay and
bid with confidence.

Enjoy,

Tim

Might one of you kind souls have a pinout for the accessory socket on
the back of the IC-271A/471A rigs? I think this was the same for the
251's as well but need it for a IC-471A.

Does anyone have a schematic for the Taco/Jerrold "Antenna Installer's
Meter?"  The instrument was built i 1985, when Jerrold was a dvision of
General Instrument Corpo.  With all the mergers that have taken place, the
meter is now an orphan.
Please help if you can.

A lot of Jerrold SLM's were built by Sadelco in Sadlebrook, NJ.  They
had the Jerrold name on them, but the insides were the same as my
Sadelco meter.

I have a question and for all of your Motorola Fans. Will a VHF Micor be able to accept Alphanumeric paging information and transmit it without errors?   I have been told that although it is direct fm modulation in the transmitter exciter, it might not be able to handle the Alphanumeric information. Is there any modification that can be done to correct the problem, if there is a problem?   Please reply via email. Thanks Don Smith KB6GQA

I have for sale or trade the following Drake items:

Drake TR4C Transceiver and AC-4/MS-4 speaker and power supply.
Excellent
condition cosmetically. Needs an alignment for full power out above
40M.
Original manual. Asking $325.

Drake R4/T4x Receiver and Transmitter with MS-4 speaker and AC-3 power
supply.
Used regularly and gets very good signal reports. Previous owner
repainted
with a glossy black paint, so you'd have to respray them with the
correct gray
paint to restore to original condition. Excellent condition
electronically.
Asking $325.

Icom IC-T7A 2m/440 HT with charger, manual,
new battery, original packing , receipt, and warranty card from when I
bought it new in 1997. The radio needs a new channel selector knob and
the speaker is a little raspy, so I suspect it needs to be replaced,
also. Cost for new parts will be under $15. Asking $140.

I'd take cash for the items listed above or would swap for any of the
following:

Yaesu 5400 AZ/EL antenna rotator
Swan 500 & PS
Swan 700 & PS
AEA PK-1232 or 2232 TNC
Icom IC-820/821
Kenwood TM-V7A
Kenwood TH-78A or TH-79
Heathkit SB-104A
Kenwood TS-830s

Please respond via email to jcamp2@home.com.

73,
Jeff N0WJP

MFJ 949E Delux Versa Tuner II. This unit isn't "just like new", it is new! 6 months old. It works as advertised and works well! I was given a MINT linear amp and this tuner only can handle 300 watts. I need to upgrade. I am so impressed with this MFJ unit that I am upgrading to their MFJ-962C 1.5 KW Versa Tuner III. Specs on this tuner can be found at http://www.mfjenterprises.com/tuners/mfj949e.html Buyer pays shipping w/insurance. US Certified Funds or US Money Orders Only.

Shure Desktop Amplified Microphone model # 526T Almost new condition. In fact, I just replaced the Mic Crystal and went over the amp circuit with a fine tooth comb. This mic is wired for a 4 pin Yaesu radio. I have had great audio reports with this mic. I now longer have a use for this mic as I am trimming down gear that is gathering dust. This mic was last used with the Yaesu FT301 D that I currently have on eBay. Will work with any 4 pin mic input. Buyer pays shipping w/insurance. US Certified Funds or US Money Orders only.

Yaesu FT301D TRANSCEIVER 10 - 160 meters. LSB, USB, CW, AM, FSK. SSB - 200 Watts. CW 200 Watts. AM, FSK - 50 watts. This HF unit was recently returned from Yaesu USA. I sent it off to have it tuned up and aligned so I could put it up for auction. Radio is within all Factory Specs. GREAT FOR NEW GERNERAL or OLD EXTRA! I hooked it up and connected to it a dipole and made 3 contacts with 3 attempts on 20 meters. Radio is putting out a little over 180 watts on 20 meters USB and 50 on AM. (on a home made dipole ant) Although this radio is aged a bit, I always thought it had one of the better front end receivers of all the Yaesu's. It's reception is even a bit better than on my new FT840. Radio operates on 12 VDC. Needs a power supply or use as Mobile. Comes with factory Hand Held Mic and a Photo Copy of the Operating Manual with Schematics. US Certified Funds or Money Order Only. Buyer pays shipping. Unit ships at 32 pounds.

Greg,

I am posting the email I just sent you on this and appologise to all on this matter. The specs on this radio do indeed say 200 watts input SSB. The readings I am getting are from a NEW MFJ 949 and an older Radio shack meter. Both are showing needle peaks around 180 watts. This could be from ballistics.

But to clarify the post, this radio was certified by Yaesu this month to be within or above all factory specs. I can a copy of this letter from Yaesu to anyone who whould be interested.

Thanks, and again, I am sorry for any misunderstandings this post may have caused.

MD

Greg,

You may be correct but my MFJ 949 and a cheaper radio shack meter are both showing this radio to be peaking the needle at 180 watts. It may be due to ballistics.

I will place another post to clarify this.

Thanks for the information

Mike Donovan MSEE
Capt USN

Thanks for reading my posting.

I have (2) HTX 212 2 Meter Mobile 50 Watt Excellent Condition with mic, mounting brackets and possibly manuals. I cannot install them into my vehicles (no space) and need to aquire a smaller 2 meter radio. Will make a GREAT DEAL if purchase of both at the same time. Will of course sell individually as well at a good price.

Purchase both radios $260.00 SHIPPED - Or purchase 1 radio at $130.00 plus shipping. Email only if seriously interested.

I have for sale or trade 3 Motorola Syntor X  100 watt VHF low band
radios with control heads and cables.  These can be programmed for 6 or
10 meters.  Make offer.

I'm looking for the following items and would work out a swap for the
Syntors:

Kenwood TS-830s
AEA PK-2232/1232 TNC
MFJ-1278 TNC
Kenwood TM-V7A
Yaesu 5400 AZ/EL rotor
Kenwood TH-78A or TH-79

Please respond via email to jcamp2@home.com

Hello fellow usenet denizens...

I was lucky enough to find a well-operating Hickok 6000 tube tester,
but I have no schematic for it.

I'll pay your copying cost, travel and postage if anyone would be
kind enough to make a readable copy of the schematic for me.

Please respond via phone, or email to NeilR@innermedia.com

My address;

Neil Rosenberg
60 Plain Road
Hollis, NH 03049

Thanks in advance!

Regards;

Neil, N1DMA

I have for sale or trade the following Drake items:

Drake TR4C Transceiver and AC-4/MS-4 speaker and power supply.
Excellent condition cosmetically. Needs an alignment for full power out above 40M.
Original manual. Asking $325.

Drake R4/T4x Receiver and Transmitter with MS-4 speaker and AC-3 power supply.
Used regularly and gets very good signal reports. Previous owner repainted
with a glossy black paint, so you'd have to respray them with the correct gray
paint to restore to original condition. Excellent condition electronically.
Asking $325.

Icom IC-T7A 2m/440 HT with charger, manual,
new battery, original packing , receipt, and warranty card from when I
bought it new in 1997. The radio needs a new channel selector knob and
the speaker is a little raspy, so I suspect it needs to be replaced,
also. Cost for new parts will be under $15. Asking $140.

2 Motorola Syntor X Lowband VHF units. 16 channel, 100 watts out. Can be programmed for 6 or
10 meter amateur bands. No control heads. Asking $125 each

I'd take cash for the items listed above or would swap for any of the following:

Yaesu 5400 AZ/EL antenna rotator
Swan 500 & PS
Swan 700 & PS
AEA PK-1232 or 2232 TNC
Icom IC-820/821
Kenwood TM-V7A

```
Kenwood TH-78A or TH-79
Heathkit SB-104A
Kenwood TS-830s

Please respond via email to jcamp2@home.com.

Beware of this auction and seller. After I won a bid for 20 feet, the seller refused to sell me unless I buy at least 50 feet or wait such length is available. In the auction I bid on, the seller did not place any requirement on minimal length to purchase. I think per E-bay rule, the seller is obliged to sell but he/she does not care.

I have 1 of the type M68729 class C (i.e. FM) 30 Watts out average, 40 Watts max. These will replace older M57774 modual just fine. The input drive is 300 mW for 30 watts out. I am asking $50.00 including shipping to conus for them. RF parts wants around $70.00 for the same.

These are brand new never been used and still have the one inch leads on them.

Thank You,

Bryan Fields, KB9MCI

Hi all. I have two nice items on Ebay for sale. The auctions end tonight, Sunday, at 19:36 and 19:45 (California time) respectively:

R4-C:
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=392393455
currently only $212.50, and the reserve is met.

and

T4X-C:
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=392405966
currently only $239.06, and the reserve is met.

Thanks for your interest and good luck with your bidding.

Neil

I have tossed together a web page which attempts to provide a step-by-step guide to converting the Heath SB-220/221 amplifiers over to 6 meter only operation. There are pictures (such as they are) included to clarify the procedure.

If this should interest you, please go to
www.agate.net/~ns1z/sb220.html

and look it over. Should you have suggestions on improving this reference, I would appreciate hearing from you. Like antenna work, a web page is never done......

If you use my page to do a conversion, let me know how you make out.

Have Fun!

NS1Z FN44rn (for those of you with ICBM capability.....)

I have a kenwood TS-140 HF transciever for sale on ebay if anyone's
interested, covers 500khz-34 mhz (1.6-32 TX continuous), 100W, etc..

Spent most of its life sitting in the box, not used much at all.

Besides an interesting collectable, these are useful for wind position
and speed sensors, ham antenna position reporting, and legacy industrial
uses.
Can be run on 60 Hertz 12 volts AC if you lightly sense your outputs
with a PIC or whatever

Please see tutorials and details at

Hello,

I have been considering on purchasing another IC-706 for my mobile, but want to upgrade to the mkIIG. The best new price I have found is Texas Towers at $999. Anyone know of a better source/price? Anyone have a nice used IC-706MkIIG at a good reasonable price?

Thanks,

Kenwood TS-850SAT for sale.
It is in excellent condition both physically and electrically. Auto tuner works great.

50 mil. serial number. Clean and works great. No scratch or ding.
Just a couple of small and fine pen marks on the option bay door. Front
is in perfect condition.
It comes with MC-60 desk microphone which is also in near mint
condition,
but no hand mic, boxes, or filters.
It also comes with original manual.
Price is $825 (in USD) plus actual shipping cost by UPS (around $35 for
most locations in North America).

I would avoid this unit like the plague.

If the poster can't be honest enough to post that it's "for auction"
instead of the 'for sale' how honest do you think the condition
of the equipment will be?

Mike

I have a Tempo One that has been taking up space in my basement. The rig
works but does need some alignment. It is the Silver face model. covers
80-10 including 11meters. It was the first HF rig I owned and will make a
nice starter rig just needs some TLC. I will sell it for $125.00 or best
offer or maybe trade for a decent 2meter or dualband HT.
Email to rellison@twcny.rr.com if intrested.

I have an ft-101ex I would like to sell or trade. The AM recieve is a little low, and the power on 10 meters and possibly some other bands is a little

low but the ssb, and cw recieve is perfect, and I think a new driver, and
maybe an alinement and the radio would be all set. I will considder trade
with cash for a solid-state hf radio that might make a decent backup radio,
or, if you make me an offer, more then likely if it isn't rediculas, I will
considder it. I have with the radio, a sure 444 mic, very banged up, but
works fine. Email me if interested at n1umj@mediaone.net

If you have a call book from 1978/79 that has a listing for KA1AAF
I would like to buy it from you so I can show the FCC that I did
have a license. They can not find it in their data base.

Thanks in advance and please Email direct.

73,
Norma

Yaesu FT-2200 2 meter transceiver with extra power cable, excellent condition
(if a 10 is new, this unit is a 9.5). Boxes, manuals and auto mounting bracket
is included. Unit has extended receive (140-175 mhz.) and transmits 50/25/5
watts output. I will include a Phase III AC power supply (13.8 volts at 12
amps).  Price $130 shipper to your door. EMAIL if interested.

 For sale a near perfect Kenwood TS450-SAT with antenna tuner and 500 khz. cw
filter. The unit includes all boxes and manuals.
 Also included is a Pyramid 30 amp AC power supply, MFJ 407b keyer and homemade
squeeze key and MFJ 1704 coax switch. All manuals or data sheets included with
this equipment.
 The Kenwood has never been mobile and I am not a smoker. If a 10 is new and
still in the box, this unit is a 9.5.
 I will not break up this equipment. Price is $800 shipped to your door.

Hi all;

Looking for a single paddle morse paddle, same as or similar to
Hi-Mound model MK-704. I don't want an iambic (double) paddle,
please. This is for my own use, I am NOT a collector. No-name,
no-brand is fine, but must be good quality/condition.

What do you have?

Please contact:

Larry, K1CWZ at l.spinak@spikraft.mv.com

or call (603) 889-0908

Thanks, and 73

===========
Hi Larry -- I have a Kent single paddle brass key. Tis tarnished as
brass does. The plastic paddle part broke and I replaced it with a like
size PC board material -- won't break for sure. Otherwise -- nice
condition. Reason for selling -- someone sold me a single paddle Bencher
for a nice price -- which I use now.

Make me an offer on the Kent.
New price is PL-PK103   KENT SINGLE PADDLE
129.00   122.00 Canadian see URL:

I'm looking to buy a Drake MS-7 speaker.

Here's how to contact me:

Neil, N1DMA
(603) 465-2788
or (800) 962-2949

or via email at NeilR@innermedia.com

The speaker need not be pristine, but must work. Sticky paint ok.

Thanks.

Neil

For sale:

1. Heath HM102 HF SWR/power meters. Have 2, both working. #1 looks good, no mods. $30 plus shipping. #2 has cracked meter face and has an added switch on FP to switch from set to read on SWR. $20 plus shipping. Both with repro manual.

2. VIC20 RTTY outfit. 3 VIC 20 computers. 2 work, 1 parts (may work), 2 power supplies. VIC books. MFJ 1234 RTTY terminal, MFJ cartridge software for VIC 20 (RTTY/ASCII/CW) and cables for 1234. AIR cartridge software (rtty/AMTOR/CW) for VIC 20 and cables for 1234. MFJ software for 1234 for DOS computer and serial cable.
Sell as a set only. $100 plus shipping.

Also have a Sears 13" B&W tv/composite monitor to go with it.
$20 plus shipping.

3. "antenna tuner" parts I would like to sell as a "set" rather than one at a time.

Cardwell 154-2 variable capacitors, 2 each
15-353 pF, 2kV, Used, short shafts, good condition.

EF Johnson 229-203 roller inductor 28 uH
Used, good condition.

B+W Miniductor #2410T 3" x 10" 10 TPI
200 uH New Old Stock but first 3 or 4 turns from each end have been bent.. although they have been bent back close to shape.

$150 shipped for "set"

Prices for the "set" new at Surplus Sales of N would be over $300.

4. Xtal for KWM-2/2A 15.9775Mhz dial freq 28.8 to 29.0 Mhz ,$8 shipped.

Purchased new four years ago with brand new tubes, original manual, good
quality microphone.  Used it for a year for 1-2 hours a night, but have
since moved into an apartment and it's been in disuse for about three
years now.

I hate to sell it as it's a great radio, made a *lot* of contacts on
it..  But I don't see being able to use it any time soon, so it must go.

Radio is in very good condition, works flawlessly, case is in perfect
condition.  I can take lots of pictures and put them on my webpage for
inspection.

Thanks!

Can anyone make a copy for me of the owner's and/or service manual for the
Alinco DJ-580T? I have the radio and can't figure out some of its
functions.

I am willing to pay copying and mailing costs, etc.

Thanks and 73,

Neil- I have a Kent single paddle- in very good condition.- asking $100
plus about$4 to ship.
Reason for offer- I haven't used it since my son gave me a Vibroplex
(paddle, not key), so it's been gathering dust on the bookshelf

All the bells/whistles -- including 440 MHz. Great 6m radio, high power on 2m.

Purchased new less than three months ago. Less than 10 hours operating 25% duty cycle. Traveled to Albania with me, and I don't need it since returning. Like new with all documentation and box. I paid $960 at Texas Towers, asking $875 including shipping continental US.

For quick response, reply to my callsign @ arrl.net.

73, de Marty

Tom:
If you want some help working an antenna from an apartment, I will help.  I
live on the 5th floor of a condo, and use an AL-80B when I need to.

This is brand new in the box for $100. It works great on any radio.
I have the cable for Ten-Tec included but you can put any plug on the
cable. This adds richness to your audio and also stops the background
noise like fans from amps. 73 Chris VE3NGW/W4 Florida

Hello,

I have an ICOM IC-R10 that I want to swap for for a nice laptop.

The radio is in very good condition. It is full coverage (no cell block) and comes with two antennas, case, charger and manual. If you don't know the specs on the R10, email me.

The laptop has to have a CD-ROM drive. If it is very nice, I am willing to add a little cash to the deal.
